If not, make one right now to hereafter buy your Dry Goods and Groceries of us. If you have already made such a resolution, be sure and keep it. Our prices are as low as consistent with quality given.

JOHNSON & CO.

### From College to Farm.

A few years ago there was a young man who had been reared on the farm where wheat had been the main staple produced. His horizon of thought at that time was limited to the experience of his days on the farm and a common school education. So far as making farming his life work according to old methods, there was not very much to attract and keep him on the farm.

This young fellow made up his mind to take an agricultural course in the college in order to find out whether he could improve on the old methods of his father. He has been studious and alert and his mind has been broadened to a remarkable extent. We saw him but a few days since and we scarcely knew the young fellow. He is a gentlemanly appearing young man, with an earnest eye and a buoyant, business-like air about him. The possibilities of farm life are now to him something glorious. Already the income from his father's farm has been increased one-third. The farm home is more to him than ever before and he intends just as soon as he completes his course to return to the farm and make the place produce better results.

Once in a while an old timer is found who ridicules the idea of college farming, but he is getting to be rather scarce these days. He does not realize what a back number he is. If he will but awaken and devote a week to the investigation of that which has been

accomplished within the last decade in soil and crop improvement in every state in the union, he will find out what advanced methods are accomplishing. Besides, the good work has just fairly begun. If he but knew it, he is far behind the Chinese as an agriculturist. A short study of the reasons why the northwest has been brought into such prominence as a fruit country, should convince him of the great benefits to be derived from advanced methods. Slipshod, haphazard methods in all lines of business are beginning to be a thing of the past, and the business of farming is no exception to the rule. —Deschutes Valley Tribune.

### Give Your Wife a Vacation.

Miss Ava B. Milam, professor of domestic science at the Oregon Agricultural College, pleaded the cause of the women on the farm in a recent address at Salem before the Threshermen of Oregon. She urged the members to give their wives vacations from the endless routine of home duties at least twice a year, to give them some spending money without their having to ask for it, and to put labor-saving devices into the houses as well as into the barns and fields. She was applauded to the echo.

Have you got something kicking around in your way that you want to get rid of? A reader in the Sentinel may sell it for you.

## MANY COLONISTS WILL COME IN THE SPRING

OREGON STRONG MAGNET TO HOMESEEEKERS.

Industrial Agent of Great Northern Receives Encouraging Reports from Exhibit Car.

Influx of colonists into Oregon and the settlement of unoccupied farms in the state during the reduced one-way rate period next spring will exceed all records, according to advance information received by Fred W. Graham, western industrial and immigration agent for the Great Northern railway. Mr. Graham is keeping in close touch with the Oregon exhibit car which the Great Northern has on its second annual tour of the east and learns that the interest among farmers of that portion of the country in Oregon is such that it will bring many of them to the state within the present year. In the last few weeks the car toured Iowa, the following being samples of reports obtained from officials in charge:

K. F. Johnson, of Oelwein, Iowa, is interested in Oregon and will settle here in the spring. G. P. Thropp and L. G. Titus, farmers living near the same city, will investigate Oregon. E. E. Sowle, of Dubuque, Iowa, will settle in central Oregon.

At Clarksville, Iowa, more than 600 persons visited the car and asked about Oregon. Many are figuring on coming here to investigate. D. M. Battin, of Shell Rock, Iowa, wants to settle in central Oregon and will visit that section this year.

From Allison, Iowa, John Jacobs, L. Kannegger and L. J. Larson will come to Portland to seek permanent locations elsewhere in the state. William Colby and A. Bailey, farmers, living near Dumont, Iowa, will try to obtain farms near McMinnville. J. C. Resen, of Allison, Iowa, has decided to come to the state, but has not selected his permanent location.

"Oregon and Washington stand well with the people," was the report sent from Dumont, Iowa. A minister announced the coming of the Oregon car from his pulpit at Rowan, Iowa, and this increased the attendance and aroused additional interest. George Mulligan will come to the state from Swaledale, Iowa, and C. Jarab and W. H. Butterfield from Belmond, Iowa. J. B. Orr, of Eagle Grove, Iowa, has eight sons who are eager to locate on farms in Oregon and may come to this state in the spring.

O. W. Emmons has worked up interest among farmers along the line of the Chicago Great Western railway and will bring a party of them to Oregon on an inspection trip. Strong interest from central Oregon was reported from Lohrville, Iowa. A party consisting of five or six families will come to the state from Mallard, Iowa.

Similar reports come from every city that the car has visited. Its schedule provides for a tour of Illinois, Indiana, Ohio, Michigan, Wisconsin, Minnesota, Iowa and Missouri, giving it sufficient stops until the middle of June.

The interior of the car is fitted with displays of Oregon products, photographs of industrial scenes in the state and printed matter descriptive of the state. Literature dealing with the varied industries of Oregon is distributed freely. Particular efforts are made to reach the farmers. The car, therefore, stops only at the small towns and avoids the cities. Lectures are given at nearly every station, the attendance almost invariably filling the hall. Stereopticon slides illustrate the lectures of the Great Northern orators. Last year 163,000 persons passed through the car, and 20,500 needs of families registered, while 33,250 heard the lectures.

"More people, more dairymen, more hog-raisers, more poultry-raisers, more fruit-growers and more farmers," is the slogan of the Great Northern colonists movement.

### Training Nurses; Free Scholarships.

The Philadelphia School for Nurses, 2219 Chestnut street, Philadelphia, announces that enrollment for the spring classes will shortly begin. This institution is recognized and endorsed by leading physicians everywhere. Free scholarships in the two-year course are available and provide room, board, laundering, incidental expenses and railroad fare home on completion of the course. A home study course and a resident short course are also provided. The school provides full instruction under safe and wholesome conditions and opens the way to almost immediate financial betterment for those who need to increase their earning power.

A special short course class opens February 21, 1912. This class is formed at the request of leading physicians who are anxious that some provision be made to meet the increasing demand for nurses in all sections. This is an opening which will be appreciated by those who needed to quickly prepare themselves for self-support and nursing duty. An illustrated number of the school bulletin, which is sent free to interested persons, gives all the details.

## OREGON LEADS WORLD IN HIGH SCHOOL RECORD

TWO COUNTIES SHOW 100 PER CENT FOR 1911.

In Number of Eighth Grade Graduates Who Enter High School Following Graduation.

Superintendent S. S. Bush, of Yakima county, Washington, is the first to take up Oregon's challenge to the world, made to show a greater percentage of eighth grade graduates entering high school. Oregon's exhibit sets forth Lane and Linn counties' records of 81 per cent. Superintendent Bush shows 91.2 per cent for Yakima county.

Records received since Oregon's challenge was made, however, place this state far in the lead again, as in Malheur and Sherman counties every eighth grade graduate of last year has been checked up and found in high school this year, making 100 per cent for those two counties. Three other Oregon counties have also been found which excel Yakima's record.

These are Union with 93 per cent, Benton with 92 and Wallowa with 92. If numbers were considered and not individual scholars, many Oregon counties would show more than 100 per cent, for newcomers into the state are starting eighth grade graduates into high schools.

State Superintendent Alderman declares Oregon still has the world's record and that he is determined to get the best possible course outlined for these flourishing high schools.

### Bishop Proposes Home for Girls.

Charles Scadding, Episcopal Bishop of Oregon, was the guest of the University of Oregon last week. While at Eugene, Bishop Scadding completed the plans for the fifteen-thousand-dollar home for the women students at the University of Oregon. A lot has been procured across the street from the men's gymnasium as a site for the structure and a committee of five prominent Episcopians of the state, including Dr. K. A. S. MacKenzie, of Portland, and H. B. Leonard, of Eugene, have been selected as a holding company to sell bonds.

Bishop Scadding expects to have the building completed and ready for occupancy by the opening of the fall semester, next September. The management of the house will be placed in the hands of a housemother and everything will be arranged so as to provide a comfortable home for twenty-five or thirty girls. The charges will be as reasonable as the dormitories and no restriction will be made as to religious affiliations.

While in Eugene, Bishop Scadding spoke before the Student Assembly in Villard Hall, on Wednesday, and before the Student Y. M. C. A. on Thursday. The Bishop expressed himself as being entranced with the conditions of student life at the state university.

Some interesting comparisons are shown by government figures on Oregon's population, just gleaned from the last census by the department of commerce and labor. The number of people to the square mile from 4.3 in 1900 to 7 in 1910. The drift of population during the decade was toward the cities and away from the farms. Ten years ago the percentage of people in cities of 2,500 or more was 32.2 and on the farms 67.8; in 1910 this was changed, with 45.6 in the cities and 54.4 in rural Oregon. Harney, Lake and Malheur counties average less than one person to the square mile.

### BROUGHT TO LIGHT.

Cottage Grove People Receiving the Full Benefit.

There have been many cases like the following in Cottage Grove. Everyone relates the experience of people we know. These plain, straightforward statements will do much toward relieving the suffering of thousands. Such testimony will be read with interest by many people.

Mrs. E. B. Sherman, west side Cottage Grove, Ore., says: "The statement I gave for publication in favor of Doan's Kidney Pills two years ago still holds good. It would be almost impossible for me to describe how severely I suffered from kidney complaint. The trouble came on gradually, the first symptom being a pain in the left side. I became tired, nervous and languid and as the trouble progressed, I began to suffer from headaches and spells of dizziness. Sometimes my limbs and feet became so badly swollen that I could not wear my shoes. Nothing helped me until I commenced taking Doan's Kidney Pills, procured at Benson's Drug Store. They removed the pain and lameness and proved of benefit in every way. The contents of five boxes of Doan's Kidney Pills restored me to good health and I am now free from kidney trouble."

For sale by all dealers, Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other. j11-18

## Whoa! Dobbin!

Stop right here at Legat's Shop. You've traveled around nigh onto ten years with this old harness and I think you've earned a new one—and there is certainly no better place to get a new one than right here. Legat makes the best there is and stands behind his goods. No catalog harness for mine.

## SOME SOCIALISTIC NOTES OREGON NEWS IN EPITOME

Reported by Socialist Local.

Local Cottage Grove meets every Saturday evening at City hall.

We had a large, enthusiastic meeting last Saturday evening with a number of visitors both men and women present. Have received three new members in the last two meetings, and three or four more coming soon. We are getting a printing press and will do our own printing, such as dodgers, bills and so forth. And we are planning to issue a paper soon also. There will be no devils in this outfit. We will all be writers, editors and printers. We need helpers. Friends and comrades, come out.

Last meeting Com. King took a new tack in outlining a new plan of propaganda. He caused every member to hold his breath while he suggested that we join the militia and agitate socialistic principles while we were training for soldiers. But Com. Moss opposed this idea and said: "There will be no need of soldiers in future wars if we have any. Aeroplanes will be the modern killing machine." We do not want revolution with powder, shot and shell. Ballots are the weapons we are training to use. We are in the midst of revolution now, a revolution of thought. Have you a suggestion or a new thought? Come out, friends and comrades, come out.

We are planning to have a social the 26th of this month. The ladies will serve refreshments of pie, cake and coffee with many other good things to eat. There is being prepared a fine program, crowded with speeches, readings, recitations, songs and good music. If you have any oratorical bouquets to give us, come out. If you have any mental brick-bats to propound come out. We will do our best to dissolve them.

See what we are about! Sure, you will come out next Saturday night. There are many good things in sight.

After a hard-fought campaign which included the publication of a newspaper and importation of speakers, the socialists of Medford failed to elect a candidate in the municipal election Tuesday. Their highest vote was 98. A total of 1328 votes was cast.

Two hundred and twenty-six bears were killed by hunters in the Siskiyou forest reserve during 1911, according to estimates made by the forest service officers. During the same time, 2977 deer fell before the rifles of the nimrods.

One hundred and ten new members were added to the Lebanon Commercial club Monday night. The membership now totals 290.

Mrs. Steina Peters died recently at Shedd's at the advanced age of 97.

The Portland Commercial club is considering moving from its present quarters to a new building to be erected next summer.

Douglas county tax levy was put at 13 1/2 mills, the half mill being for the county's share of the cost of an armory at Roseburg.

Apple growers in the Newberg district have organized for mutual benefit.

Newport Commercial club will publish a booklet for the information of motorists expected to come to the resort during the summer.

As the result of the charges preferred some time ago against E. L. Chalcraft, superintendent of the Chemawa Indian school, he has been succeeded by H. D. Watworth.

One evening last week Roseburg was the scene of quite a mixup between the strikers and strikebreakers, and which looked for awhile as though it might terminate in a riot. As an outcome of the fracas, it has been decided by the city council that neither the strikers nor strikebreakers will be allowed to congregate in groups on any street in the city.

# SHOES!

We have just received, in addition to our large stock, about 1500 pairs of shoes.

You Need Not Wait  
for a Sale to Buy  
These Shoes at  
Right Prices

Our Shoe business for 1911 shows a gratifying increase over any other year. If you want snappy styles and satisfactory wear from the Shoes you buy, we feel sure we can please you.

OUR SHOES ARE BETTER  
Burkholder-Woods Co.

It Makes a "Difference"  
What You Say—  
It Makes a "Difference"  
How You Say It

Half of the art of advertising is in what you say and how you say it. Of course, no kind of an ad. would sell woolen underclothes to Fiji Islanders at any time of the year, but a poor ad. might even fail to sell them to residents of Medicine Hat when the thermometer is 60 below.

The trick is to say the right thing in the right way at the right time to the right people.

The Sentinel will reach the right people for you at the right time, and we urge all advertisers who wish to do so, to call in our services in the preparation of advertising at any time. We may be able to assist you in preparing the right thing to say and in saying it in the right way. That's one of the things we are here for.
