

# I'm The Best Shoe on Earth

"For years a demand existed for a working shoe that could satisfy every demand its wearer made. The shoe must be perfect—different from all others. When I came along men tried me, and they say I'm the only shoe that fills the bill. As a result, I am today the most popular working shoe."

"When you think of the money my makers spend in making me perfect, no wonder I'm worth double my price. Precautions and processes that no other makers think of are practiced in making me."

"My leather is the highest-priced—the selected part of the back. It is 'aged' by the old-fashioned natural process—instead of the usual artificial methods—to dry and make it tough."

"If you work outside—Farmer, Foreman, Railroader, Lumberman, Surveyor, Miner, Stockman or at anything else where you need heavy shoes, you should investigate me."
