## A SUMMARY OF IMPORTANT EVENTS

### National, Political and Personal News Items Briefly Sketched

At an initial cost of \$3,000,000, electrification of the Denver & Rio Grande railway will begin at once.

Martial law was again proclaimed in the Kanawha coal fields by Governor Glasscock of West Virginia.

The weather office at Cordova, Alaska, reports that the precipitation between January 1 and November 1 of this year was 171 inches.

The contract system of prison labor was condemned in the report of the committee on prison labor presented at the congress of the American Prison association.

Statistics available in the office of Secretary of State Jordan, showed that one in every 27 residents of California owned some sort of motor vehicle on October 1 this year.

San Francisco has lost its legal fight for the dissolution of the merger of the Bell and the Home telephone systems, the court ruling the city has no right to give a franchise which forbids sale.

Another coal famine, greater than the shortage that handicapped Chicago last winter, is imminent, according to local dealers. Prices of all kinds of coal to the small consumer have been raised from 25 to 75 cents a ton.

Amid a storm of applause, a resolution was adopted by the Illinois Federation of Women's clubs demanding a state law forbidding the granting of marriage licenses unless applicants could produce guarantees of their good health.

Twenty-three persons at least were killed or badly wounded on the American side of the Mexican boundary last year by bullets fired during the fighting between the rebels and the government forces under Madero. This fact was developed by the special army board, headed by Colonel Francis Kernan.

### SWINDLERS ARE ARRESTED

**Government Swoops on Chain of Alleged Get-Rich-Quick Operators.**

Cincinnati.—With the arrests in six cities of men alleged by the government to constitute a monumental get-rich-quick chain of swindlers, United States secret service men declare they have brought to the surface an organization that has mulcted small corporations, inventors and promoters of \$1,500,000 in the last three years. The arrests were made as the result of secret indictments returned here by the United States grand jury. Those arrested were:

F. D. Minyard, at Cleveland, O.; George S. Hannaford, at Chicago; Halford Wardin, at Rochester, N. Y.; Mason G. Worth, at New York; Thomas Fishwick, at Boston; A. Bruce Crane, at Newark, N. J.

### Wilson Led Colonel by 2,000,000 Votes

Washington.—Latest figures on the total votes polled by the three principal presidential candidates in the recent election are as follows: Wilson 6,398,000, Roosevelt 4,315,000; Taft 3,350,000. Four years ago Taft received 7,679,000.

**Big Shipping Trust to be Formed.**

London.—It is asserted with great circumstantiality in financial circles in London that preliminary negotiations have been completed to form the greatest shipping combine the world has ever seen, one which in point of tonnage, capitalization and resources would dwarf J. Pierpont Morgan's International Mercantile Marine. The companies pooling their interests are the Cunard, the Peninsular & Oriental, the Royal Mail Steam Packet company, the British India Steam Navigation company and Furness, Withy & company.

### People in the News

Lu Cheng Hsiang, ex-premier of China and minister of foreign affairs, has been reappointed to the latter office.

Harry Wolverton, who experienced little success as manager of the New York Highlanders last year, has been signed to handle the Sacramento club of the Coast League.

Lieutenant-Colonel Joseph Gibson, who was in charge of the troops that hanged John Brown at Harper's Ferry, is dead at his plantation at Verdona, Ala. He was 79 years old.

Miss Florence F. Wilson, of New York, eclipsed all fast typewriting records by writing at the rate of 117 words a minute for one hour. The best previous record was 112 words a minute.

Captain John Osterhuis, convicted of smuggling Chinese into San Francisco bay from Ensenada, Mex., was sentenced to one year in the Alameda county jail and to pay \$1000 fine or serve 500 days additional.

General Homer Lea, the mysterious little hunchback who wielded great power in China, left an estate of only \$4000, according to his will, which was filed at Los Angeles. The small extent of Lea's property is a great surprise, for he was generally considered wealthy.

### Washington, D. C., News

Illiteracy in the United States has decreased during the last decade from 10.7 to 7.5 per cent, it is shown by statistics just given out by the census bureau.

Representative Henry of Texas states that he will not be a candidate for speaker of the house at the next session of congress. It now seems certain that Speaker Clark will have no opposition.

There were 1453 men killed in and about coal mines of the United States during the first eight months of this year, according to an announcement of the bureau of mines. The fatalities in 1911 numbered 2719.

The interstate commission has granted relief from the fourth section to establish rates on apples from the north Pacific coast and southeastern points pending action by the commission on applications filed before February 17, 1911.

President Taft issued a proclamation fixing the rates that foreign shipping shall pay for passage through the Panama Canal. The proclamation establishes a merchant vessel rate of \$1.20 per net ton in actual carrying capacity, with a reduction of 40 per cent ship in ballast.

The first real legislative work of congress began Wednesday, when the subcommittee of the house committee on appropriation took up consideration of the legislative, executive and judicial appropriations. The measure last year carried \$35,000,000, and an equally large appropriation is expected at the approaching session.

## MRS. CLEVELAND

Mrs. Grover Cleveland, widow of the former president, whose engagement to a college professor was recently announced.

## TURKS LOSE TWO BIG STRONGHOLDS

Monastir and Scutari Fall, and 3 Generals, 50,000 Men and 47 Guns Are Captured.

London.—Any idea the Turkish government had of benefiting by continued resistance must be shattered by news of the fall of Monastir.

In the capture of that important town, the Servians took three pashas, including the commander-in-chief, Zekki Pasha, 50,000 men and 47 guns, thus achieving the greatest individual success of the war.

Monastir was the second city of importance in European Turkey. It was Turkey's stronghold in Macedonia and by its downfall Macedonia passes completely out of Turkish hands.

The Servians naturally will be elated at this victory, which outshines the capture of Saloniki and must have a great moral effect on the future course of the war.

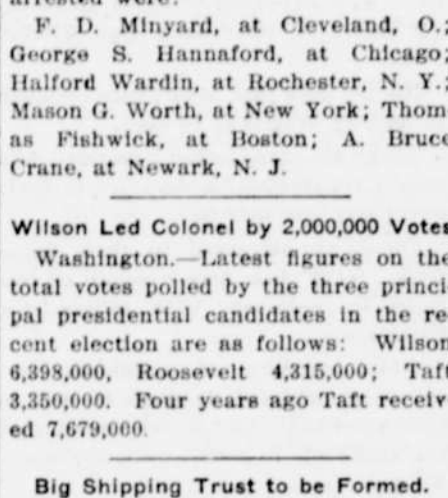

A private telegram received at Belgrade reports that Scutari has surrendered.

Another of the strange silences that have been characteristic of this war appears to have fallen over Constantinople, from which only brief dispatches have been received, telling of the resumption of the Tchatalja battle and that the Sultan has made a fresh personal appeal to the European sovereigns to intervene for the termination of the war. Quite as little may be expected to come of this appeal as of the previous attempt at mediation by the powers.

Constantinople.—Turkey will not accept peace on the terms laid down by the Balkan allies, according to an official announcement and a great battle between the Bulgarians and Turks is on all along the line of the Tchatalja fortifications.

Constantinople, at the gates of which the Bulgarians are knocking, is a city of sick, wounded and hungry refugees. With the thousands of wounded, in addition to cholera patients, all the hospitals are overtaxed. Some relief has been afforded by the action of the government in sending many refugees to Asia Minor.

## SHEFKET PASHA

Shefket Pasha, who is commander-in-chief of the Turkish troops in the war with the Balkan states.

## "BATHTUB" COMBINE ILLEGAL

**Monopoly on Unpatented Products Held Violation of Sherman Law.**

Washington.—In an epoch-making decision in the so-called "bathtub case" the supreme court of the United States laid down the broad principle that there can be no monopoly in the unpatented product of a patented machine without violating the Sherman anti-trust law. Justice McKenna delivered the unanimous opinion of the court.

In accordance with this decision the court struck down as illegal the "license agreements" by which manufacturers of 85 per cent of the sanitary enameled ironware in the United States were bound together in combination.

Officials of the department of justice were elated over the decision, which, it is said, will have an important bearing on several investigations now under way as well as on anti-trust suits already filed against the so-called "moving-picture trust," and the United Shoe Machinery company.

## PERKY GETS APPOINTMENT

**Hawley at Last Moment Refuses Idaho Senatorship Himself**

Boise.—Judge R. I. Perky of Boise was appointed United States senator from Idaho by Governor James H. Hawley, to fill a vacancy caused by the death of Senator Weldon D. Heyburn.

Judge Perky is a prominent democrat and was formerly state chairman of that party. He was defeated for national committeeman this year after a bitter fight between the Hawley and Nugent factions. Perky served as district judge for four years.

It was understood that Governor Hawley would resign the governorship and that Lieutenant-Governor Sweetser would appoint the retiring governor to fill the vacancy.

In an unauthorized statement, Governor Hawley said he abandoned the plan to have himself appointed because the longer he considered the act the more repulsive it became to him, and he thought his intent would be misconstrued.

**Dayton Women First to Vote.**

Dayton, O.—Less than two weeks after the right of equal franchise was granted in Oregon, the state stepped into line, in a practical way with the other "free" states of the Union. At the city election here between 40 and 50 women cast their first vote and the first vote to be cast by a woman in the state was cast here.

## WILSON DECIDES ON AN EXTRA SESSION

New York.—Governor Wilson announced that immediately after his inauguration as president of the United States he would call an extraordinary session of congress to convene not later than April 15 for the purpose of revising the tariff.

The president-elect has gone to Bermuda for a vacation and will return December 16. To set at rest speculation as to what he would do with regard to tariff revision, he issued the following statement:

"I shall call congress together in extraordinary session not later than April 15. I shall do this not only because I think that the pledges of the party ought to be redeemed as promptly as possible, but also because I know it to be in the interest of business that all uncertainty as to what the particular items of tariff revision are to be should be removed as soon as possible."

Since his election, the governor has been sounding public opinion on the advisability of calling a special session and has found the demand for one practically unanimous.

**Sloop Driven on Rocks; Crew Saved**

Newport, Or.—The gas sloop Condor was wrecked here when, in attempting to enter the harbor, she lost her propeller and was driven against the rocks at the end of the north jetty. Her crew of three, W. H. Dority, master; George Waddell, engineer, and George Mustoe, mate, were daringly rescued by the government life-savers, who battled their way through heavy seas to the sloop's side.

## THE MARKETS

**Portland**

 Eggs—43c.  
 Butter—Creamery, 35c.  
 Hay—Timothy, \$17 per ton; alfalfa,

## PRESIDENT FAVORS SIX YEAR TERM

New York.—Declaring himself in favor of a single six-year term for the president and the amendment of the constitution so as to give cabinet officers seats in the senate, President Taft made his first important speech since his defeat for reelection before the Lotus club here. In a speech which he himself called a swan song, gently railing at William J. Bryan's suggestion that ex-presidents be given debating power without votes in congress, Taft closed with a toast to:

"The health and success of the able, patriotic and distinguished gentleman who is to be the next president of the United States."

President Taft reviewed at length the problems which the chief executive must face, and urged that the appointments of "local patronage" posts be taken from him to enable him to give more time to putting into effect the pledges of the party that elected him.

Alluding humorously to the criticisms to which he has been subjected, the president declared that he foresaw the end of "indiscriminate muckraking" and unfounded criticisms of public officials, which, he said, had done "grave injustice to many honorable men."

## WILSON CONTRIBUTORS MANY

**Largest Subscription was \$40,000 From Charles R. Crane**

New York.—Complying with the new law, the names of more than 91,000 persons who contributed to the campaign fund of Woodrow Wilson for the presidency, were made public here. This is the largest number of persons ever recorded as contributing to a campaign fund.

The largest subscription was for \$40,000, from Charles R. Crane, and the next \$35,000 from Cleveland Dodge. Most of the donations were less than \$10,000. They amounted in all to \$1,100,000.

**2 Dead, 5 Dying After Fierce Battle.**

New York.—A man and a woman stood in a small room of a Raines Law hotel in the Bronx and deliberately shot down three detectives and two other men who were trying to place the pair under arrest. After nearly emptying the 11 chambers of a large automatic revolver, reinforced by shots from an ordinary revolver in the hands of his woman companion and probably fatally wounding four of those whom he shot down, the man shot and killed the woman and then put a bullet through his own head, dying instantly.
