

FARMERS' PICNIC

J. E. NASH, Principal Speaker

Enjoyable occasions are often mentioned as a PICNIC, the Time of Times, a Hummer, etc. All these mentionings, together with any other that you or your neighbors may know or invent, should be joined and proclaimed in one grand chorus in order to come anywhere near describing the Joyful Occasion this man Nash has in store for all farmers and their friends. Listen: the WHEELER-THOMPSON CO. of Cottage Grove, Oregon, have placed their entire stock of Men's and Boys' Clothing, Men's, Women's and Children's Shoes, Hats, Caps, Underwear, Gloves, Ties, Collars, Scarfs, Suit Cases, Hosiery, etc., etc., in my hands to close out. My orders are to sell and sell I will, from the opening of the doors, Thursday, Oct. 26th at 9 a. m. until the last article is sold. This Slaughter Sale will rage in all its fury. As you read it here, so will you find us doing. Come and see what the purchasing power of a dollar means to you. Our Special Offers for Monday and Tuesday should not be missed by you. There will be no such judgments--no favoritism shown. Each and every purchaser shares alike. Come to this Sale both Monday and Tuesday, a money-saving event awaits you.

J. E. NASH
Sales Manager for Wheeler-Thompson Co.'s Great Sale

MANY DEATHS THIS WEEK

DEATH ANGEL ENTERS FOUR HOMES.

Mrs. Harvey Ax, Mrs. S. C. Counts, Mrs. E. S. Davis and Reed Baby Answer Summons.

Mrs. Harvey Ax died Monday at Disston. Cause of death was uterine hemorrhage, brought on by a fall, when she fell from a door step. The step was but a few inches high and her sudden death from such a trivial cause at the age of 30 is very sad. She was sick but two days. The body was taken to Massillon, Ohio, Tuesday night for burial in the family cemetery.

Mrs. Ax leaves a husband and three small children, who accompanied the remains to Ohio, and will probably stay there. The family came here from Marshfield last spring and were making their home at Disston while Mr. Ax was working in a mill there.

Mrs. S. C. Counts, wife of one of the section foremen, died Sunday evening of tuberculosis. Mrs. Counts was a native of Canada and 43 years of age at time of death. The funeral was held Wednesday from Veatch's chapel, interment being made in the Masonic cemetery, Rev. Robert Sutcliffe officiating. Mrs. Fred Witcher and Miss Leota Case, of this city, are daughters, and the deceased leaves many other relatives.

The infant daughter of Mr. and Mrs. Chas. E. Reed, of Lorane, born Sunday morning, died Sunday evening. Interment was made in the Masonic cemetery. Mrs. Reed has been living in the city for the past month.

Mrs. Elizabeth S. Davis, widow, died Wednesday at the home of her daughter, Mrs. Joe Wicks at Star. She came here a couple months ago from eastern Oregon, being sick at the time.

Mrs. Davis was born in Indiana and was 72 years of age. She was the mother of the members of the De Moss musical troupe and had several other sons and daughters. The body will be shipped today to De Moss Springs, Sherman county, Oregon, for burial.

Announcement by Wheeler-Thompson Company.

We desire to announce to the public over our own signature that we have decided to discontinue our business. We have been in business in this city for the past five years and during that time have enjoyed a liberal patronage from the public, for which we are very grateful. We are not forced to sacrifice our goods and discontinue our business. We could still remain if we so desired, and do business at the same old stand, but we have decided to quit, and in order to allay all suspicion and to assure the public, regardless of opinions, that we mean what we say, we make this public declaration. We are not giving our goods away, but we are selling them at cost and there is no limit to your purchases. Again thanking the public for past patronage and soliciting your trade during the life of this stock of high class merchandise, we beg to remain, Yours truly,
WHEELER-THOMPSON CO.

Growing Business Demands More Room.

Umphey & Mackin's store is this week undergoing some remodeling that will greatly increase its capacity. The 40-foot storeroom at the rear of the main store, which has not heretofore been in use by the firm, is being added to the floor space, and the partition which has divided the main store from the stock room is being taken out, giving fourteen feet additional length to the main room. The firm felt that growing business demanded this extra space, and a new stock of shoes will arrive in a few days to take up some of the room. A men's furnishings department was just recently added.

What Oregon Soil is Doing.

Concord grapes are coming into the local market freely. They are of a good quality, and while the yield is not as large as it has been many years, it is expected that by the time the entire crop has ripened and been marketed it will make a fairly good showing for this country as a producer of that kind of fruit.

Felix Currin has placed in the window of the Rees-Wallace store a vegetable which he calls the punko-squash, as it bears some of the characteristics of both the pumpkin and squash. The vegetable is the result of one of the many experiments which Mr. Currin is carrying on at his farm.

Mill Running Night and Day.

The stamp mill is now running night and day at the Vesuvius mine, in the Bohemia district, and a bunch of the yellow stuff will be gotten out this winter.

Two freight teams arrived yesterday at the Musick mine with winter provisions.

Continued fair weather has prevailed in the Bohemia district.

Sun Shine For Sale.

That is what we sell you when you buy a nice Cabinet Grand Piano, Edison Phonograph or Victor Talking Machine, of us, and we will duplicate prices and terms with any one, at Veatch's Music store.

Card of Thanks.

We desire to thank the Royal Neighbors and friends for their kindness, sympathy and flowers in our recent bereavement.

Churchill & Abeene, Props.

Makes regular trips to Bohemia postoffice every Monday, Wednesday and Friday. Leaves from West Side Feed and Livery Barn.

TRAVELING 100,000 MILES

GLOBE-GIRDLING AUTOMOBILE STOPS HERE.

"Bull Dog" Arrives Here on Longest and Hardest Trip Ever Attempted by Any Machine.

With a total mileage of 35,724 miles covered since July 31, 1911, and 48 states travelled, the Abbott-Detroit "Bull Dog" arrived in this city at 5 o'clock Wednesday evening in charge of Dr. Charles G. Percival, editor of Health Magazine, of New York City, under whose auspices a trip of 100,000 miles is being attempted, the longest trip ever tried by automobile. The Doctor expects to accomplish the feat. The car has already been completely around the borders of the United States for the first time in the history of automobilism and has path-finding the Pacific highway from Tia Juana, Mexico to Vancouver, British Columbia and has travelled under its own power from Skagway, Alaska, over the dreaded White pass to the headwaters of the Yukon river and been to a point 30 miles beyond 62 degrees north in the Arctic circle and a thousand miles further north than ever before made by an automobile. For this feat, Dr. Percival and his companion, George Brown, won the valuable silver trophy offered by the Daily Alaskan, of Skagway.

In addition, the Arctic Brotherhood, the famous organization of the Arctic circle, composed only of men who have "mashed" over the trail and lived north of 54 degrees, made both men members of the order, while Dr. Percival shares with the Lord Governor of Canada, Earl Grey, the honor of being a Grand Arctic Chief of the order. The two men have crossed the continent twice and are now making their way east over the historic Oregon trail. During the late Mexican revolution the tourists were touring in the country and were attacked by bandits and were interested spectators of several battles between the federal troops and the insurgents. They have been across all the American deserts and were lost for 48 hours without water in Mexico near the American border and were saved from death by a detachment of soldiers from Troop K of the 4th U. S. Cavalry, Captain C. C. Farmer commanding, who were found by Dr. Percival after he had made a 22-mile walk across the desert without water in 120 degrees of heat and ankle deep sand in ten hours and for which feat he has been recommended for a Carnegie medal, having ridden back with the soldiers to the rescue of his companion, who would have perished but for their aid.

From this city the old Oregon trail made famous by early pioneers will be travelled and on arrival in New York City the car will proceed down the Atlantic coast to the Isthmus of Panama making a distance covered equal to twice around the world.

This car and party were here two months ago, previous to making the Alaskan trip.

"Question of a Troubled Ruler," Methodist church, Sunday evening. "Booze Did It," Methodist church, Sunday morning.

HAD PLEASANT OUTING

HEALTH RETURNS DURING A SHORT VACATION.

W. V. Gillespie Returns from Pleasant Health Seeking Trip to Hot Lake Oregon.

W. V. Gillespie, of Row River, returned Tuesday from Hot Lake, Ore., where he went to receive treatment for a severe case of rheumatism, with which he had been badly crippled up for three months. He returned completely cured and can not say too much in praise of the Hot Lake Sanatorium. Mr. Gillespie has worked in almost every saw mill on Row river and contracted the disease from exposure while working in the flume for the Crites & Gawley people.

The curative waters of the Hot Lake springs are highly praised by Mr. Gillespie, as are also the attention given and conveniences furnished by those in charge. He says cripples of every description are arriving daily, while others are going away completely cured. Some 300 patients were there when he left. He related some wonderful cures that were almost beyond belief, and gave it as his opinion that the waters are simply Nature's cure for those she has afflicted, although skilled medical attendance is always at hand.

Mr. Gillespie related the following interesting information about Hot Lake and the sanatorium. The boiling mineral spring which feeds the steaming lake is known in Indian tradition as a place where the silling red men found relief and cure from time immemorial. It was their belief that the Great Spirit had opened here a seam in the earth in order that the water, mud, and vapor might escape from the mysterious inner world to restore their sick and injured to life and vigor. Be this as it may, the spring exists, and though the red man is no longer in evidence and his bark sweat-house has long since disappeared the paler brother has seen fit to take possession, and there is evidence that the minerals contained in the water and mud have lost none of their beneficial qualities.

The equipment of the Hot Lake Sanatorium is as complete as money and modern architectural science can make it. Every comfort has been provided both for patient and guests.

The sanatorium building is solidly constructed of brick, stone and wood. It is three stories high and more than two city blocks in length. There is ample elevator service, as well as broad, widedread stairways.

Arrangements for recreation are many. There is a large dance pavilion, a large billiard room, sun parlors, etc. The mammoth building is heated throughout with hot water from the mineral spring. This item is responsible for a saving to the management of more than \$30,000.00 per annum. Therefore it is possible to arrange a scale of prices much lower than other institutions of similar magnitude and magnificence.

Mrs. W. W. Shortridge returned Monday from a visit with relatives in Eugene.

Manual Training and Domestic Science Discussed.

Manual Training and Domestic Science, as relating to the local schools, was discussed at the meeting of the Patron-Teachers association last Friday afternoon.

C. P. Jones spoke on Manual Training and Miss Wahrer on Domestic Science, after which followed a general discussion. The subjects were not thoroughly threshed out, however, and will be again taken up at the next meeting.

The securing of manual training and Domestic science courses for the Grove schools is going to be somewhat difficult owing to the fact that it is a second-class district and is required to follow the state course of study, in which no provision is made for these subjects.

Notice of Appointment of Guardian.

Notice is hereby given that the undersigned has been duly appointed by the county court of Lane County, State of Oregon, Guardian of the estate of F. A. McKibben, an insane person.

All persons having a claim against said estate are hereby notified to present the same, duly verified, to the said guardian at the office of J. E. Young, attorney for said estate, at Cottage Grove, Oregon, within six months from the date of this notice.

Dated this 30th day of October, 1911.
J. E. McKIBBEN,
Guardian of the estate
of F. A. McKibben.

S. H. and L. R. Shortridge were in Eugene the first of the week, to attend a funeral.
