Society

Interesting Meeting of Woman's Club.

An interesting meeting of the Woman's Club was held Tuesday afternoon in the Commercial Club rooms, being in the nature of a farewell reception to Mrs. F. D. Wheeler, a charter member of the club. Being its 10th anniversary, Mrs. Wheeler upon request gave a review of the work of the club from the time of its organization Oct. 8, 1902, with 12 members.

Mrs. Wheeler spoke of the benefits the city had derived from the club work. Through its efforts The Civic Improvement Club was organized and by the persistent work and influence of Mesdames H. O. Thompson and A. B. Wood the city park was brought and "Clean Up Day" set aside by the City Council. Mrs. Wheeler said that the Sweet Pea Show had given Cottage Grove renown, but that of all the things derived from the clubs work, the new public library, to be opened Saturday, the movement for which originated in the club, is the most beneficial to all classes of people.

The speaker dwelt upon the friendships that grow from studying and working together.

She closed her review with the remark, "I can not talk of friendship, for when I leave Cottage Grove I leave my friends."

Those present were provided with paper and envelopes and asked to write a letter for Mrs. Wheeler to read on shipboard and to write on the envelope the date the letter was to be opened. Some read, "When you're homesick," "At four o'clock in the morning," "When crossing the bar." A continued letter was also written to Mrs. H. O. Thompson to be delivered by Mrs. Wheeler.

Again slips of paper were given around with the words "Christopher Columbus" written thereon with instructions to form as many words as possible from the letters in the words given.

Mrs. Compton formed 120 words and received the prize.

Refreshments of ice cream and cake were served, after which Mrs. Ora Hemenway in a few appropriate words presented Mrs. Wheeler with a beautiful silver berry spoon and sugar tongs on behalf of the club members for the work she had done.

Former members present were Mesdames Eakin, Wallace, VanDenburg, Awbrey, Spencer, Compton, Wheeler, Burkholder, Robbins, Miller, Benson, King, Hemenway, Chambers, Veatch and Miss Lula Currin.

With the departure of Mrs. Wheeler, Mrs. W. H. Abrams is the only charter member still a member of the club.

Mr. and Mrs. J. S. Medley entertained a number of friends at "500" Friday evening. Head prizes were won by Mrs. Ben Lurch and H. A. Miller. Delicious refreshments were served, consisting of ice cream, coffee and cake. Those present were: Mesdames and Messrs. F. W. Robbins, C. J. Kem, B. S. Swengel, H. L. Cooke, Marion Veatch, Ben Lurch, D. H. Hemenway, H. A. Miller, W. H. Abrams, Mrs. Norton and Miss Norton, the latter two being guests of Mrs. Abrams.

Mr. and Mrs. C. H. Burkholder entertained a few friends at "500" Friday evening. Refreshments of macaroons and orangeade were served. Guests present were Mr. and Mrs. J. P. Graham, Frank Marshall and the Misses Widdersheim.

The Tuesday Night Club organized Tuesday night in Phillips Hall, progressive "500" being the diversion. Refreshments were served. Thirty-six were present.

The Social Twelve Embroidery Club met last Thursday afternoon at the home of Mrs. W. H. Abrams. After the usual needlework, refreshments of ice cream and cake were served. Members present were Mesdames H. H. Veatch, Compton, F. D. Wheeler, Eakin, Burkholder, Job, Shay, Monroe, Medley, H. J. Shinn, Abrams. Guests present were Mrs. Norton and daughter Ione, of Colton, Calif., Mesdames Swengel, Robbins, C. C. Adams, D. H. Hemenway.

The marriage of Mr. Leo Stroud of Trent to Miss Ada H. Whitlock of Cottage Grove, daughter of H. D. Whitlock, was quietly solemnized at 2 o'clock Oct. 7th at the Christian parsonage in Eugene, Rev. McCallum officiating. The happy couple left on the evening train for Portland, where they will reside.

CHURCH NEWS

WARM CONTEST FOR PRESIDENCY

HEAD OF STUDENT BODY IS COVETED POSITION

Rival Candidates Give Reception and Rally to Friends and Supporters in Campaign Royal For Votes.

(Continued from first page.)

Albert Anderson, candidate for the presidency on the Progressive ticket, and other candidates on the same ticket held a rally at the school house last night. Games were played around a bonfire on the campfire, followed by an entertainment in the assembly hall, when the new lights were used for the first time. Speeches were made by Albert Anderson and Frank Brumbaugh. Refreshments of cider, cookies and doughnuts were served, followed by a sing-around-the piano. The class yell was given with vigor at intervals during the evening.

PROFITABLE EFFORT

Eugene Register

Down at Creswell, Edward Ziniker has just secured a yield of 40 tons of onions from less than three acres of land. The crop is all harvested and is safe from the weather—in fact it has never been in danger, as nothing short of a tremendous hailstorm is likely to injure onions.

Mr. Ziniker has been raising onions for some time. In the past he has never sold his crop for less than $35 per ton. At this price, he will receive a gross income of $1400 from his three acres of land, or an annual gross return of over $450 per acre.

But in the past he has always sold his crop early and has failed to get the highest price that has been offered. This year he has learned the market conditions better and believes that he will be able to dispose of his crop for not less than $65 per ton. This will bring him an annual gross return of $2600, or $866 per acre.

Thus from three acres of Oregon soil and Oregon climate, plus his own intelligent effort, he will secure an income that is much to be envied by almost two-thirds of the people of the United States. While he has been earning this income he has been wholly independent. He has been working for himself.

Yet there are people who say that the price of Willamette valley land is so high that farming it is not profitable!

FERTILIZING THE GROUND

Demands of Different Crops on Soils Explained in Prof. Bradley's Bulletin.

"It is a matter of considerable interest and importance to know the demands which particular crops are making upon the soil, especially when plans are being made as they are in modern methods of farming to meet these demands by appropriate fertilization," says Prof. C. E. Bradley of the Oregon Agricultural College chemistry department in a new bulletin on "The Soils of Oregon" (No. 112)

"The losses of mineral foods and nitrogen by leaching and the loss of nitrogen by direct oxidation are, of course, additional demands which come to the cultivated soil," he continues. He then gives a table of fertility of wheat, vetch hay, alfalfa hay, timothy, potatoes, apples, fat cattle, milk, butter, and fresh kale, showing the composition and market value.

"The value of the plant food in one acre of wheat equals $11.40," says Prof. Bradley. "In like manner $24.25 worth of plant foods go into 300 bushels of appes. The large amount of nitrogen and consequent high market value of plant foods in alfalfa and vetch is offset by the storage of atmospheric nitrogen in the soil by these plants, so that the real nitrogen draft does not come on the soil. The mineral foods which these leguminous crops carry, however, are large and represent real losses when they are sold as hay from the farm. The values for kale are extreme and represent the real demands on an acre of soil by an average kale crop, which, by experience, is known to be hard on the land. The small amount of fertility entering into dairy products and live stock explain the well known fact that these industries do not deplete the soil."

The banks of the country are not weak. They are strong. But the banking system is weak because it provides no means whereby the banks may cooperate. The strength of all the banks should be behind each of them. When trouble comes the banks cannot join together for the common defense. Each one must look out for itself. When a bank looks out for itself, it does so by gathering in all the cash it can, and keeping it. Then we have money stringency and panic.—National Citizens League.

CASH PRIZES FOR SCHOOL

Writers of Best Essays Rewarded.

The Oregon Society of the American Revolution offers totaling $100 to the pupils of the schools of the State of Or essays on subjects connected with War for Independence.

One prize of $25.00, one of and one of $10.00 will be awa the first, second and third best respectively, written by pupils High Schools of the State on following subjects:
