Dave Sterling and family left Sunday morning in their machine for Winchester Bay. The feed store will be in charge of John Veatch in Mr. Sterling's absence.

You not only can't chew with poor teeth but they are unhealthy. See Dr. Ingram.

The Best Citizens---

Are the ones that Own their Own Homes

Those who own homes of their own have a position that is not so easily attained otherwise. By owning homes they slow their faith in their community—and they are backing that faith by doing something to advance the interests of that community. By owning homes they become recognized as fixtures in the community and are given an importance not accorded those not having something to keep them from leaving in a day. The man with a home and a family around his own hearth is usually a satisfied, optimistic citizen and as such is naturally more looked up to than peripatetic renter. Your ambition to become an influential factor in your community can be given impetus by the purchase of an ideal building lot in the only restricted tract in Cottage Grove on South Ninth Street. This is certain to become one of the most popular residence sections of the city. It is ideally located on a street now being paved, is handy to the business and other residence district and on what will be the main thoroughfare into the city as soon as the new steel bridge is completed. This tract will be put on the market just as soon as the County Court accepts the plat. Selections will be allowed in the order of application. List your name for one of the early selections. Easy payment plan when desired.

Cottage Grove Homesites Company

JOHN F. WOODARD, Manager

Ulysses Walker of Portland spent Sunday with his sister, Mrs. John Durham.

Mr. and Mrs. John Dillon of Bakerfield, Calif., arrived Monday to spend their vacation with Mrs. Dillon's parents, Mr. and Mrs. P. H. McGee.

SINCE the introduction of the player piano, the Baldwin Company has believed that the true rank of any instrument of this kind should be measured by the freedom and sureness with which it enables the performer to express his own musical feelings. This conviction is demonstrated through the

Baldwin Manualo

(The Player Piano that is all but human)

It is the ultimate—the unmechanical instrument that we have had in mind from the beginning—the plastic instrument that musicians have used as their imaginative standard in comparing player pianos.

In the Baldwin Manualo we offer the successful unification of the most artistic piano with the most scientific player action in made in the world.

There is absolutely nothing better, nothing more perfect on the market, neither as a piano nor a player piano.

Please convince yourself of this at our music rooms. You are welcome whether you wish to buy or not.
