OREGON NEWS NOTES OF GENERAL INTEREST

Events Occurring Throughout the State During the Past Week.

LOGGING CAMPS ARE OPEN

Warm Weather Encourages Loggers; Market is Steadier.

Portland.—With the disappearance of the snow in the timber, logging camps in the Columbia river district are gradually resuming operations after a shut down of more than a month. This will be welcome news to some millmen who in the past month have run short on logs as a result of the good demand for the sawed product. Some mills, it is stated, will have to close down for several weeks, unless the logging camps come to their rescue shortly.

The situation looks good to the loggers for the market is steadier than at any time during the past two years and prices are better, too. For the present the ruling basis of quotation is \$7, \$10 and \$13, but it is considered possible that \$1 will be added to this price on February 15, when the dollar advance per thousand goes into effect on Puget sound. However, opinions differ somewhat on this point among the loggers here.

Water for Irrigation is Assured.

Baker.—There is more snow in the mountains of eastern Oregon at the present time than for several years past, and indications are that the coming spring and summer will see more water available for irrigation and placer mining than there has been for several years. The deepest snow on the level reported from any of the nearby territory is twelve feet at Cable Sove in the Sumpter district, about 7000 feet above sea level. At Sumpter there is five feet on the level, at Greenhorn and Bourne nine feet, and about the same depth at Cornucopia, in the northeast end of the county.

Farmers Resent Monopoly.

Pendleton.—Warmly resenting the apparent operations of a grain bag monopoly, which seems to be planning a double priced holdup of the grain growers of the northwest for the coming summer, local farmers through the county union of the Farmers' Co-operative and Educational Union are planning to ask aid from the legislature and from the national congress if necessary.

At this time the grain bag brokers are asking 11 cents for bags for the coming harvest. This price is regarded as outrageous by the farmers since the Indian jute crop this year is reported as remarkably heavy. It is pointed out that the 11 cents per bag quotation now given is prima facie evidence that the supply of bags is monopolized. At this time last year grain bags were quoted at 6 1/2 cents.

Large Apple Crop Assured.

Hood River.—That Hood River valley will have a very large crop of apples next year seems evident from the results secured in the blooming of the standard varieties. The Davidson Fruit company has for many years followed the plan of forced blooming of the several varieties, which has given it a concrete basis upon which to base estimates of the annual yield of apples in the valley.

The indoor orchard composed of a large number of limbs taken from fruit trees and bloomed by steam incubation, is now prophetic of what the orchards will be later. The old Spitzenberg trees show an extraordinarily heavy crop. Jonathans are also very heavy with bloom. Newtowns, Winter Bananas, Oregon Red, Black Twig, Red Cheeks and Orleys are also showing a full crop for next season.

Relief Boat Goes to Nehalem.

Portland.—As a sort of relief boat the gasoline schooner Mirene, Captain Mays, left on a special trip to Nehalem loaded to the guards with provisions. For the last two or three weeks Nehalem practically has been shut off from the outside world so far as transportation facilities are concerned. The washouts and landslides put the railroad out of commission temporarily. On the completion of the railway the steamer service from Portland to Nehalem was discontinued. Consequently the residents have been unable to get in any supplies recently. It is said the stores there have about been depleted of various kinds of necessities.

Camps to be Electrified.

Marshfield.—Electrically operated logging camps is the plan of the Smith Lumber company here. The company is planning to electrify all its plants in this county. In addition to the work that is now being performed by donkey engines, each camp will be supplied with a new electrically operated saw for cutting trees.

BRIEF NEWS OF OREGON

The Hotel Lerana at Independence was sold to W. F. Stein, a Portland man. The consideration is said to be \$30,000.

A pressure gasoline tank used in connection with the lighting plant of a North Plains hotel exploded, doing considerable damage.

Fifteen tons of delayed mail, which accumulated at Portland during the tieup of the Pacific Railway & Navigation line, have arrived at Tillamook. In a party 20 strong, members of the legislature and state officials visited Pendleton for the purpose of inspecting the Eastern Oregon state hospital for the insane.

To determine whether or not salmon which have spawned will return to the sea and live, is the subject of a series of tests being made by the Coos Bay hatchery at Marshfield.

Grants Pass has been bonded for a road to the coast and if this is built Medford, instead of projecting a line to Crescent City, can connect with the Grants Pass road about 30 miles from there.

Equipped with part of the machinery of a hydroaeroplane, Gorst & King, of Marshfield, are making experiments with an automobile, which is expected to aid motor vehicles on muddy roads.

Lumbermen of Bend have received announcement from the railroad companies of the lowering of rates on mill products to the east. The town is given a rate which is only one cent above what Spokane has.

Petitions to the Ashland city council asking that a date be set for a special election in connection with the interurban and street railway project, have been perfected, and were presented to the council Tuesday.

The month of January was exceptionally wet in Astoria. According to records in Weather Observer Gilmore's office the precipitation during the month was 15.16 inches, or 5.03 inches in excess of the January average.

Breaking out of jail in Coquille, where he had been placed for drunkenness, going to town and getting a bottle of whisky and then returning to jail and demolishing another cell, was the way a logger there acted when arrested.

"Model city" is the title which North Bend is seeking, and to that end it has engaged a firm of engineers to straighten out the engineering problems involved in making a "city beautiful" and to lay it out along metropolitan lines.

A petition containing the name of 230 residents of the Sluslaw forest reserve and vicinity, asking senators and members of congress from Oregon to take steps to have the Sluslaw reserve returned to settlement and make it subject to homestead entry, was forwarded from Eugene.

The new city park site recently purchased by Klamath Falls is to be laid out and arranged by a professional landscape artist, according to plans of the Park Commission and the Women's Civic League, which is co-operating with the board in the development of the city's park system.

Automobile owners of McMinnville held a meeting for the purpose of discussing a bill now pending in the state legislature pertaining to taxes on automobiles. They were unanimously opposed to the intended tax rate of 50 cents per horsepower, as long as automobiles were also taxed as personal property.

Baker has followed La Grande in purchasing an automobile fire truck. A movement has been started to establish a cement plant in Medford, there being large deposits available for cement manufacture there and negotiations have been started to purchase the plant at Gold Hill and move it to that city.

Experiments are being made at West Stayton by J. Costakis and E. Papadiyons with the culture of tobacco. They assert that conditions in Marion county are favorable for the successful raising of Turkish tobacco. Being natives of Greece, they are familiar with tobacco culture and are setting part of their irrigated land to this crop.

The taxpayers of Baker on February 21 will vote on the separate questions of issuing city bonds in the sum of \$94,703 to repair, the present city water works system by constructing a new line from the settling tank to the distributing reservoirs, and the issuance of bonds in the sum of \$165,000 to complete the work noted above and extend the line to impound the waters of several other streams to which the city has title.

With the transfer of the property of the North Bend Lumber company to the Swayne & Hoyt Lumber company, of San Francisco, there enters into the lumber industry of Coos county one of the largest firms on the Pacific coast. Arrangements are under way to equip the mill with new machinery so that its capacity will be brought up to 80,000 feet a day, and the plans of the new owners are said to contemplate doubling the capacity of the mill later.

OREGON LAWMAKERS' WORK AS REVIEWED

Legislators Living up to Pledges to Expedite Business

MUCH WORK ACCOMPLISHED

With Session half over Work Further Along than Previous Session—13 Bills Approved by Governor—Most Important Bill Abolishes State Land Agent

Salem.—The progress made during the third week of the legislative session seems to indicate that members of the legislature are trying to live up to their voluntary pledges to get down to serious work early in the session and keep at it and thus avoid the congestion of business witnessed during the closing hours of previous sessions. The early and diligent attention to business, however, has to some extent been offset by the large volume of business and poor work on the part of some of the committees, necessitating referring back to them many bills.

With the legislative session half through, the members of both branches find themselves farther along in their work than has marked any previous session, it is said. The amount of routine work accomplished is enormous, despite frequent snappy debates over the passage of bills.

Both houses have agreed to forbid the introduction of bills after the twenty-fifth day of the session, except upon consent of three-fourths of the body in which a bill is offered.

The close of the third week of the session finds 42 senate bills passed by the senate and 56 house bills passed by the house, with 13 bills that have gone through both houses approved by the governor. So far there have been no vetoes.

In the house the total number of bills presented is 433, where two have been voted down. 13 have been withdrawn and 16 indefinitely postponed, in addition to the 56 that have passed. In the senate 10 bills have been defeated on roll call, eight have been withdrawn, 12 indefinitely postponed, and 42 passed, out of 210 introduced.

No Bills Carry Emergency Clause

None of the bills carry an emergency clause and will not become laws until 90 days after the adjournment of the legislative assembly.

Probably the most important bill so far introduced is that abolishing the office of state land agent.

Another act of some import is one providing that a wife deserter who is convicted shall be compelled to work on the county roads for the time for which he has been sentenced, and that the county shall pay his family \$1 a day for each such day worked.

Appropriations Have Light Week

Appropriation requests made during the third week of the legislative session reached a total of \$947,415, by far the lightest week so far. This brings the total of requests up to \$4,106,263, and not a general appropriation bill even in sight. This makes it certain that the amount of the requests will go well up to the \$9,000,000 mark.

This week will tell the story as to what anxious taxpayers may expect in regard to appropriations. It should be remembered, in this regard, that many appropriation measures are duplicated in senate and house and that many bills intended to assist in emptying the state coffers will be killed. The sum total, in any event, must be larger than it was at the last session on account of the money which should be expended in adequately advertising the resources of Oregon at the Panama-Pacific Exposition and at the San Diego Exposition and also for a comprehensive system of building and maintaining highways.

Contest on State Printer is Started.

The expected state printer fight has appeared in the legislature. Only the skirmish line was thrown out, but that it will be a fight was indicated by the appearance of three bills, two of them identical, but these two diametrically opposed to the third. One, introduced by Abbott, is to repeal the flat salary law of 1911, which is due to become effective in 1915 if not repealed.

The other two provide that the governor, secretary of state and state treasurer shall control the state printing office and that the state printer shall be appointed by the board at a salary of \$1800 a year and not later than December 15, 1914. All of the sections of the 1911 flat salary law are repealed in these bills.

Barrett Road Bill Passed in Senate

Passage of the Barrett county bonding road bill by the senate probably will mean the calling of a joint conference committee to act on the Barrett and Hurd bills. The Hurd bill passed the house and is known as the Grange bill. While both are county bonding acts they are by no means identical.

The Barrett bill provides that the county court shall be the supervising power in road matters, but the people of counties shall vote on the question of road bonds.

The Hurd or Grange bill provides for election of delegates in road districts, these delegates to attend a county road meeting to determine upon road questions.

House Overrides More Vetoes

The following vetoed bills were passed by the house:

Bill requiring depot agents to post at once information received as to delayed trains for the convenience of the traveling public. Requiring abutting property-owners on county roads to destroy thistles and other noxious weeds, and providing a penalty for not doing so. Requiring school directors to pay for material and labor where, through their own carelessness, contractors leave unpaid bills. Prohibiting expenditures over and above the sums appropriated for any public institution or department of the state and creating an emergency board to look after such work. Providing that no expenditure shall be made before an appropriation is made.

Question When Vetoed Bills Effective

Just when the veto bills of the governor that have been passed by the constitutional two-thirds majority of both houses go into effect is a question that has arisen in the light of the fact that a number of the governor's vetoed bills have gone over his head. It also develops the point as to whether the veto bills, which have been passed notwithstanding the veto of the governor, are subject to a referendum of the people.

The members of the senate judiciary committee have reached a conclusion that the veto bills do not become laws until 90 days after adjournment of the legislative session and are subject to a referendum of the people if such is desired.

Saloons in Depots Prohibited

Under amendments which have been made to the Hoskins bill in the senate regulating the sale of liquor near depots, the bill now prohibits the location of a saloon in any depot, under the same roof as the depot, or in an adjacent building. Originally the bill was intended to prohibit saloons from being located within 300 feet of a depot. The bill is also amended to exclude drug stores from its provisions.

Bill Proposes Petition Regulations

The name of every person or company interested in an initiative measure must have his, her or its name plainly printed on the cover of any petition circulated under the initiative law and must make known to the world that he, she or it is so interested, according to a proposed amendment to the initiative law, introduced by Representative Latourette, of Multnomah county, in the house.

This bill also provides that no person may solicit for pay more than 250 names on any measure without first receiving from the governor a license, something like a notarial commission, after which he may proceed to solicit.

Protects Wages From Loan Shark

Protection against loan sharks is the object of a bill introduced by Senator Farrell. It provides that no assignment of wages shall be valid to secure a loan of less than \$200, unless it is accepted in writing by the employer, and no such assignment is to be held valid, when made by a married man, except by the written consent of his wife.

Free Textbooks Advocated

Senator Day introduced a bill providing that free textbooks shall be furnished in all the public schools of the state except in high schools. The bill provides that each school district shall pay for its own books.

Any teacher or anyone connected officially with the public schools is prohibited from in any way being financially connected with the purchase of such books.

Legislative Brevities

Resolutions of respect on the death of Captain James Blakely, of Brownsville, were adopted by both houses.

Senator Calkins' bill fixing the salary of the governor's private secretary at \$3000 a year was passed by the senate by a vote of 18 to 12.

The senate defeated the house bill of the revision of laws committee to repeal an ancient act allowing counties to maintain tuberculosis sanatoriums.

Anyone wishing to teach music, either vocal or instrumental, will have to be licensed before so doing, according to the provisions of a bill introduced in the house.

Sale of liquor to a minor or allowing a minor to play any games around a place where liquor is sold will result in forfeiture of the license and a heavy penalty under the provisions of a bill introduced by Senator Calkins.

The house has adopted Representative Blanchard's memorial to congress asking for the repeal of all patent right and copyright laws, as being one of the principal bulwarks of monopoly and the main cause of the high cost of living.

To give to the governor power to veto any part or several parts of a general appropriation bill where it carries appropriations of sums of money for various purposes, is the constitutional amendment to be submitted to the people at the next general election.

No Need to Stop Work.
When the doctor orders you to stop work it staggers you. I can't you say. You know you are weak, run down and failing in health day by day, but you must work as long as you can stand. What you need is Electric Bitters to give tone, strength and vigor to your system, to prevent break down and build you up. Don't be weak, sickly or ailing when Electric Bitters will benefit you from the first dose. Thousands bless them for their glorious health and strength. Try them. Every bottle is guaranteed to satisfy. Only 50c. at all druggists.

This is the season of the year when mothers feel very much concerned over the frequent colds contracted by their children, and have abundant reason for it as every cold weakens the lungs, lowers the vitality and paves the way for the more serious diseases that so often follow. Chamberlain's Cough Remedy is famous for its cures, and is pleasant and safe to take. For sale by all dealers.
