HOSELTON SCHOOL WINS PENNANT

Saginaw School Will Also Celebrate Standardization.

The Hoselton school in district No. 105 near Crow, celebrated its standardization last Thursday, having had all the points since the first week in January. Supervisor Andrews presented the pennant with a short talk which was responded to by the chairman of the board, Mrs. M. J. Hoselton, and the teacher, Miss Ruth Lombard. Several of the patrons were present and expressed themselves as well pleased with the school and determined to continue improvements. A petition has been made and granted changing the course of the public road which now cuts diagonally across the grounds. This will enable the school board to improve the playground a great deal before next year. This is a small school of only a dozen pupils, but they have been working hard since the beginning of the year and deserve credit for making the school the first in supervisory district No. 1 to report all the requirements. It is to receive the framed picture offered.

Saginaw is next in line, having reported ready only a few days later than Hoselton's. Feb. 7 has been set for an all day rally there. Supt. Baughman and other speakers will be present to help celebrate.

WOULD REDUCE COST OF LIVING

Portland Women Going After Much Abused Middleman.

The women of Portland are going to find out just why in this great apple section they have to pay as much for apples as do people in Liverpool. Apple growers who have been holding their product in storage waiting for a top price are getting nervous, for the housewives are after 'em, and it is going to be a reduced price on the hardy fruit or else a boycott in favor of oranges and grape fruit.

The onslaught on the apple market is only the first gun. After these reverberations cease the women are going after other commodities and find out just what relation the consumer really bears to the producer, and why they cannot come closer together and thereby reduce the cost of living, cutting out the middleman.

Several prominent speakers from outside will be invited who will talk on subjects of vital importance to the community. Agriculture, education, good roads and kindred subjects will be discussed.

The Creswell hotel will furnish the supper, which will be served at 7:30 o'clock.

UNCLE SAM AND THE CATALOG HOUSE

PROBABLY the greatest enemy of the small city is the big city Catalog House. It catches with the lure of apparently low prices the man and woman who think only of the pennies saved at the time. It is the same bait that catches the merchant who buys envelopes from the government. Both do it to save a few pennies at the time and both forget how inconvenient it would be to have to do all business with Washington or Chicago. The man ordering from a Catalog should stop first to think of the many things the local merchant gives him besides the goods he pays for. He should stop to think of the inconvenience it would be not to have him. The merchant should follow somewhat the same line of reasoning and add to it thoughts of the things the paper does to keep trade at home and ask himself if it is consistent to preach home trade while practicing what he criticizes in others.
