LOST AND FOUND.

FOUND.—GOLD RIMMED SPECTACLES near Walden depot. Owner can have same by proving property and paying for this notice.

Since the introduction of the player piano, the Baldwin Company has believed that the true rank of any instrument of this kind should be measured by the freedom and sureness with which it enables the performer to express his own musical feelings. This conviction is demonstrated through the

Baldwin Manualo

(The Player Piano that is all but human)

It is the ultimate—the unmechanical instrument that we have had in mind from the beginning—the plastic instrument that musicians have used as their imaginative standard in comparing player pianos.

In the Baldwin Manualo we offer the successful unification of the most artistic piano with the most scientific player action in made in the world.

There is absolutely nothing better, nothing more perfect on the market, neither as a piano nor a player piano. Please convince yourself of this at our music rooms. You are welcome whether you wish to buy or not.
