"IN A BAD WAY."

Many a Cottage Grove Reader Will Feel Grateful for Information.

When your back gives out; Becomes lame, weak or aching; When urinary troubles set in, Your kidneys are "in a bad way." Doan's Kidney Pills will cure you. Here is local evidence to prove it:

Mrs. J. H. Shortridge, Cottage Grove, Ore., says: "Since I publicly recommended Doan's Kidney Pills two years ago, I have taken them off and on and they have always benefited me. I was all run down from kidney and bladder trouble and often my back was so weak and lame that I could hardly get around. I had headaches and the kidney secretions annoyed me. After I had taken a number of remedies without benefit, I was told about Doan's Kidney Pills and deciding to try them, I procured a supply at Benson's Drug store. The contents of three boxes improved my condition in every way. I have often told other persons how effective Doan's Kidney Pills are in case of kidney complaint."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

LOTS OF TROUT FRY.

Plenty to Stock all the Streams of the State.

Six hundred and twenty-five thousand and black spotted trout are being held at the Bonneville hatchery, all of which will be released in the various waters of the state as soon as the special tanks that are being constructed are completed and the little fish old enough to take care of themselves. These trout eggs were secured from the Yellowstone country, where they were taken by the Government.

This release of trout is especially designated to assist in the re-stocking of several of the streams of the state. Under authority of the State Fish and Game Commission, Warden Finley has been instructed to designate the waters into which the trout will be liberated. Under the state law, any stream may be closed by the commission for a period, for the purpose of re-stocking or protecting fish.

To entail as little hardship as possible upon the anglers of the state, the

state game warden believes that some of the upper small tributaries of the rivers of the state would be the best grounds for the trout. These tributaries will then be closed for two or three years, and at the expiration of that time opened again, when the fishing in the main streams will be unexcelled. It is believed that in that time the trout will be able to propagate and mature sufficiently to amply re-stock the main river.

It will be the policy of the warden to make the distribution as wide as possible, closing small tributaries in all

parts of the state. A year hence the same plan will be followed, so that after three years many new streams will be opened for fishermen every year.

About 75,000 steelhead trout are now being released in the upper tributaries of the Clackamas river. These have been fed by the state for some time, but have been held by the government station at Cazadero. The commission is now getting ready to gather a large number of trout eggs at the coast stations and up the McKenzie. This work will be done in the spring.

CHRISTMAS SHOPPERS

had better get busy as there is only EIGHTEEN shopping days remaining in which to buy your present for Christmas.

We have our Christmas Goods ready for your inspection and will be glad to show you through the Toy Department.

We extend a hearty welcome to all.

LURCH'S Cottage Grove

We of this Generation

have a great many things to be thankful for. Improvements in all branches of industries make life more than worth living. The modern housewife don't have to open her oven door every few minutes to baste her turkey, for she can have a self basting roaster. We carry the famous "Reed" Roaster, and if it wasn't the best on the market we wouldn't pay freight from Newark, N. Y. when there are dozens of factories making them in the middle west. We sell at the price of others.
