

Within a 15 mile circle around IMPERIAL there are now several hundred prosperous farmers raising enormous crops of wheat, rye, barley, oats, potatoes, vegetables, etc. Poultry raising is also highly successful. Three large stock ranches, owning several thousand horses and cattle are also in this circle. IMPERIAL is now the trading point and will soon be the shipping point (the railroads are now building) for the products from thousands of acres surrounding it.

### Shot by Gopher Gun; Dies.

Walter Arthur Kantelberg, 10-year-old son of Gustave Kantelberg of Salem, died recently as a result of being shot accidentally by a gopher gun. His brother, 5 years of age, also shot by the same gun, is in a serious condition.

The children were playing with the gun in the front yard of their home a week ago when it was accidentally discharged, spraying them with the poison acid.

Her health broken by many years of school teaching in the Middle West Miss M. E. Wheeler came to the Willamette Valley a little more than a year ago, bought about 25 acres of wild land a few miles south of Milwaukie and commenced clearing it with her own hands. By this spring she had grubbed out the brush and trees and dynamited the stumps on seven acres. A part of this land was planted to oats which at the present time are more than seven feet tall, and on another tract she is raising every kind of vegetable that can be grown in Oregon. As a result of the strenuous out-door life, Miss Wheeler has completely regained her health and says she cannot understand why everyone in Oregon does not take up farming.

At the present time a farmer in the Molalla District, about 20 miles from Oregon City, is harvesting a crop probably not grown by any other rancher in the Willamette Valley, teals. His present crop consists of about 70 acres and during the harvest season he will employ about 40 hands at \$2.50 to \$3.00 per day. The teal is a bur for which the manufacturers of cloth find a use in raising the nap of the goods, a process for which no inventor has ever been able to invent a mechanical substitute.

From Weston comes news of the fruit returns of the 1913 harvest season. From a field measuring 33 acres, J. N. York, a farmer at that point, harvested 1103 sacks of extra fine wheat, indicating an average yield of a fraction over 77 bushels per acre.

No other paper, daily or weekly, reaches one-quarter as many people in the Cottage Grove country as does The Sentinel.

## MEXICO ISSUES AN ULTIMATUM TO U. S.

President Huerta Repudiates American Plan for Peaceable Mediation.

Mexico City.—The United States government has been given what is regarded as an ultimatum by President Huerta to recognize Mexico, or sever all diplomatic relations, it is officially stated, and Charge d'Affaires O'Shaughnessy was given his passports.

Senator Urrutia, minister of the Interior, who on previous occasions has been the spokesman for the administration, was the person chosen to make the announcement.

The demand for recognition of Mexico was included in the note replying to Mr. Lind's suggestion.

One official, in discussing the matter, said that Mexico had reached the point where she either must bow her head in humiliation before the United States or adopt an attitude of defiance. The first contingency, he added, was regarded as impossible.

The official said that Mexico fully realized the gravity of her action and the possibilities that might ensue in case the United States refused to recognize the republic.

Conservative authorities, however, are unwilling to believe that even the severance of diplomatic relations and Mexico's defiant attitude would provoke the United States beyond forbearance.

### WOULD BUILD ALASKA ROADS

Development of Coal Lands and Cheap Transportation Needed.

Seattle, Wash.—In his address at the commercial club here Secretary Lane declared it was one of the first duties of the government to develop Alaska.

"If the government were justified in spending \$400,000,000 to join the Atlantic and Pacific coasts with a canal, why was it not as much obligated to link to itself with an outlying portion of the United States by an expenditure of \$40,000,000? The United States built a dirt road across Pennsylvania a century ago, and dug a canal from Lake Erie to the Hudson river."

The secretary declared himself not only in favor of government construction of an Alaskan railroad system, but its operation, so that products might be transported at reasonable cost. He wished to see the coal lands developed so that they would benefit all the people and not fall into the hands of a monopoly.

### Omaha Has \$200,000 Fire.

Omaha, Neb.—A loss of \$200,000 and three firemen injured was the result of a fire near the heart of the business district, which threatened for a time a whole business block. The fire was the result of spontaneous combustion in the rear of Burgess-Graden company, an electrical and gas fixture house, between Fifteenth and Sixteenth, on Howard street.

## 40 PERISH WHEN ALASKA SHIP SINKS

Juneau, Alaska.—Thirty-three passengers and seven members of the crew of the Pacific Coast Steamship company's iron steamship State of California perished Sunday morning in Gambier Bay, 90 miles south of Juneau, when the vessel struck an uncharted rock and sank in three minutes, with many passengers imprisoned in their staterooms.

The steamship left Seattle early last week for Skagway and way points. At the time of the disaster the ship carried a total of 76 passengers. Forty-three passengers were rescued and taken to Juneau by the steamship Jefferson, leaving 33 who have perished. Seven of the crew are dead, making the total dead forty.

The Jefferson was only a short distance away when she picked up the "S. O. S." call and when she arrived at the scene the survivors were in the lifeboats and on life rafts. It was broad daylight. There is no possibility that any of the missing reached shore.

### Dakota Farmers Harvest at Night.

Grand Forks, N. D.—By transferring the headlights from their automobiles to their binders, farmers of the Red River valley are conducting harvesting operations through the night and lying idle during the day.

This is owing to intense heat, more than 100 horses having died from prostration during the past week, according to reports that have reached here.

Editor Kills Former California Official Quincy, Cal.—As the result of a feud growing out of the rival claims of the towns of Quincy and Greenville for a \$40,000 high school now under construction, J. A. Boyle, the former city attorney, was shot and killed by F. G. Hall, veteran editor of the Plumas National Bulletin, of Quincy.

## WILLIAM SULZER

Photo by American Press Association.

William Sulzer, governor of New York, against whom impeachment proceedings have been instituted.

### RECALL COUNTY OFFICIALS

County Judge and Commissioner Replaced by New Men.

Oregon City, Or.—Clackamas county voted to recall the old county court and seat a new judge and commissioner.

Returns show that H. S. Anderson defeated R. B. Beatie, incumbent, for county judge by 331 votes, and J. W. Smith beat N. Blair, incumbent, by 454 votes for county commissioner.

The recall was the result of dissatisfaction over the way in which the county court let contracts. It was charged in the petitions that Judge Beatie and Commissioner Blair did not advertise for bids on county work and that their procedure under the old system was a waste of the taxpayers' money.

### Glynn Refuses to Deal With Sulzer.

Albany, N. Y.—Martin H. Glynn checkmated a movement of William Sulzer to invoke the arbitration of the courts on the question which of the two is the lawful present chief executive of the state of New York.

Replying to a formal proposal by the impeached executive to submit the issue to adjudication on an agreed statement of facts Mr. Glynn declared it was beyond his power to "barter away any of the functions attaching to the office in which I am placed by your impeachment."

### Showers Relieve Kansas.

Kansas City.—Heavy showers over most of the eastern half of Kansas added to the relief that came with the rains of Sunday and it is believed the drought is now effectually broken.

## HARRY THAW MAKES DASH FOR LIBERTY

Mattewan, N. Y.—Harry K. Thaw, the slayer of Stanford White, escaped from the hospital for the criminal insane at 7:45 Sunday morning. A dart for liberty through an open gate, a dash into the open door of a powerful automobile that stood quivering outside, and a flight like a rocket for the Connecticut state line, 30 miles away, accomplished his escape, and the hospital authorities are certain he is outside the state. Once beyond its boundaries, Thaw is free. Only long, perhaps years, of litigation can bring him back, and then only in one event—that he be adjudged insane in the state to which he has fled.

The shades were drawn in the dormitories and the inmates were getting their second sleep when Thaw left his room. The milkman's cart was rumbling on the road outside as he walked through the storeroom and into the outer court or yard of the asylum grounds. A six-cylinder touring car, black, and 60-horsepower, followed by a limousine, also black, loomed lazily along the road as the milkman drew near the gate. Thaw, standing a few feet away, apparently unconcerned, waited until Barnum, attendant at the gate, unlocked the gate and swung it wide to let the milkman enter. As Barnum stepped aside for the milkman to drive inside Thaw flashed past him straight for one of the waiting cars.

## OREGON NEWS NOTES OF GENERAL INTEREST

Events Occurring Throughout the State During the Past Week.

### Umpqua Survey Asked

Gardiner.—The Umpqua Port Commission is making arrangements to have a special survey of the Umpqua bar and harbor here made by the United States war department with a view to extensive improvements. Representative Hawley and the Oregon senators are expected to secure a federal appropriation at the coming session of congress. The Umpqua is the third largest river in Oregon, the volume of water from it being close to the flow of the Willamette.

### Dallas Man Sentenced

Dallas.—Maintaining the same self-satisfied air that marked his bearing throughout his trial for his life on a charge of murder in the first degree, Louis Davis, convicted of murder in the second degree by a jury in the circuit court of Polk county last week, stood unmoved while Judge Holmes sentenced him to imprisonment in the state penitentiary for his natural life.

### NEW LAND PLAN PRESENTED

Method of Developing Logged Off Areas Talked.

Corvallis.—A business-like method of bringing Oregon's logged-off lands more rapidly into cultivation is being advocated by Dr. James Withycombe, director of the O. A. C. Experiment Station, who believes that a practical solution of the problem lies in cooperative work between farmers and progressive merchants.

According to Dr. Withycombe's scheme, interested farmers would be given the opportunity of buying on long time at reasonable rates of interest sufficient quantities of power to blast all stumps standing on the land to be cleared. The farmers could then combine their available cash resources for the purchase of donkey engines to be used in pulling and piling the stumps after they had been split and loosened up by the use of the powder.

According to estimates received at the office of the O. A. C. Experiment Station there are almost 1,000,000 acres of logged-off land in Columbia county. It is mostly excellent agricultural land when cleared.

### S. P. Overpays Taxes

Klamath Falls.—Klamath county is indebted to the Southern Pacific Company in the sum of \$17,000, the amount in which the railway company overpaid its 1912 taxes. The mistake was made in the assessor's office and was overlooked by the railway representative who inspected the assessment and gave his approval to the valuation as it appeared on the assessor's books.

### Rabbits and Sage Rats Worry Farmers

Prineville.—The worst pests the farmers of this state have had to contend with during the past year or two have been the rabbits and sage rats. Hundreds of acres of grain and potatoes were ruined this year by the ravages of these animals in Crook county alone. In some localities whole fields have been destroyed.

### NEW LAW PROTECTS BIRDS

Late Statute Supersedes All State Codes Which May Conflict

Portland.—On and after October 1 a federal law for the protection of migratory birds, such as wild ducks, geese, pigeons, brant and snipe, goes into effect, and supersedes all state regulations governing open and closed hunting seasons wherever state codes conflict with the government's statute. The federal code likewise extends protection to a number of shore birds, and in some cases declares a five year closed season.

The new law will terminate all spring shooting of migratory birds throughout the United States, and in Oregon will make the hunting season extend from October 1 to January 16, provided the recommendations of State Game Warden Finley are followed. Otherwise the hunting season for this state will be from September 16 to December 16, as tentative regulations just issued by the government provide.

### Farmers Want 70 Cents

Pendleton.—Many Umatilla farmers are holding their wheat, waiting for a raise in price. A little is being sold at 68 cents, and 69 cents for choice lots. When 70 cents is reached hundreds of thousands of bushels will be thrown on the market, but local growers declare they will not take less.

### 2487 Voters Ineligible

Roseburg.—As a result of failure to discover certain sections of the registration laws passed at the last session of the legislature, only 13 out of a total of 2500 voters of Roseburg are eligible to vote at the primary election to be held here on September 8.

### Remarkable Cure for Dysentery.

"I was attacked with dysentery about July 15th, and used the doctor's medicine and other remedies with no relief, only getting worse all the time. I was unable to do anything and my weight dropped from 145 to 125 pounds. I suffered for about two months when I was advised to use Chamberlain's Colic, Cholera and Diarrhoea Remedy. I used two bottles of it and it gave me permanent relief." writes B. W. Hill of Snow Hill, N. C. For sale by all dealers.
