COTTAGE GROVE, OREGON, THURSDAY, OCTOBER 3, 1912

Number 2

COTTAGE GROVE GIRL IS HONORED

Nellie Hemenway Elected Member of Student Affairs Committee of University.

At a meeting of the University Seniors held Friday Miss Nellie Hemenway of Cottage Grove was elected a member of the Student Affairs Committee. All Senior Class honors are overtaken and the winning of any of them testifies to the popularity of the successful candidate. Other members of the committee are Miss Florence Cleveland of Portland, Vernon Vawter of Medford, Harold Warner of Pendleton, Ernest Lamb of Eugene.

Polling Places for General Election.

Since the primary election last April there have been quite a number of changes in the polling places in the various precincts of the county. Following is a revised list for Cottage Grove and vicinity as prepared by the county officials for the general election in November:

- Bohemia—Boarding house at Vesuvius mine.
- Cottage Grove No. 1—Armory.
- Cottage Grove No. 2—Hemenway & Lockwood real estate office.
- Cottage Grove No. 3—City hall.
- Cottage Grove No. 4—Long's store.
- Cottage Grove No. 5—Hose house.
- Creswell Development League rooms.
- Dorena—Dorena hall.
- Diablo—Wildwood hall.
- Latham—Latham school house.
- Saginaw—House Gertrude and Third.
- Silk Creek—School house, District No. 34.

One-Fourth of Highway Macadam.

It is not generally known, but such is the fact, that when the present work on the macadam roads in Lane county finished this fall, one fourth of the forty miles of the Pacific highway extending through Lane county will consist of first class water bound macadam or better. About three miles of the distance is inside the Eugene city limits and consists of hard surface pavement for the most part, or will as soon as the present paving contracts are completed. Register.

What do you want, anyway? A Sentinel want ad. will get it for you.

Eastern Capital Buying Timber.
Eastern capital is seeking investment in Oregon timber. It is stated a good authority that over \$12,000,000 has been invested in Oregon timber lands since January 1. These bonds are now said to be in favor with Eastern investors and the ability to realize in standing timber by the bonding method has proved of benefit to the Pacific Northwest.

Dog With Red Optics Scares Doughty Party

Get Excited and Try to Shoot 123-36 Shells in 36-123 Rifles.

A big brindle dog miles and miles from any human habitation and with red eyes that shone like 250 candle power tungsten lamps as they peered through the dark night, threw a scare to members of a recent Cottage Grove hunting party in the Umpqua country.

When the ferocious animal was first discovered sizing up the camp from a distance, Harry and Guy Martin grabbed rifles and decided to charge the enemy and carry home the pelt of the unknown denizen of the wilds as memorial of their physical prowess. The dog was handed down from generation to generation of children, grandchildren, great grandchildren, and infinitum. Stanley Martin accompanied the doughty hunters carrying a lantern which to entrance the beast of the jungles while the men with the rifles were getting into shooting position.

Just as everybody was ready for the killing and the men with the artillery prepared to load up they found that they had taken 123-36 shells for 36-123 rifles—that is what they claim. The Sentinel does not vouch for the accuracy of the figures. Discovering their mistake they rushed back to camp for proper shells, leaving Stanley holding the lantern. As he watched those terrible eyes they began to grow in size until they were about the size of turkey platters and his knees by this time were bumping one another with a noise resembling that made by a couple of 20-foot planks when thrown onto a pile of lumber and he started for camp at a pace that was extremely dangerous.

GROVE REBEKAHS PROMINENT

Take Active Part in Semi-Annual District Convention.

Cottage Grove Rebekahs were prominent in the semi-annual district convention held at Springfield last week. The Cottage Grove team assisted in the exemplification of the work. An invitation to be guests of the Cottage Grove lodge was accepted by the convention.

In the election of officers for the next meeting, Lizzie Hall was selected as chairman and Annie Hoxie as secretary.

Miss Eunice Vandenberg rendered a highly appreciated reading.

Albany Girl Wins Place on Faculty.

Miss Edna C. McKnight of Albany has been appointed assistant instructor in history at the State University. Miss McKnight is a graduate of Albany College, '07, and of the University, '12. She had previously taught in the High School at Jefferson, Or.

Miss McKnight attracted attention and won high honors at the University last year with her thesis "Tendencies in Oregon Country Journalism." She made a thorough study of the weekly publications of the last ten years, and noted their continued improvement in business methods and style.

She demonstrated that the country paper of today is doing much more to interest the residents of the districts outside the towns than it was ten years ago, and is an Oregon institution that is in a stage of healthy progress.

Pears Bring High Prices.

The 1912 record for pear prices was broken a few days ago when a car of Bose and Anjou pears was sold by the Rogue River Valley Fruit Produce Association at an average of \$4.52 a box.

The car was packed at Hillcrest Orchard and the A. C. Allen Orchard, two of the most famous orchards in Southern Oregon. The full boxes of Bose brought \$4.17, the full boxes of Anjou \$3.27, the half boxes of Bose \$2.53. The sale was made in New York through the Northwest Fruit Exchange of Portland.

Although the pear sales for 1912 have not been completed, recent sales are higher than in 1911.

Faces Charge of Assault at 90 Years

A. Hall, a 90-year-old civil war veteran, faces a charge of assault and battery in the justice court in Roseburg, preferred by his wife, aged 52 years. The trouble was caused by Mr. Hall's objection to his wife's perusal of the bible in the bedroom and muttering in a strange tongue while he was trying to sleep. The Hall's are said to be fairly well to do. They were married in Medford, Oregon, nine years ago. He says his wife went insane over religion in Kansas and was an inmate of an asylum for two years.—Roseburg News Item.

Walks Far to Pay His Subscription.

H. S. Webber walked in from Cedar Creek yesterday to pay his Sentinel subscription and transact other business. He is built for pedal locomotion, but says nine miles is some hike anyway. Mr. Webber is one of the old timers of this section, coming here first in 1871, later leaving here, traveling south and north, finally making a journey of 9,000 miles to get back to God's country. He has about 6,000,000 feet of timber on his ranch, which is going to bring him a bunch of money one of these days.

Stork at Hopyards.

The stork is more than partial to Seavey's yard. During the short hopping season daughters were born to Mr. and Mrs. C. D. Eby of Cottage Grove and Mr. and Mrs. F. M. France of Eugene.

Relief Corps Inspection.

Inspector Cora McBride will visit Appomattox Relief Corps No. 12 Friday afternoon. The meeting will be held in Phillips' Hall at 2 o'clock.

A Live Wire Newspaper—The Cottage Grove Sentinel.

considering the precarious condition of his limbs. His speed was accelerated by a great crashing in the bushes behind him. Utterly exhausted by over-exertion and unable to reach the camp, Stanley turned around to meet certain death stoically and discovered that Green Pitcher was following him with the man-eater bringing up the rear. Green stumbled over an imaginary boulder, the animal reached him in a few bounds, stooped over him to eat out his vitals—and quietly proceeded to lick Pitcher's hands thrown over his face for protection.

How the dog happened to be so far from civilization was not explained, but he remained around camp until the party broke up.

GRAND CANYON, YELLOWSTONE NATIONAL PARK
Scene on Northern Pacific Railway

JUNCTION CITY HAS BIG FIRE SUNDAY

Postoffice and Several Other Stores Destroyed in Few Minutes in Early Morning Fire

Fire which started Sunday morning at 3:45 in the E. V. Broughton jewelry store, spread rapidly until all of the buildings on the entire half block from the alley between Greenwood and Front streets east to the corner of Sixth and Front and then south along Front street to the Times office were entirely destroyed.

All the buildings were burned to the ground in less than an hour and a half. The fire company arrived on the ground in a very few minutes after the alarm was turned in, but although they did excellent work they were unable to do more than protect the neighboring buildings.

The total loss is estimated at \$15,000, partially covered by insurance.

Albany Lumberman Dies.

Nels H. Wheeler, resident of Oregon for 30 years, and one of Albany's best known men, died Thursday after a long illness, aged 62. He was president of the Albany Lumber Company and well known among lumbermen throughout the Northwest.

Mr. Wheeler was born in Indiana in 1850. He first settled at Corvallis. He came to Albany 20 years ago and had resided in that city ever since. He owned a sawmill at Lyons for several years and a few years ago assisted in organizing the Albany Lumber Company, which moved the mill to that city and enlarged it. He had been president of the company since its organization.

Mr. Wheeler is survived by his widow. He was a member of the Albany lodges of the Knights of Pythias and Artisans, and was a director of the "Twenty-five Hundred," an insurance organization with headquarters at Albany.

Mr. Wheeler was a brother-in-law of T. R. Parker of this city.

King for Representative.

Geo. F. King, Cottage Grove's "rattankerous" advocate of things Socialist, appears as a candidate for State Representative on the Socialist ticket filed Tuesday. George will undoubtedly poll the entire Socialist vote, and, despite his crimson politics, wouldn't lower the average at the State House.

Reception to New Pastor.

A reception to Rev. and Mrs. T. J. Moore will be held in the Methodist church tomorrow evening. A program will be rendered.

40 TONS ONIONS ON PLAY HOUSE CHANGES MANAGEMENT

Creswell Farmer Will Market Remarkably Profitable Crop From Small Acreage

Edward Ziniker and sons have been bringing to Creswell their onions from their farm four miles west of that city. They had about three acres of land planted and will have over forty tons of as fine onions as were ever taken to market. Mr. Ziniker says that he has never sold his onions for less than \$35.00 per ton. This year he is planning to hold his crop until later and expects to get at least \$65.00 per ton.

Mr. Ziniker also has some very fine fruit. His prunes were good, but the crop was short in amount. His apples are as fine as can be found anywhere and the trees are bearing under the heavy weight of fruit.

GRADUATE BREAKS THE HOODOO

Gets Three Jobs on Friday the Thirteenth.

Friday the 13th has no terrors for M. A. Nickerson who graduated from the civil engineering department of the Oregon Agricultural College last June. On that day he received the offers for three positions. He is to lay out the government park on Vancouver Island on which work is to be begun at once. Mr. Nickerson was a prominent athlete during his college course. He was a member of the track team during his junior and senior years, and for three years held a place on his class track team. He was president last year of the Orange O Club, composed of the monogram men, and was especially high in the high and broad jumps and the hurdles.

Woodmen Set 200 Mark.

At a meeting of Bohemia Camp, W. O. W., held Friday, the lodge decided to put the initiation fee down to \$1.00 and go after new members, the mark being set at a total membership of 200. A campaign committee was appointed, consisting of F. C. Coffman, W. W. Harrison, H. C. Adams, J. W. Veatch.

Thieves Take Many Knives.

Springfield News.—Some time during Thursday night thieves entered the second hand store belonging to Gore & Hayden and took with them about \$225 worth of guns, watches, knives and ammunition. They made entrance through a window in the rear and evidently took their time, for they picked out the best in the shop.

Chas. H. Beals is now sole owner and proprietor of the Arcade Theatre, the deal for the interest of Chas. S. Hall having been closed Tuesday. Mr. Hall will be associated with his father, F. H. Hall, in the mill and lumber business.

Under the management of Hall & Beals the show house has continually increased in popularity, the class of films used and vaudeville put on being made as high class as the business will permit. Under the management of Mr. Beals continued advancement will be the motto.

Aged Woman Dies.

Mrs. Mary Peckham died early last Thursday morning at Row River at the age of 63. Death resulted from cancer from which she had long been a sufferer. The remains were shipped Thursday night to Tillamook for burial.

Some Suffrage Facts.

One million women in the United States have full political rights. In Denver the women cast 55 percent of the vote in the large residence wards, and only 4 percent in the slum wards. In most states about 60 to 65 percent of the men vote. In Wyoming 90 percent of the women vote. In Colorado 80 percent of the women register and 72 percent vote. In Idaho 40 percent of the total vote is cast by women, though women are in the minority in that state.

In Colorado in the first eight months after women were enfranchised more books on political economy and civics were sold than in the whole 20 years previous.

In Seattle there were 100 women devoting themselves to the suffrage campaign, but 23,000 women registered at the first election. And 80 percent of the women voting in Seattle this year were married women—women of the "home."

Where women have voted the longest, divorce is only one-eighth as great as in similar states where they do not vote.

About 30,000 women voted in Denver at the last election, and of these only 400 could be connected with any bad element.

There is no nation, no state, no city where women vote where the vote of the undesirable women even remotely approaches that of the women of good repute.

COTTAGE GROVE BOY PRESIDENT

Journalism Club at O. A. C. Names Officers for Year's Work and Plans Study.

John E. Cooter of Cottage Grove, a senior in agriculture at O. A. C., was chosen president of the Journalism Club at the first meeting of the year, when A. R. Chase, Corvallis, was made recorder and F. E. Butts, Park Place, was made chairman of the programme committee. The club meets twice a month to study the preparation of manuscript for the press and editorial work.

No Forest Fires for Season.

For once in the history of Oregon, a summer has flitted by into the past without a single instance of a devastating fire being recorded by the forestry service for that period. At the very time when the fire hazard was the greatest, unseasonable rains came on, quenching incipient blazes caused by the carelessness of campers or originating from the inevitable and time-worn practice of burning slashings without taking the requisite precautions.

Yesterday was the day on which the duties of all fire guards ceased in both the Cascade and the Siuslaw forest reserves. These patrolmen are hired for duty through the summer season. The regular forest rangers are hired for the entire twelve months.

A. E. Cohoon, supervisor of the Siuslaw forest reserve, left yesterday in company with George Cecil, of Portland district forester, for a 10 days' tour of inspection of the reserve. This region was entirely free from fires through the season and the rangers had an easy time of it for once.

Fires in the Cascade reserve during the season were of little or no consequence, being for the most part, caused by lightning and in most every instance the blaze was confined to the tree visited by the bolt. A few camp fires were left by careless hunters and outing parties, but the alert rangers discovered these danger spots in time to avert a spread of the fire.

Injury Narrowly Escaped.

Lorane, Ore., Sept. 29.—Edward Bjerke narrowly escaped serious injuries the other day, when one of his horses stumbled and fell on a hillside, dragging the other horse after it, upsetting the buggy and throwing Ed. to the ground. As it was, the buggy and harness were seriously damaged.

Buying Many Steers.

Joe Nichols, O. E. Trout and Milt Barnett of Junction City are in Arizona buying up 1000 head of steers to be shipped to Junction. The deal involves \$50,000.

Age 77 Years; Prepares Four-Course Dinner

Mrs. Hattie Garoutte Entertains Guests at Birthday Meal

Although 77 years of age, Mrs. Hattie Garoutte prepared and served a four-course dinner to a number of friends Sunday in honor of her birthday anniversary. Mrs. Garoutte is one of the pioneers of the Cottage Grove country and the active life she has led has resulted in remarkably well preserved senses and body for one of her advanced age. The guests at the dinner were Mr. and Mrs. Frank Garoutte, Mrs. Thorndenberg, Mr. and Mrs. C. H. Burkholder, Miss Belle and Chas. S. Burkholder, Mrs. Lydia Stouffer.

Whole Church Building Was Made in Oregon.

The "Made-in-Oregon" enthusiasts who think that everything which can possibly be made in this state ought to be used by the people of the commonwealth in preference to the products of other states find an unusual example in the new St. Mary's church of Pendleton. Everything in this church will be of Oregon origin or manufacture, from the cross on top to the foundation stones. The men who are building it are Oregon citizens.

Lorenzo Monasterelli of Pendleton is the contractor and M. P. White of Baker is the architect. The stone work is done in gray lava rock from the quarries at Pleasant Valley, Oregon. The cement used is Portland cement that is really made in Portland. The brick is made in Weston, Oregon. The steel is all manufactured in Portland. The incidentals come from Pendleton workmen and stores.—Baker City Democrat.

If it's in The Sentinel it's news—if it's news it's in The Sentinel.
