

Within a 15 mile circle around IMPERIAL there are now several hundred prosperous farmers raising enormous crops of wheat, rye, barley, oats, potatoes, vegetables, etc. Poultry raising is also highly successful. Three large stock ranches, owning several thousand horses and cattle are also in this circle. IMPERIAL is now the trading point and will soon be the shipping point (the railroads are now building) for the products from thousands of acres surrounding it.

MURDERER ADMITS KILLING 14 PEOPLE

Slayer of Chicago Woman Dancing Teacher Confesses to Many Crimes.

Chicago.—Mrs. Mildred Allison Rexroat, dancing teacher who was shot to death at Wheaton, Ill., a week ago, was the victim of a murderer, who, according to his own confession, had killed 13 others in as many years. Henry Spencer, arrested in a room near the south side levee district, confessed that he not only killed Mrs. Rexroat, but that he has slain 14 persons in all.

He was positively identified as the mysterious "Mr. Spencer" with whom Mrs. Rexroat left Chicago on the night she was killed. Mrs. Rexroat's blood-stained rattle suitcase was found in his room, as was the revolver with which he said he had killed her.

The police, while in doubt as to the full truth of Spencer's story, are confident that they have found a whole-sale murderer, and that he will be proved to have killed at least seven persons, described in a long confession.

All the murders except two he declared had been for the purpose of robbery.

CHIP NEAR CAUSES TRAGEDY

Trouble Due to Bit of Wood Holding Sea Cock Open.

Seattle, Wash.—The steamship Spokane, which sent out frantic distress signals while she was off the east coast of Vancouver Island, arrived here undamaged and with all her passengers well.

She did not run aground as reported, but narrowly escaped turning turtle from an inrush of water into the hold from her main discharge because a chip of wood caught and held open the sea cock. The steamship was stopped to plug the tubes in the main condenser. She suddenly took a violent list to port, when a distress signal was sent out.

Municipal League After Humphries

Seattle, Wash.—Without one dissenting vote among the 300 members present, the municipal league adopted a resolution to appoint a committee to investigate the conduct of Judge John E. Humphries, of the superior court of King county, who during the past week sent 54 men and women to jail for terms ranging from one day to 11 months on contempt charges.

MUST DENUDE HATS OF FOREIGN PLUMAGE

New York.—With the passage of the new tariff, the customs officer has had thrust upon him a new and disagreeable office. He must tear out the aigrettes and plumage of foreign birds that women passengers are wearing in their hats when they arrive in American ports.

When the Underwood bill went into effect a score of women on the French liner Lorraine were subjected to this treatment. Their indignation was so great they could not contain themselves.

The plumage seized will be turned over to the appraisers, who will set a price of each piece and send word to the owners, who will be permitted to return them to the dealer from whom they were bought.

FRUIT SPRAY IS BLAMED

Physicians Think They Have Found Cause of Children's Deaths.

Bellingham, Wash.—An unusually large number of deaths of children here, it is believed, have been caused from poisoned fruit. Physicians at first were of the opinion that an epidemic of cholera infantum had developed, but it is now thought that deaths can be traced to fruit which had been sprayed with arsenic and lead. Within a week 10 have succumbed in one district of the city.

On account of drouth in the interior of the state, it is believed that poison used in spraying fruit trees was not washed off before the fruit was picked and that enough adheres to the skin of peaches to poison a child. The health department is investigating fruit shipments.

FOSS WARNS ENGINEERS

Governor Says State Will Act if Strike is Ordered.

Boston.—A strike undertaken by the engineers and firemen of the New York, New Haven & Hartford railroad, with the rule of seniority as the issue, would "compel this commonwealth to adopt suitable measures for the protection of its citizens," Governor Foss declared in an open letter. The letter says in part:

"When your organization adopts a course of action which would disorganize the business of our citizens, throw labor out of employment and interfere with the supply of food and fuel, it is subject to censure just as much as the railroad would be if, in any manner, they refused to operate their trains or otherwise perform their duties as public carriers."

SEATTLE TIMES IS DAMAGED BY FIRE

Seattle, Wash.—Fire Sunday damaged four large presses and destroyed 33 motors in the pressroom of the Seattle Times, in the basement of the Times building, causing a loss of \$75,000, fully insured.

The presses were damaged by water and steam, but were not burned and can be restored in a short time. The fire was discovered at 11 a. m., and originated in the courtroom of the stereotyping department.

Celestyn Alden J. Blithen, editor of the Times, and Clarence B. Blithen, managing editor, said they were convinced the fire was of incendiary origin. Blithen and his son based their opinion on the statement of a stereotypist, who said that the flames burst out in a moment from a locker that had not been opened for 12 hours.
