

Within a 15 mile circle around IMPERIAL there are now several hundred prosperous farmers raising enormous crops of wheat, rye, barley, oats, potatoes, vegetables, etc. Poultry raising is also highly successful. Three large stock ranches, owning several thousand horses and cattle are also in this circle. IMPERIAL is now the trading point and will soon be the shipping point (the railroads are now building) for the products from thousands of acres surrounding it.

The announcement of a complete change of policy in the Siuslaw forest means so much to this part of Oregon that it is difficult to grasp at once its full significance. It means that opportunities hitherto locked up will be thrown open to anyone who has the courage and the pioneer spirit to take advantage of them. It means that obstacles will no longer be thrown in the way of the man who wants to attempt the task of hewing out a home in the wilderness. It means that hereafter settlers will be encouraged and helped to develop all the agricultural land that can be found in the great domain that is embraced in this reserve.

This does not mean, of course, that the valuable timber that is owned by the government will be thrown open to exploitation, for it will not—nor should it be. A far more liberal construction, however, will be placed upon the classification of agricultural lands, and the coming of settlers will be looked upon as an advantage to be sought rather than an encroachment to be avoided. In this point lies the significance of the change of policy that was announced yesterday.

The Siuslaw reserve differs materially in character from many other national forests in Oregon—the Cascade forest for instance. While it contains much valuable timber that, without a doubt, should be left in the possession of the government, it contains also a vast amount of land that is more valuable for agricultural purposes than for the growing of timber. The low, rolling hills of the Coast Range can scarcely be termed mountains. They do not rise to an elevation that interferes with the growing of crops, and the soil, even at the summits of the ridges, is usually rich and deep, and the creek bottoms and benches are extremely fertile. A peculiarly mild and favorable climate adds immeasurably to the agricultural advantages of the whole district.

Opening the agricultural land of the Siuslaw forest to settlement will provide no get-rich-quick opportunities for those who wish to avoid work, for the

development of these lands is no child's play. They are virgin wilderness, overrun with fern and alder and quick-growing shrubs. The settler who would win a home must be amply endowed with that indefinable quality known as "grit," and must be willing to wait for his reward.

But the new order will mean opportunities for men and women with little money, but much ambition and courage and determination. Over near the coast, on some of this land, a frail little woman and her children are making themselves a home! and what they are doing, others can do.

If the policy that has been announced is faithfully followed out, comfortable homes will rise where now are only waving fern and tumbled and twisted undergrowth. To bring this about is a work worth while.

30,000 VOICES!

And Many Are the Voices of Cottage Grove People.

Thirty thousand voices—What a grand chorus! And that's the number of American men and women who are publicly praising Doan's Kidney Pills for relief from backache, kidney and bladder ills. They say it to friends. They tell it in the home papers. Cottage Grove people are in this great chorus. Here's a Cottage Grove case: Mrs. M. Keibelbeck, 1010 Birch Ave., Cottage Grove, Ore., says: "I have nothing but praise for Doan's Kidney Pills. About four years ago kidney complaint came on me and I was caused much annoyance by the kidney secretions. I never found anything that would help me until I began using Doan's Kidney Pills. They benefited me in every way. I use this remedy once in awhile and it keeps me free from kidney complaint."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

There is only one way to get all the news of the Grove country. That is in The Sentinel.

OREGON NEWS NOTES OF GENERAL INTEREST

Events Occurring Throughout the State During the Past Week.

Find May Be Ambergris.
Marshfield.—Frank Blackerby, until recently a member of the Umpqua Life-Saving station crew at Gardiner, is the possessor of an 85-pound lump that is really worth its weight in gold, that is unless he and those who have examined it are badly deceived. It is said to be ambergris. He found it in the breakers, while patrolling the beach. Samples were sent to David Starr Jordan in California. The latter replied that it apparently was genuine ambergris, but it probably would be necessary to send samples to France to definitely determine it and so Blackerby will. Ambergris is worth \$500 or \$1000 a pound.

Remorse Makes Fugitive Surrender.
Albany.—A fugitive from justice since December 8, 1912, since when the county has offered a reward of \$100 for his arrest, Paul Ackerman, who shot and seriously injured Jack Leib in a road near Shedd, while the latter was buggy riding with his sweetheart, gave himself up to the authorities. Although his victim has recovered from the injuries, Ackerman said that the incident continually preyed upon his mind and he assigned this as the reason for giving himself up. He has been tramping through California.

Socialists Denounce Coos Sheriff.
Coquille.—The socialists of Coos county, in a convention called here for the purpose of denouncing the action of residents of this section in deporting Dr. B. K. Leach, adopted resolutions addressed to Governor West, asking that the sheriff of Coos county be removed from office because he "refused to enforce the law against mob rule."

FIREMEN GUARD FORESTS

Nation Joins State, Counties and Timber Owners to Protect Billions.

Salem.—To protect its billions of feet of timber from the ravages of fire, the state, with the aid of the federal government, is this year taking more elaborate precautions than ever before, and as a result of the work there has not been a disastrous fire this season. Timber owners will spend about \$150,000 for fire protection, the federal government has appropriated for fire patrol work \$150,000, and a law passed at the last session of the state legislature places at the command of the state board of forestry \$75,000 for the next two years.

Oregon has one-fifth of the standing timber of the United States, or about 545,000,000,000 feet, worth on the stump \$680,000,000, and if manufactured would sell for \$6,822,500,000. The money expended and the precautions taken are in protection of the state's chief resource. The forests already distribute more wealth in the state than apples, fish, wool and wheat combined, and the marketing of the timber has scarcely begun.

Quadrennial Trip of Toads Taken.
Klamath Falls.—Millions of small toads are now making their way from the swamps surrounding Lake Ewauna to the Upper Klamath lake. Every few years, during the latter part of July, the reptiles leave the marshes along the lake and work their way through the streets of the city to Link river. They do not take the line of least resistance for their march, which is along the lake shore, but come the shortest route through the city. The heging of toads occurs about every four years.

Coal Vein in Nehalem Valley.
Clatskanie.—J. M. Davey, of the department of the interior, government service, has been in this vicinity locating coal and mineral lands. He returned from a trip through the Nehalem valley and reported the finding of coal in marketable and workable quantities in the southern part of the county, principally in the Pebble creek district.

Rabbit Squad Is Named.
Salem.—Governor West has appointed W. L. Finley, state game warden; Dr. W. H. Lytle, state veterinarian; and T. D. Beckwith, professor of bacteriology in the Oregon Agricultural college, a commission to devise a plan for the extermination of rabbits, which have become a pest in the southern part of the state.

Mines Bureau to Be Aided.
Albany.—The Albany commercial club will cooperate with the Oregon bureau of mines and geology toward the development of the mining industries of this section of the state. At the request of the bureau the club has named a special committee on mining, which will work with the bureau toward that end.

HENRY LANE WILSON

© 1911, by American Press Association.

Henry Lane Wilson, Ambassador to Mexico, who was called to Washington to confer with the President and Secretary of State over the Mexican situation.

\$400,000 LA GRANDE FIRE

Two Shots Fired at Night Watchman; Blaze Believed Incendiary

La Grande, Or.—Fire, believed to have been due to incendiaryism, caused a loss of about \$400,000 near here when the yards, several sheds and a large amount of equipment of the Geo. Palmer lumber company was destroyed.

The fire started about the time that two unidentified men fired two shots at a night watchman and made their escape.

The fire started at the most western point of the yard and swept through the dry lumber northward like powder. The city fire department and the Palmer fire department were unable to cope with the situation.

Apple Talks to Be Given

Portland.—Representatives of the United States bureau of plant industry and fruit growers of the northwest will hold a series of meetings to discuss in a general way the subject of apple storage and refrigeration, and to report something of the progress of the government's investigations as to the behavior of fruit in cold storage.

The meeting places and dates are scheduled as follows: Medford, Or., August 2; North Yakima, Wash., August 4; Prosser, Wash., August 5; Wenatchee, Wash., August 7; Freewater, Or., August 9; Payette, Idaho, August 11; Hood River, Or., August 12 or 13; Portland, August 14.

MUCH OREGON LAND TO BE THROWN OPEN

Portland.—Thousands of acres of Oregon agricultural land heretofore included in the national forest reserves will be thrown open for settlement before the end of the year.

Most of this land is in the Siuslaw and in the Paulina national forests, but acreage in other districts also may be affected.

Within the last year the federal forestry bureau has been developing a more liberal attitude toward prospective settlers. This new attitude is finding expression in the apparent policy of the forestry officials to return all agricultural land within the forest areas to the public domain.

The recent visit to Oregon of Henry S. Graves, chief forester of the United States, and the approaching visit of David Franklin Houston, secretary of agriculture, are for the purpose of interpreting to the people of this state the meaning of this newly developed policy.

Spokane Recall Denied

Spokane.—By a decision of Judge E. H. Sullivan in the superior court the 15 per cent recall petitions filed against Mayor Hindley and Commissioner Robert Fairley are held invalid. The judge denied the writ of mandamus asked by the Central Labor Council to force the council to order the recall election.

MEXICANS SHOOT AMERICAN OFFICIAL

United States Immigration Inspector Seriously Injured by Federal Soldiers.

El Paso, Tex.—Charles B. Dixon, of San Diego, United States immigration inspector, was shot in the back by Mexican federal soldiers at Juarez. Dixon was in Juarez on official business, investigating a white slave case, when he was arrested by a band of federal soldiers, who started to march him away from the city in the direction of the foothills, where many executions have taken place. Dixon started to run, and after getting a block away, was fired on.

Dixon made a statement to American officials that he was satisfied the Mexicans were marching him out to shoot him when he ran. He said the Mexican soldiers were drunk.

"I told the soldiers when they arrested me that I would go to the commandant's office," said Dixon. "But instead of taking me there they started to the foothills south of the city. I was attired in the immigration uniform of khaki and I thought perhaps they had taken me for an American spy and intended executing me. I thought the only chance I had was to run for the border, so I broke loose from the two drunken troopers who held me."

Washington.—Strong representations, the most drastic in phraseology that have been made since the present American administration came into power, were made to the Huerta government in Mexico.

The United States government demanded not only the prompt arrest, courtmartial and punishment of the Mexican federal soldiers who shot Charles B. Dixon, Jr., an American immigration official at Juarez, Mex., but the immediate release of Charles Bissell and Bernard McDonald, mining managers, imprisoned by federal soldiers at Chihuahua City and said to be threatened with execution.

SOCIALISTS DAMAGES \$3047

Mayor of Seattle Declares City Responsible for Loss in Riots.

Seattle.—Mayor Cotterill has submitted to the city council claims for damages amounting to \$3047 because of losses suffered by socialists and others during the rioting by United States soldiers and sailors on the night of July 18.

The mayor in his communication to the city council, says that the city of Seattle is responsible for the destruction of the property for the reason that it was the duty of the police department to protect such property from destruction, no matter who the destroying agents might be.

Nothing in his letter refers to loss sustained by the industrial workers.

AMBASSADOR AND PRESIDENT DISAGREE

Washington.—Ambassador Henry Lane Wilson, summoned from Mexico City to inform the Washington administration of conditions in the rebellion republic, conferred with President Wilson and Secretary Bryan, submitting chiefly a recommendation that the United States use its influence to establish the Huerta regime.

It became known that the president's ideas and those of Ambassador Wilson as to the course to be pursued are so radically different that the administration officials interpreted the developments as forecasting the acceptance of Ambassador Wilson's resignation.

President Wilson and the ambassador looked on the future Mexican situation, it was learned, from opposite viewpoints. The president is concerned over the morality of any policy adopted by the United States and the effect on other Latin-American countries and is disinclined to strengthen a government that came into power through the questionable events incident to Madero's assassination.

Two Killed in Train Wreck.
White Fish, Mont.—Great Northern fast mail No. 2, westbound, was wrecked just east of Rock Hill shortly before noon Monday. Engineer Peck L. Forcum and fireman Carl Smith, both of White Fish, were killed and Express Messenger Lamb was injured, but will recover.

Legislator Found Guilty.
Webster Springs, W. Va.—S. U. G. Holmes, member of the lower branch of the West Virginia legislature, accused of accepting a bribe in connection with the recent election for the United States senatorship, was found guilty.

Mediators Avert Trainmen's Strike.
New York.—The threatened strike of 80,000 conductors and trainmen of 45 eastern railroads for higher wages and improved working conditions will not be called.

A Good Investment.

W. D. Magli, a well known merchant of Whiteland, Wis., bought a stock of Chamberlain's medicine so as to be able to supply them to his customers. After receiving them he was himself taken sick and says that one small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy was worth more to him than the cost of his entire stock of these medicines. For sale by all dealers.
