NEWS FROM OUR NATIONAL CAPITAL

President Vetoes Wool Bill, Holding The Rates Are Too Low.

Washington.—Holding that its low rates would bring disaster to home industry, President Taft returned to congress with his veto a bill to revise the wool tariff—schedule "K" of the Payne-Aldrich law.

With the return of the bill, President Taft sent an appeal to congress not to adjourn until a measure had been enacted substantially reducing unnecessary protection for the wool industry of the country.

While the present bill and the one disapproved last year were identical in terms, the president's reason differed. He vetoed the former because it had been framed before the tariff board's report—the latter because he said it had been framed with disregard for the board's findings.

"Most of the rates in the submitted bill," wrote the president, "are so low in themselves that if enacted into law the inevitable result would be irretrievable injury to the wool-growing industry—the enforced idleness of much of our wool-combing and spinning machinery and of thousands of looms and the consequent throwing out of employment of thousands of workmen."

Canal Bill Passes Senate
The Panama canal bill providing free passage to American ships, prohibiting railroad-owned vessels from using the waterway and authorizing the establishment of a one-man government when the canal is completed, was passed by the senate by a vote of 47 to 15.

Attached to the bill as it passed the senate were two important amendments directed at trust or railroad control of steamship lines. The first, by Senator Reed, would prohibit ships owned by an illegal combination from using the canal, and the second, by Senator Bourne, would force railroads to give up water lines that might otherwise be their competitors, if it were proved that they were stifling competition.

As the bill passed it would permit American coastwise vessels to pass through the canal free without conditions, while American foreign trade ships might pass through free if their owners agree to sell the vessels to the United States at a fair price in time of war or emergency.

Knox is Special Envoy to Japan.
For the first time in the history of the United States, the secretary of state was designated as a special ambassador to a foreign power.

President Taft assigned Secretary of State Knox as special ambassador to Japan to attend the funeral of the late Emperor Mutsuhito on September 12, with the statement that the mission was given to the premier of the cabinet as evidence of the American friendship for Japan. When the Japanese ambassador to Washington heard of the mission he asserted it would be taken by the Japanese as an act of the greatest courtesy and one calculated to make even warmer and more cordial the existing relations between the two governments.

National Capital Brevities.
The senate has granted requests that the acceptance speeches of President Taft, Governor Wilson and Colonel Roosevelt be printed as public documents.

Senator Kenyon's bill to compel federal courts to impose jail sentences instead of fines upon convicted violators of the Sherman law got out of committee and took a place upon the senate's calendar.

President Taft has signed the bill which will enable settlers on reclamation projects to obtain patent and water right certificates and therefore a marketable title to their property in three years instead of ten years, as under the old law.

A bill authorizing the national government to cooperate with the various western states in the destruction of predatory wild animals and to compel the United States treasury to bear a portion of the burden has been introduced by Representative Mondell, of Wyoming.

During a discussion of the post office appropriation bill, Senator La Follette, speaking on a house provision granting to employes of the postal service the right to organize, deliberately charged officials of the postoffice with rifling his mail in an attempt to delve into an investigation he was making into the postal service.

TURKS SLAY BULGARIANS

Outrage Perpetrated While Mussulman Officers Calmly Look On.

Uskup, European Turkey.—Details of the massacre of Bulgarians by Mussulmans on August 2 at Kotschana, 50 miles southwest of here, show the butchery lasted three hours and that more than 140 Bulgarians were killed.

The trouble began with the explosion of a bomb in the crowded market square. Five Bulgarians and six other persons were killed. Five minutes later a second bomb exploded in the same place causing further fatalities.

Soon afterward Mussulmans appeared armed with guns, revolvers, knives and clubs and carried out a wholesale butchery, Turkish officials looking on.

BRYAN NOT TO TRAIL T. R.

Sub-Committee Decides to Map Out Independent Tour.

New York.—William J. Bryan is not going to follow the trail of Colonel Roosevelt around the country in the coming presidential campaign, as has been planned, it is said now. This virtually was decided at a meeting of the sub-committee on speakers of the democratic national campaign committee.

Some time ago it was suggested that it would be a good idea to have Mr. Bryan follow the colonel in the latter's campaign trips and answer his speeches.

TRAIN DERAILED

FIVE ARE KILLED

Seattle.—Five persons were killed and several injured Monday when the westbound Olympian train, of the Chicago, Milwaukee & Puget Sound railroad, broke through a bridge half a mile west of Keechelus, 67 miles east of Seattle.

The dead are: Mrs. Simon Jurich, Seattle; Engineer Townsend, Engineer Noble, Fireman Thimble, and Fireman H. Spencer, of Tacoma. Mrs. Jurich was the only passenger killed. The train, drawn by two locomotives, was passing the summit of the Cascade mountains when the forward engine was derailed on a bridge over a small stream. The pounding of the wheels over the ties broke down the bridge and both engines, the mail car and the baggage car fell into the creek. One coach was partly derailed. The rest of the train remained on the track.

OREGON NEWS NOTES OF GENERAL INTEREST

Events Occurring Throughout the State During the Past Week.

Agricultural College Catalogs Out.
Corvallis.—The first copies of the catalogs of the Oregon Agricultural college for the year 1912-13 have reached the registrar's office from the office of the state printer and are now being distributed. The new catalog, a publication of 392 pages, is devoted to a description of the work of the institution, including everything from a short historical sketch to the outlines of the numerous courses.

MAINTENANCE FUNDS AMPLE

Balances in Most of Them Enough For Current Year.

Salem.—If the ratio of expense of maintaining the various state institutions for the next five months will not exceed that of the past seven months, each of the institutions, save the penitentiary and the school for the deaf and mute, will have a surplus in its maintenance funds, unless it is expended in purchasing furniture or in otherwise improving them, according to a statement made out by members of the state board.

The statement shows that the average monthly disbursements for the penitentiary for the past seven months has been \$6013.16 and with a balance of \$27,064.51 for the next five months this institution cannot spend more than \$5412.90 a month without creating a deficiency. It also shows that during the past seven months the school for the deaf and mute, has spent on an average of \$2069.34 a month, and with a balance of \$9619.03 for the next five months it can spend \$1923.80 a month without creating a deficiency.

The institute for the feeble minded has a balance of \$17,852.53, or \$3570.50 a month, for the coming five months; the institute for the blind has \$4679.47, and the Oregon training school has a balance of \$19,143.52.

Selling Denies Signature.

Portland.—Ben Selling, progressive republican nominee for United States senator, denies having signed a proposed constitutional amendment drafted by the People's Power League. The amendment in question among other things abolishes the state senate, provides for proportional representation and makes the governor a member of the legislature and responsible for the maximum amount of appropriations.

SCOTT'S NAME WITHDRAWN

United States Marshal Immediately Wires Resignation to Mr. Taft.

Washington.—Oregon senators and representatives express surprise at President Taft's withdrawal of the nomination of Leslie M. Scott to be United States marshal at Portland.

Scott originally was endorsed by Congressmen Lafferty and Hawley. The nomination was held up at the request of Senators Bourne and Chamberlain, who later withdrew their opposition. The White House then requested that confirmation be withheld and has now followed the request by withdrawing the nomination.

Eugene.—Leslie M. Scott, in an interview here, said:

"I have wired to President Taft my resignation as marshal, to be effective immediately. I give up this position willingly and gladly, and can now give my attention wholly to other matters of more profit to myself and of interest, perhaps, to the people of Oregon.

"My experience is that a man who eschews bosses and machine politicians and attends to his duty with only a sincere and proud desire to serve the people among whom he was reared and expects to do his life work cannot meet, empty-handed, the scheming politicians who dictate federal patronage."

Governor Orders Militia Inquiry.

Reeseburg.—As a result of the tangle of affairs which have followed the orders of the general staff of the Oregon national guard, disbanding the second battalion for mutiny at the maneuver campaign at Gate, Wash., last month, Governor West has ordered a hearing for August 30.

Railway Company Enjoins Collector.

Reeseburg.—The Southern Oregon company has filed suit in the circuit court here to prevent their big acreage of timber land in Douglas county from being placed on the delinquent tax list pending the outcome of litigation in the federal court and asks that the money for the taxes be held in trust in the meantime. The title to the company's property has been attacked by the United States and such tax money as might be paid to the sheriff would be lost if the land should be declared forfeited to the government.
