Eugene Stenographer Courts Bullet During Spell of Drinking Irresponsibility.

Charles Kingwell, residing at West Springfield, on the outskirts of Eugene, shot Edward L. Lewis, of Eugene, at 2 o'clock Thursday morning. Lewis died three hours afterward.

Lewis, who was engaged as stenographer and accountant in the office of I. H. Bingham, timber broker, had been drinking heavily for two or three weeks and had been in Springfield the day before. He was caught early in the evening trying to break into a second hand store there, but on account of his condition was let go, but later was caught in the office of a livery stable with horse clippers and gloves in his pockets. This was at midnight.

At 2 o'clock Thursday morning Mrs. Kingwell awoke and saw a man in the front yard. She called to him to leave, whereupon the man began to swear at her. Kingwell threw up a window and fired two shots to frighten him. Lewis retreated to the rear part of the yard and entered the chicken house to hide.

The squawking and cackling of the chickens brought Kingwell out, and Lewis stepped out and started toward Kingwell, muttering something about "getting him." Kingwell shot him in the side and notified officers at Springfield and the sheriff's office in Eugene. Lewis was taken to the hospital, where he died at 5 o'clock.

Lewis was aged 51 year, and had lived at Eugene a year. He came here in the employ of the Willamette-Pacific Railway company, but his bad habits led to his discharge. He had been employed by Mr. Bingham for several months. He was a Virginian and came to this coast from Maryland. Little is known of his relatives, but he came from good family, according to meager information he at times gave out.

Eugene Plant Will Add Pickling Department and Possibly Preserving Plant.

A pickling department will be added to the fruit and vegetable cannery of the Eugene Fruit Growers' Association this year and it is possible that a preserving department will be one of the additions to the plant.

At the regular monthly meeting of the association recently it was decided to erect an addition to the cannery building. It will be 40 by 84 feet in dimensions and two stories high. This will be arranged for preparation and canning rooms.

"The business of the cannery is growing fast," said Manager J. O. Holt, "and we have to keep up with it by adding from time to time the necessary machinery. The outlook is very good for a bigger business than ever this season. We are going to add a pickling department this year and expect to be able to put out a very superior article in that line. It is also possible that we will install a preserving plant, but this will be decided upon later.

"I had a letter a few days ago," continued Mr. Holt, "from a large dealer in Canada, who had written to a Seattle firm inquiring where he could get some good canned beans to sell under his own brand. The Seattle man wrote him that the Eugene cannery put up the best beans in the world."

Manager Holt thinks this is quite a feather in the hat of the association and is delighted that the products of the cannery have such a reputation throughout the country.

The association will place a block of 250 shares of stock on the market about March 1 for the purpose of financing the new addition to the building. The shares are selling at \$10 each, which is par.

EX-SHERIFF WOULD BE MARSHAL

Recently Retired County Officer Wants to Serve U. S.

Harry L. Bown, who retired from the office of sheriff of Lane county the first of this year, is a candidate for the position of United States marshal for the district of Oregon, and has sent in his formal application for the position.

It is understood that Mr. Bown has the endorsement of leading citizens of the state and that he stands a good show of landing the plum. He served as sheriff of Lane county over two terms, having succeeded Fred Fisk. He was head deputy for Fisk for two terms, and was also a deputy for the late Sheriff W. W. Withers, who was killed by a horse thief while holding office.

FORM FAIR CIRCUIT

Lane, Douglas and Jackson Combine As Result of Recent Legislative Act.

As the result of the recent procedure of the Oregon Legislature in abolishing district fairs, residents of Lane, Jackson and Douglas counties met at Roseburg last week and organized what will be known as the Southern Oregon Fair Circuit. The organization will be affiliated with the North Pacific Fair Association, which recently met at Salem.

The first fair on the Southern Oregon circuit will be held at Medford on September 10, 11, 12 and 13, followed by Roseburg's fair on September 17, 18, 19 and 20. Lane County's fair will be held at Eugene September 24, 25, 26 and 27. From Eugene most of the stock and exhibits will be shipped to Salem for the state fair, which will be held the following week.

The racing programs for the three Southern Oregon fairs are as near uniform as it was possible to make them. They include the usual trotting, pacing and running events. The purses for each of the three fairs aggregate \$3,775. As far as financing their respective fairs, the three counties included in the organization will be distinct, their affiliation being chiefly for the purpose of arranging race cards and dates which will not conflict.

Would Make Potato Starch.

George T. Hall & Son, of this city, are seriously considering the project of launching out in the manufacture of potato starch on a large scale. By way of enlisting patrons in the venture, Mr. Hall, Jr., has written to some of the foremost textile mills of the United States, with a view to ascertaining to what extent the product of the proposed plant would be in demand. The cotton mills use great quantities of starch for warp-sizing purposes and it is indispensable in the process of manufacture.

Within a 15 mile circle around IMPERIAL there are now several hundred prosperous farmers raising enormous crops of wheat, rye, barley, oats, potatoes, vegetables, etc. Poultry raising is also highly successful. Three large stock ranches, owning several thousand horses and cattle are also in this circle. IMPERIAL is now the trading point and will soon be the shipping point (the railroads are now building) for the products from thousands of acres surrounding it.
