

Place candied cherries there on the top. People Charlotte—Place a half tin in half a cup of cold water and soak for half an hour. Whip a mass two cupfuls of cream. It has been beaten half a cupful of sugar and a tablespoonful of vanilla. Then beat in two large eggs. Beat well and then stir in the mass the gelatin, which has dissolved over hot water. Pour into mold and place on ice.

No. 72 Cottage Grove

A great calamity in Omaha was overshadowed by the terribly serious floods in Ohio. Great suffering, sickness from colds and exposures resulted. L. Poole, 2217 California St., Omaha, writes: "My father had a very severe cough and I got Foley's Honey and Tar Compound. It worked it out in no time. Re-substitutes. For sale by all druggists everywhere."

**Cure for Epilepsy**

After Years of Suffering

My daughter was afflicted with epileptic fits for three years, the attacks coming every few weeks. We employed several doctors but they did her no good. About a year ago we heard of Dr. Miles' Nervine, and it certainly has proved a blessing to our little girl. She is now apparently cured and is enjoying the best of health. It is over a year since she has had a fit. We cannot speak too highly of Dr. Miles' Nervine.

MRS. FRANK ANDERSON, Comfrey, Minn.

Thousands of children in the United States who are suffering from attacks of epilepsy are a burden and sorrow to their parents, and would give anything to restore them to health.

**Dr. Miles' Nervine**

One of the best remedies known for this affliction. It has proven itself in thousands of cases of greater faith in it. It is not a "cure-all," but a reliable remedy for nervous diseases. You need hesitate to give it a trial. It is sold by all Druggists. If the first bottle fails to benefit your money is refunded.

W. D. MEDICAL CO., Elkhart, Ind.

**Cure for Stomach Disorders.**

Disorders of the stomach may be cured by the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. Many very remarkable cures have been effected by these tablets. Sold by all dealers.

**GOVERNOR JOHNSON SIGNS LAND BILL**

Three Elements Likely to Invoke Referendum—Act Becomes Operative August 10.

Sacramento.—California's alien land bill was signed by Governor Johnson against the protests of Japan and the representations of President Wilson and his personal envoy, Secretary Bryan. The governor signed the bill and 90 days after the adjournment of the legislature, which will be August 10, the act becomes operative.

Within California the act has encountered triple hostility which may delay its actuality until November, 1913. In the first place, the democrats opposed state legislation at this time, as a matter of party regularity. The Asiatic Exclusion League, an organization of which the president is Olaf Tveitmo, recently convicted of complicity in the national dynamite plot originating in Indianapolis, announced that it would invoke the referendum purely because it opposes the bill as faint-hearted.

Thirdly, the powerful Panama-Pacific International Exposition company, backed by many chambers of commerce, has placed itself on record in opposition to the bill on the ground that it is a violation of faith.

**JAPAN STILL SHOWS FAITH**

Likelihood of Estrangement of Peoples, However, Admitted.

Tokio.—Faith in the American people to see that justice is done the Japanese is the dominating note in the discussion of the California alien land ownership legislation.

War talk is denounced as ridiculous and only calculated to embarrass the two governments, which are laboring for a peaceful settlement by diplomacy.

It is conceded, however, that failure on the part of the Americans to respond to the Japanese appeal for a discontinuance of the alleged discrimination would be likely to lead to some estrangement of the peoples. The Japanese public generally is convinced that the land bill is a racial and not an economic measure and hence a blow to national pride, and the people feel that the world must be taught the necessity of equal treatment for the whites and non-whites.

**Bill More Drastic Than California's.**

Phoenix, Ariz.—An anti-alien land ownership bill far more drastic than the bill recently passed by the California legislature has been signed by Governor Hunt, following its passage by both houses of the state legislature.

The new law makes it impossible for aliens of any color to hold land unless they have declared their intention of becoming citizens. Non-citizens now holding land will be compelled to dispose of it within five years. Mining claims or property necessary to the working of mines alone is exempted.

**GOVERNMENT MUST PAY**

Treatment of Ill, Waiting Aliens Not Steamship's Duty.

New York.—A decision handed down by Judge Mayer in the United States district court will cost the United States government about \$1,000,000 a year from now on. It holds that the government must pay for medical aid to aliens brought to this country and found after their arrival at Ellis Island to be suffering from some temporary contagious disease.

The government sought to collect from the Holland-American Steamship company \$257 for such treatment, but the court, in finding for the defendants, declared that the immigration laws make no provision for the steamship company to pay for medical treatment for ailing aliens. Unless overruled by a higher court, the decision will apply to all steamship lines.

**Borah May Be President.**

New York.—Harper's Weekly makes the following editorial forecast: "We predict that the next republican candidate for president of the United States will be William E. Borah of Idaho."

More than a year before Woodrow Wilson's nomination Harper's made a similar prediction, which fact is referred to editorially by the New York Sun.

**REED SMOOT**

Reed Smoot, United States Senator from Utah, who will play a prominent part in the tariff fight in the Senate.

**TIMBERMAN UNMOVED**

Lumber Tariff Removal No Cause for Worry, Says Weyerhaeuser.

Spokane, Wash.—In an interview at Sand Point, Idaho, Charles A. Weyerhaeuser, member of the world's greatest family of lumbermen, declared that the removal of tariff on lumber would have little or no effect on the industry in the United States.

"I can see no reason why the lumbermen of the United States cannot easily adjust themselves to the removal of tariff without any apparent effort," stated Mr. Weyerhaeuser. "The tariff, as it stands, is so low that the removal will not seriously affect the industry. We are not worrying."

**Stanford University President Resigns**

Palo Alto, Cal.—Dr. David Starr Jordan, president of Stanford University, resigned his position to accept the office of chancellor which will be created by the board of trustees.

John Caspar Branner, professor of geology, and since 1899 vice-president of the university will become president.

**Australian Beef Cuts Living Cost.**

San Francisco.—A nation-wide fight on the beef trust through the importation of Australian beef, which has lowered the price of meats here from 20 to 25 per cent, is believed a certainty. The first big shipment from the south seas, 200 tons, which arrived here, immediately found its way into nearly 200 butchershops. The foreign beef has met the requirements of the United States inspection laws and is in great demand by San Francisco housewives.

**STUDENT ARMY CAMPS PLANNED**

San Francisco.—Details have just been made public here of the plan of the secretary of war to hold two experimental military camps of instruction for students of educational institutions during the summer vacation period, coupled with the announcement that if they prove a success they will be held annually, one in each of the four sections of the country.

The announced object of these camps is, primarily, to increase the present inadequate personnel of the trained military reserve of the United States by a class of men from whom, in time of national emergency, a large proportion of the commissioned officers will be drawn, and on whose military judgment at such a time the lives of many other men will in a measure depend.

**Wage Cut is Threatened.**

Chicago.—A cut to the starvation point in the wages of women workers in Illinois, provided an eight-hour law is passed, was threatened in open hearing before the state senate subcommittee on labor.

**Arbitration Wins Cincinnati Strike.**

Cincinnati.—Conferences between representatives of the Cincinnati Traction company and leaders of the striking street car men's union ended in an agreement by which the strike was declared off.
