## Following Colonel's Lead

EUGENE REGISTER

Can it be that ability to change his mind with the same off-hand ease with which an actor changes his clothes is one of the important considerations that go to make a politician? Is a man a politician because he is able to change his mind as easily and painlessly as the moon changes from one quarter to another, or does he acquire the knack of twisting his opinions as easily as an owl turns its head as the result of getting political aspirations? These reflections are suggested by a contemplation of the present views of Dr. Henry Waldo Coe, who aspires to be the Oregon Progressives' sign of the cloud by day and pillar of fire by night as compared with the expressions of that round but fiery gentleman some two years ago.

In the spring of 1910, the doctor favored the Portland Oregonian with an interview, or the Oregonian favored the doctor with a request for an interview, the proper method of wording probably depending upon the reader's opinion of the relative importance of the doctor and the paper. At any rate, the doctor delivered himself of a number of opinions, which were duly printed. Among other things, he said:

"When Colonel Roosevelt returns (from Africa) there will be many disappointed persons among the ranks of the administration's (Taft's) detractors. I believe Colonel Roosevelt went to Africa as a refutation of the pre-election assertion that he would continue to be president and he will endeavor to carry out that policy when he returns. I believe he is heart and soul with Mr. Taft, because he has been there and knows the inside history of the situation. Also he believes in the sincerity, ability and honesty of Mr. Taft."

At the time, the doctor probably considered that a neat but not gaudy political statement. It scribbled the highest and most flattering motives to

the Colonel, who had favored the doctor in divers and sundry little ways, and it passed out a pleasing little compliment to President Taft at the same time. After flattering the Colonel, the doctor proceeded to take a deft, back-hand slap at the individuals who were then the Colonel's enemies. Here is the slap:

"Coming back to the present, you have asked me about the depth of this so-called 'insurgent' movement. It is history repeating itself. We all remember the old Independent Republican movement, the free silver movement and the greenback movement. It is pretty much the same. These clamorers do not know for what they are clamoring. The way to treat with those fellows," he added significantly, "is to keep them at home. When they bob up for re-election tell them with the ballot, in such a way that there will be no mistaking the direction from which the political wind is blowing, that their services are no longer required."

Of course, all that was in the days when the Colonel could see no good in the insurgent legion. Therefore, discrediting the insurgent movement was a left-handed method of commending the Colonel.

Doubtless the doctor's recent change of mind was prompted by a firm belief in the saying that imitation is the sincerest flattery. Since the Colonel had changed his mind so decisively in regard to becoming again a candidate for the presidency, the doctor probably reasoned that in no way could he more delicately compliment the Colonel than by following his lead.

## GREAT NORTHERN TO EXHIBIT OREGON'S PRIZE PRODUCTS

"The Great Northern Railway is preparing to feature the products of Oregon at the Minneapolis Land Show," said E. C. Leedy, General Immigration Agent of the Great Northern Railway, after his return from the west recently. "The results achieved by this kind of advertising in the past has been highly

successful and we are thoroughly convinced that bringing the products of the west to the people of the east is the most effective and modern method of advertising the agricultural possibilities of any country.

"The representatives of the Immigration Department are canvassing every community in the state of Oregon collecting grains in the straw, grasses, vegetables and in fact all products of the soil. They are co-operating with the Commercial Clubs, responsible real estate men and the farmers, who are growing the crops. The thorough manner in which this collecting of exhibition material is being followed insures us the greatest collection of agricultural and horticultural products that has ever been assembled by any railway.

"The very best and choicest samples will be shown at the Minneapolis Land Show, where thousands of homeseekers and investors will visit. Our representatives are meeting with great success, as the local people along the entire line appreciate more than ever the great benefit of the wide publicity which is given our particular section through this medium of advertising.

"The Northwest Land Show at Minneapolis will mark a new epoch in the history of agricultural and horticultural exhibits. Undoubtedly this will be the greatest collection of products of the soil ever assembled under one roof and the products of the Great Northern country are certain to be among the leading attractions.

## SCHOOLS TO BE STANDARDIZED

Effort Being Made for Improvement Throughout County.

The schools of Lane County in districts of the third class will be standardized this year on the following points:

1. Good order.
2. Thorough work on the part of the teacher and pupils.
3. Attendance, average 95.
4. At least 8 months contract.
5. Proper heat and ventilation.
6. Sanitary drinking arrangements.
7. Grounds neat, attractive and well drained.
8. Flower bed or house plants.
9. Walks to road and outbuildings.
10. Sanitary outbuildings.
11. Flag displayed according to law.
12. Library properly arranged.

This list printed on a large sheet of paper will be tacked up in each school room, and as the points are gained, stars will be affixed before the items. When a school has all of the points, it becomes a standard school; if it keeps them to the end of school, it will be presented with a banner.

Proper light has not been included in the list, because it would necessitate remodeling many old buildings which will be replaced by modern structures in a year or two. The standard has not been made too high for any school in the county to reach it this year, but it will require the co-operation of school boards and patrons with teachers and pupils, which is the thing most greatly needed in the majority of country schools.

The street car company and police officials are making a vigorous effort to put a stop to drunks riding between Springfield and Eugene.

## VICTORIA FALLS ARE GIANT CATARACTS

NIAGARA RANKS ONLY THIRD IN COMPARISON

Falls of Iguassu River Hold Second Place and These Three Are in a Class Distinct to Themselves.

At one time waterfalls in large rivers were interesting only because of their scenic beauty, and their very existence was deplored because they obstructed navigation. But man has found a way to harness these mighty power producers and today they are of the greatest value to the commercial world because the millions of water horse power can be changed into electricity and transmitted for hundreds of miles to be used as a reliable substitute for our vanishing coal supply.

When it is remembered that two cubic feet of water, weighing 125 pounds, by falling a distance of only six feet will produce one horse power of energy, it is easy to comprehend that millions and millions of horse power are wasted every minute by the torrents of water tumbling over Niagara, the Victoria falls and the Iguassu river and many lesser falls throughout the world. This falling water is guided by steel and concrete penstocks to powerful water turbines which whirl great electric generators. The current produced in this way is easily transmitted for hundreds of miles over small copper wires to the cities and towns where it is used to haul the railroad trains to drive the great manufacturing plants and to give us light and heat.

Loyal as we all are to our country, we must admit that even the mighty torrent of Niagara ranks only third in size when compared to the waterfalls of the world. The largest of the earth's waterfalls, the Victoria falls of the Zambesi river in Rhodesia, are 350 feet high and more than a mile wide, and were discovered by Livingstone in 1855. The water power of these falls is estimated to be fully 35,000,000 horse power, two and one-half times that of Iguassu and five times that of Niagara.

South America possesses a waterfall which exceeds Niagara both in width and in height and is actually the second largest waterfall in the world. This little known waterfall is that of the Iguassu river, tributary of the Parana, and like Niagara, is situated at the boundary of two states, each of which owns half of it. The total water power of the Iguassu fall, which is 213 feet high and nearly two miles wide, is estimated as about 14,000,000 horse power. This is approximately equal to the aggregate water power of all Scandinavia, which is rich in waterfalls, or about ten times the total water power of Germany.

There is no other waterfall in the world which is so all comparable in greatness with the Zambesi, Iguassu or the Niagara. Asia, notwithstanding its colossal mountain ranges, is comparatively poor in large waterfalls, which are found most abundantly in Africa and North America. The largest African streams especially are interrupted by many falls of considerable height. The Kongo has several high falls which owing to the great volume of the river, about sixteen times that of the Nile, may be counted among the most important sources of water power on earth. The Stanley falls, in the middle reach of the river, consist of seven successive falls, of a total height of 164 feet and a width of nearly 4,000 feet and offer an exceedingly rich source of power which probably will soon be exploited.

Still more important is the total water power which the Kongo develops in the non-navigable section extending from its mouth to Stanley pool. Here the river, confined in a channel only a few hundred yards wide and with a depth of water of nearly 300 feet, flows with a velocity of forty-eight feet a second, so that at every point of the stream 25,000 to 30,000 cubic meters or about 1,000,000 cubic feet of water are hurled along with irresistible force, while thirty-two rapids and waterfalls lower the level of the stream by 820 feet in a stretch of 170 miles.

The lower Nile, in Egypt, possesses a series of rapids, the celebrated cataracts of the Nile, but no waterfall in the strict sense of the word. True, waterfalls occur on the upper Nile, the most beautiful of them at the point where the stream issues from Lake Victoria Nyanza. This Ripon fall is only a few yards in height, but the volume of water is so great that it presents a magnificent spectacle.

Comparatively few persons know which is the highest waterfall in Europe. The most voluminous of European waterfalls, strictly so called, are the Rhine falls, at Schaffhausen, but the highest are the Rjukan falls of the Mann-Elf river, in the Norwegian province of Telemarken. The principal fall is 800 feet high, and the total height of the two chief falls with the intervening rapids amounts to 1,837 feet, while the average flow of water is fifty cubic meters, or 1,700 cubic feet a second. The Rjukan falls, with their total energy of 250,000 horse power, have been converted to industrial uses.—Electric News.

**Battle of Life Is Good.**  
Lee Willard & Co. are putting on a good show at The Arcade. "The Battle of Life" was presented last night to a fair-sized audience. The play is a snappy one, full of humor, and the parts are exceptionally well taken. Legal Blanks.—The Sentinel.

## SOCIETY

A most enjoyable dinner party was given Tuesday by Mrs. Helen Silby in honor of her 52d birthday anniversary. The guests were seated at a beautifully decorated table on which was a crescent shaped basket laden with the fruits of the season. Crescent shaped place cards, suggestive of the menu and hand painted by Miss Esther Silby, directed guests to their seats. Flowers presented by friends of the hostess completed the decorations. A delicious four-course repast was served. A large birthday cake, bearing the inscription, "Sept. 8, 1912," deserved special mention. The remainder of the evening was spent in music, both vocal and instrumental. Nine guests were present.

Willard Elwood Bosserman of Roseburg and Miss Clara Mary Groom of this city were married Friday evening at the home of the bride's parents, Mr. and Mrs. J. H. Groom. The nappy young couple left the next day for Roseburg, where Mr. Bosserman is employed as night ticket agent for the Southern Pacific. For the present they will be at home in Roseburg. Rev. W. J. Gardner performed the ceremony.

Mr. and Mrs. J. K. Barrett entertained at dinner Monday in honor of J. B. Lewis' 78th birthday anniversary. Baked and roast chicken, vegetables, lemon pie, cake, coffee and sauces were served. Those present were Mr. and Mrs. J. K. Barrett, Mr. and Mrs. J. B. Lewis, Mrs. Nettie Oberg, Miss Gertrude Burdick.

## GIVES SUMMARY OF PARCELS POST

Details of New Law Furnished, Prepared by Senator Jonathan Bourne.

From all parts of Oregon farmers and other interested citizens have been writing letters to local officials asking for information as to the provisions of the new parcels post law, which will go into effect January 1, 1913. For the information of the general public, United States Senator Jonathan Bourne Jr., chairman of the senate committee on postoffices and post roads, has prepared a summary of the law as follows:

"Any article is mailable if not over 11 pounds in weight nor more than 72 inches in length and girth combined, nor likely to injure the mails or postal equipment or employes.

"Flat rate of 1 cent per ounce up to 4 ounces, regardless of distance.

"Above 4 ounces, rates are by the pound or fraction thereof, and varying with distance as follows:

Each 1st Additional 11	Pound	Pound	Pounds
Rural route and city delivery	\$.05	\$.01	\$.15
50-mile zone	.05	.03	.35
150-mile zone	.06	.04	.46
300-mile zone	.07	.05	.57
600-mile zone	.08	.06	.68
1000-mile zone	.09	.07	.79
1400-mile zone	.10	.07	1.00
1800-mile zone	.11	.10	1.11
Over 1800 miles	.12	.12	1.32

"The postmaster general may make provision for indemnity, insurance, and collection on delivery, with additional charges for such service, and may, with the consent of the Interstate Commerce Commission after investigation, modify rates, weights and zone distances when experience has demonstrated the need therefore."

## LOOKS LIKE CENTRAL PARK

W. S. A. Edleson Place at Lorane Becoming Beauty Spot of Willamette Valley.

J. B. Phelps, has just completed the elegant W. S. A. Edleson bungalow home at Lorane and says it is one of the very finest in the Valley. He reports that Mr. Edleson has fixed up the woods and timber surrounding his place until it begins to look like Central Park, New York.

**Masons Will Go To Work.**  
Cottage Grove Lodge, A. F. & A. M., will call on next Wednesday for the fall work. W. M. Brund requests a full attendance at the first meeting.

**Street Is Opened.**  
Sixth Street, which had been closed a couple months for paving, was opened in the main part of the city yesterday. It presents an elegant appearance.

Visiting cards—The Sentinel.

**COTTAGE GROVE DRUGGIST DESERVES PRAISE**  
The New Era Drug Store deserves praise from Cottage Grove people for introducing here the simple buckthorn bark and glycerine mixture, known as Adler-i-ka. This simple German remedy first became famous by curing appendicitis and it has now been discovered that A SINGLE DOSE relieves sour stomach, gas on the stomach and constipation INSTANTLY.

## TALES OF THE TOWN

MANY MATTERS OF MORE THAN PASSING MOMENT.

The Metropolitan Concert Entertainers gave an unusually high class entertainment at The Arcade Tuesday night.

If your mother or father, husband, wife, son or daughter, has journeyed that bourne from whence no traveler returns, you know how much you appreciate a picture of the departed. Some day you will go the same road. Have you prepared to leave a good picture to be remembered by? At strong's Studio.

Jesse Trunnell and son were in Coast Fork yesterday.

Mr. and Mrs. A. B. Christensen arrived Tuesday from Alameda, California and are visiting Mrs. Christensen's parents, Mr. and Mrs. J. B. Phelps. Mr. Christensen is a carpenter they will probably locate here.

J. K. Barrett brought in this week a sprig of black cap raspberries produced on this year's growth of the bush. It is rather late in the season for this berry.

Mrs. H. H. Veatch and son returned Saturday from a visit at Corvallis.

E. P. Perkins of Baker died Monday, Sept. 9, at the age of 80. He was brother of Mrs. J. P. Curran and Mrs. S. E. Wynne of this city.

Frank Burns of Creswell, who was out on parole from the state penitentiary, was arrested again last week on an assault and battery charge and sent back to Salem. He blames his undoing onto a jug of whiskey purchased at Springfield.

Two large prairie schooners passed through the city Monday.

C. W. Caldwell and family leave today for California. They have shipped their machine to Grants Pass and will make the trip from there by auto.

M. M. Wheeler, S. B. Morris and J. B. Burns, prominent members of the Cottage Grove Grange, came to Eugene yesterday with some baskets of the handsomest dahlias ever seen and they went to work at once arranging the 2400 pounds of exhibits they brought down to put in competition at the District Fair. They will carry home some good prizes too.—Register.

Colonel Fullerton has a squash which is 54 inches in circumference and grown without fertilizer or irrigation on newly broken land on the foothill near Eugene. It demonstrates what can be done with a little effort and that the fertility of the soil is unsurpassed.—Register.

Congressman Hawley has sent word that he will be pleased to meet his friends in Eugene Friday and Saturday.

A creamery is nearly completed at Junction City.

A. T. Farris of Eugene was in the city Tuesday.

Mr. and Mrs. Marion Veatch visited in Eugene this week.

Mr. and Mrs. C. C. Coffman of Eugene, who had been here to attend the Groom wedding, returned home Tuesday, Miss Groom accompanying them.

## CHURCH NEWS

**Methodist Church.**—The last Sabbath of the Conference year will be observed Sunday. Topic of Robert Sutcliffe's sermon in the morning at 11 "Looking Backwards." District Superintendent Abbett speaks in the evening at 8. Bible school and League as usual.

**Christian Church.**—Subject of sermon by Rev. R. A. Moon Sunday forenoon, "The Bible, Live It." In the evening the sermon is on evidences. Subject, "The Bible; Is It of God?" Evening service commences at 7:30.

**Baptist Church.**—Regular preaching services next Sunday at 11 o'clock by Rev. Geo. Warner of Goshen. No services in the evening.

Evangelistic meetings are being continued in the tent on Fifth street each week evening except Saturday at 8 o'clock. Sunday at 3 and 7:30 o'clock. Creed or party is not being preached, but Jesus as Lord, Savior, an example.

**Springfield Banker Dies**  
J. C. Brattain, president of the First National Bank of Springfield and a prominent capitalist of that city, died suddenly at his home at 1 o'clock last Thursday, aged 65 years. Mr. Brattain had been ailing for a few days but was not considered seriously ill, as he was able to be about the house. Shortly before 1 o'clock he complained of being weak and faint and lay upon the bed. In a few moments he died. Mr. Brattain was a pioneer who came to Lane county with his parents, Mr. and Mrs. Paul Brattain, in 1852.

**School Opens Monday.**  
The Cottage Grove Public Schools will open Monday for the regular nine months' term. Prof. Dunton expects the attendance to be greatly increased over last year.

Legal Blanks.—The Sentinel.

## QUALITY SHOP BULLETIN

### Oysters—

Oyster time is now upon us and you will find here the famous Sealship brand of fresh, sanitary packed oysters, shipped in containers direct from the oyster beds to you. The flavor of these oysters are well known to you. Try them for dinner today.

Drop in Friday for a deliciously sweet watermelon. We have just received a car shipment.

We are overstocked with Peaches. They are high grade Amuirs, and in order to move them rapidly they go at, per box **50c**
