Something Doing

Week of April 15 to April 20

?WHAT IS IT?
The Modern Pharmacy

The Rexall Store

Miss Eda Humphrey spent the week's end at Eugene.

Call at Hotel Oregon next Wednesday, April 3rd, and have Dr. Lowe show you the new seamless glasses with which you can see all distances. No cement to come apart, no unsightly lines or divisions in the lenses. Free demonstration. Scores of Cottage Grove references. Remember the day and date.

Eugene Register: O. J. Rawlinson, who lives at 231 Clark street, brought

the Register a freak egg last evening. It is unusually large, with the outer shell partly broken and a perfectly formed egg visible on the inside. It is not very appetizing to look at but a freak nevertheless. George L. Diess, a breeder of Rhode Island Reds and Plymouth Rock chickens, brought us an egg yesterday laid by a hen of the former variety that weighs a good strong quarter of a pound, which is the largest hen egg yet received. He also brought two diminutive hen eggs which weighed a half ounce each.

Keeps the Wheels Moving

Something broken down? Maybe it's the plough or the mowing machine.

What's to be done? Delay means loss.

The nearest supply depot may be miles away. It may be that the necessary part can only be obtained in some distant city.

The Bell Service does the work.

The farmer gets into quick communication with the dealer and shipment is made without delay.

No wonder the enterprising farmer regards the Bell Service as an essential to success.

Are you trying to get along without it?

If so, consult our local manager.

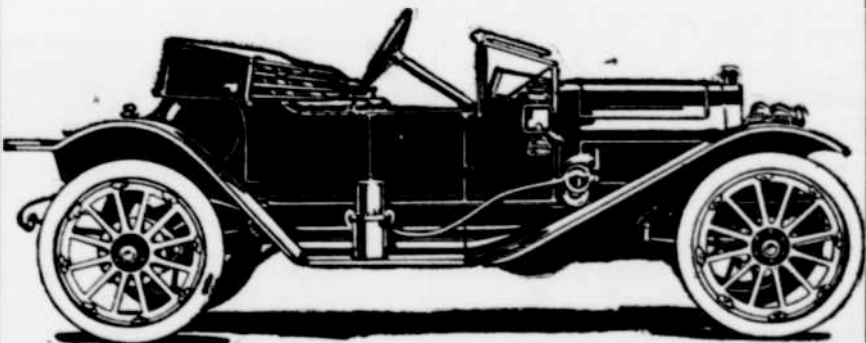

The Pacific Telephone and Telegraph Company

Every Bell Telephone is the Center of the System

For the Automobile Buyer!

The first year of the new machine and the first year of the new driver

E. M. F. ROADSTER, 1912 MODEL

Who is going to teach you to drive and control your machine? How do you know when it is consuming too much Gasoline or Lubricating Oil? Are your tires properly inflated? Are you getting the proper power out of your engine, and a hundred other different things which the new driver thinks he can never learn and which are but a matter of course to the trained driver?

Do not think you are saving money by buying from some out-of-town dealer, who will split his commission with you, and bid you "good night" as soon as he gets your money? The cheapest way is to buy where you will be under the instruction of an experienced man. The first year is the hardest on both the machine and the driver, and unless you are coached for that year it may amount to three commissions.

You can not expect a person to look after your machine a year if he sells you the machine without the proper commission, just to make the sale, and you have no license to expect any attention from him, either. Don't be a "GOLD BRICK DUB" Patronize home industry. LIVE AND LET LIVE, and you will benefit in the end. A satisfied buyer is our best ad.
