

Within a 15 mile circle around IMPERIAL there are now several hundred prosperous farmers raising enormous crops of wheat, rye, barley, oats, potatoes, vegetables, etc. Poultry raising is also highly successful. Three large stock ranches, owning several thousand horses and cattle are also in this circle. IMPERIAL is now the trading point and will soon be the shipping point (the railroads are now building) for the products from thousands of acres surrounding it.

Mrs. Brown's Dollar.
Good Mrs. Brown desired to buy a simple little blouse. She wanted one that wasn't high To wear around the house. At first she thought she'd send away To some big city store For fear perhaps she'd have to pay At home a nickel more.

But Mrs. Brown is rather wise; She took a second thought. She knew that here before her eyes She'd see before she bought. Perhaps a nickel difference In prices there might be— And maybe fully fifty cents In looks and quality.

She thought she'd see what in the town The dealers had to sell, And so that morning she went down To shop a little spell. And she was glad that not in haste She sent her cash away. She paid a dollar for a waist She found upon display.

But here is what she never knew, Though happen oft it will; The dollar that she handed to The clerk to pay the bill Before the afternoon was paid To some one in the town And in the course of daily trade At last to Mr. Brown.

That night when supper she had cooked She wore her garment new. Brown told her sweet enough she looked To kiss—and did it too. In fond embrace he held her near, To take another smack And said, "A little present dear,"— She got her dollar back! —American Lumberman.

GOVERNOR DENIES MISUSE OF FUNDS

Accounts Carried With Stock Brokers Not Gambling, Says Sulzer.

Albany.—After a long conference with some of his close political advisers, Governor Sulzer issued a short statement, denying absolutely that he ever used campaign funds for speculative purposes. He says he never heard of the stock brokerage firms of Fuller & Gray and Boyer & Griswold, alleged transactions with which figured largely in the testimony before the Frawley legislative committee until these names were brought out before the committee.

The governor admits he did apply certain campaign contributions to his personal use, but adds that he made the amount good. He also admits having transacted with the stock firm of Harris & Fuller, but insists that his accounts with this firm was not speculative and consisted of a loan on stock and collateral. He denies that he ever speculated in Wall street.

The report of the Frawley legislative committee, charging Governor Sulzer with having diverted campaign contributions to his own private use, was adopted by the legislature and a resolution to impeach him for "wilful and corrupt conduct in office and for high crimes and misdemeanors" was offered in the assembly by Majority Leader Levy.

The conclusions of the Frawley committee, embodied in its report to the legislature are that Governor Sulzer falsified under oath his campaign contributions account, diverted some of these contributions to the purchase of stock, speculated in stock at the time that as governor he was earnestly pressing legislation against the New York Stock Exchange.

JAPS EVADE RESTRICTIONS

Oriental Cross Pacific and Are Captured on California Coast.

Point Arena, Cal.—Following the report sent by wireless by the steamer Henry T. Scott that a Japanese junk had been sighted off the coast near here, Constable Ketchum arrested 15 Japanese as they were making their way through the woods. This is the second capture of the sort that has been made on the coast line north of San Francisco within the past two weeks and it leads immigration officials to believe that venturesome Japanese have hit on a new method of evading immigration restrictions, a method that consists of crossing the Pacific ocean in flimsy fishing boats. One of these vessels is being held at Eureka now, a craft 50 feet long by 10 feet beam, and held together by ancient wooden clamps.

The Japanese held here have been unwilling to give an account of themselves.

JOHN LIND REACHES MEXICAN CAPITAL

Mexico City.—John Lind, President Wilson's personal representative, who arrived here safely late Sunday night and after spending the night at the Hotel Lascruain moved to the American embassy. Lack of interest in Lind's coming, and consequent absence of disturbance, was due largely to the fact that a great demonstration in favor of Huerta was in progress when Lind reached the city.

Nelson O'Shaughnessy, the American charge d'affaires, acting under instructions of Secretary of State Bryan, delivered a note to the foreign office expressing the appreciation of the United States for the courtesies thus far shown to Mr. Lind. These courtesies consisted of a call on President Wilson's personal representative by the commander of the garrison at Vera Cruz and a large display of police about the station when he arrived in the capital.

Salem, Or.—W. M. Plimpton, for three years superintendent of the state printing plant under the late W. S. Duniway, was made secretary of the department by the state printing board. Mr. Plimpton will receive a salary of \$2000 a year and the flat salary bill under which the appointment was made gives the secretary as much power as the state printer, if not more.

CANADA OBJECTS TO HINDUS

Plan to Land 100,000 Moves Government to Act.

Vancouver, B. C.—That a well-developed scheme has matured to bring upwards of 100,000 Hindu men and women to Canada by the direct line of steamers, which it has been rumored is to be started between India and British Columbia, is the report that has been received from confidential agents of the Canadian government immigration department.

The question was officially taken up in Ottawa, where the government has decided that, though they are British subjects, they cannot be allowed to land. It is alleged that so carefully have the plans been made that every newcomer will be provided with the \$25 imposed by the government on every prospective immigrant.

Webb Liquor Bill Held Void.

Ottumwa, Iowa.—Judge F. M. Hunter of the state district court ruled that the Webb-Kenyon law prohibiting the shipment of liquor from wet to dry states is unconstitutional "in that it is a delegation by congress to the states of power of regulating interstate commerce of intoxicating liquors, which power is vested in congress exclusively."

Knights Templars in Denver.

Denver.—Knights Templars from all over the United States gathered in Denver for the 32d triennial convocation of the grand encampment, which opened its sessions in El Jebel Temple Tuesday afternoon. On the grand parade, on Tuesday, fully 30,000 Templars, in full uniform, were in line.

SEVERE DROUGHT HITS MIDDLE WEST

Kansas City, Mo.—The great grain-growing states of the central west—Kansas, Missouri and Oklahoma—have been facing the greatest combined drought and heat wave since 1887.

Crops are withering under the burning rays of the sun, whole herds of livestock are reported to be in danger of dying because of lack of water, citizens are sending out appeals for water to replenish empty wells and cisterns, and fire departments in nearly every city of the three states have issued warnings of the grave results that may follow even a small fire.

The heat wave is amazing. For five consecutive days the government thermometer in Fort Riley showed maximum temperatures of 100 degrees. For five days and four nights the mercury did not drop below the 70 mark in Topeka, and the heat has reached the 100 mark every day. Practically the entire region within the three states has been engulfed in temperatures in excess of 100.

Heavy rains, which were general from Nebraska to western New York Sunday finally broke the heat in portions, at least, of the east central and west central states and will be of great benefit to what remains of the crop crop.

A dog quarantine effective six months beginning August 9 to be enforced by sheriffs and peace officers, was declared in Multnomah, Clackamas, Washington, Marion, Yamhill, Polk and Columbia counties. All swill or refuse from restaurants or hotels or offal from packing plants must be thoroughly cooked before fed to hogs.

Agricultural College Instructors to Give Daily Talks En Route.

In carrying out this programme the Oregon agricultural college extension staff will travel in two parties, one of which will conduct general welfare schools in the cities and larger towns, while the other will devote the entire six weeks to farmers' institutes for the discussion of various topics.

The daily programme outlined for the general welfare school will consist of lectures, demonstrations and informal classroom discussions, covering such domestic subjects as cookery, house decoration, nutritive value of foods, food adulterants and preservatives and child welfare.

Big Preserve is Project.

Red Spider Strikes Hops.

Independence.—Many reports have come in from the hop yards to the effect that the red spider is appearing in large quantities. While this will not affect the quality of the hops, it looks as if it will decrease the quantity.

Remarkable Cure for Dysentery.

"I was attacked with dysentery about July 15th, and used the doctor's medicine and other remedies with no relief, only getting worse all the time. I was unable to do anything and my weight dropped from 145 to 125 pounds. I suffered for about two months when I was advised to use Chamberlain's Colic, Cholera and Diarrhoea Remedy. I used two bottles of it and it gave me permanent relief," writes B. W. Hill of Snow Hill, N. C. For sale by all dealers.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by Catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars free.
