As illustrating the importance of an early application for patent, Bell filed his telephone application in the U. S. Patent Office at 10 a. m., while another man filed his application for the same idea at 3 p. m. of the same day, thus missing Bell's \$100,000,000 by a nose.

**HENRY LANE WILSON
MAKES LETTER PUBLIC**

Reviews Circumstances Leading Up to Instructions to British Ambassador.

Spokane.—The letter to Secretary of State Bryan, in which Henry Lane Wilson tendered his resignation as American ambassador to Mexico was made public here by Mr. Wilson. The letter was written in Indianapolis August 28. In part Mr. Wilson wrote:

"I have the honor to acknowledge the receipt of your note of August 14, transmitting a copy of a telegraphic instruction of the department of state to the American ambassador in London, directing him to disclaim all responsibility on the part of this government for an interview attributed to me."

Mr. Wilson then reviews the circumstances leading up to the instructions to the ambassador in London. A London dispatch was published in this country August 11, saying that one of the factors determining British recognition of the Mexican provisional government was the "congratulatory" speech of the American ambassador on the occasion of Huerta's reception to the diplomatic corps. Mr. Wilson says he did not believe this came from an official British source, and when he read articles "evidently inspired from administration sources, containing expressions of gratification over the supposed propitiatory explanation" of the British government.

"It seemed apparent to me that this was the first evidence of your intention publicly to question my official acts," he continues, "and I accordingly gave to the press the interview referred to."

GERMAN BALLOON BURSTS

Airship Drops 900 Feet to Ground and Navy Officers Lose Lives.

Berlin.—Twenty-eight persons were killed near Johannisthal in the explosion and fall of Count Zeppelin's latest dirigible balloon, the L-11.

The 28 men represented the entire personnel of the admiralty board which was to conduct the final trial of the dirigible looking to its acceptance by the government as a new unit of the German aerial navy, the pilot and crew and invited guests. Every person that went aloft in the big airship is dead.

Twenty-seven of them were killed almost instantly by the explosion of the gas in the balloon or burned to death as the flaming wreck fell to the ground from a height of 900 feet.

**MRS. PANKHURST IS
REFUSED ADMISSION**

New York.—Mrs. Emmaline Pankhurst, foremost of English militant suffragettes, who reached America on the liner Provence, to appeal for the sympathy and support of the American people in the "revolution" for which she says she is fighting, was held a prisoner at Ellis Island, under order of deportation, awaiting the issue of an appeal to be decided at Washington.

Mrs. Pankhurst was detained by an immigration inspector on her arrival here and was at once taken before a special board of inquiry which, after examining her, speedily decided that because she had been convicted abroad for acts involving moral turpitude she was an undesirable alien. The board, therefore, ordered her exclusion. The "moral turpitude" was declared to be involved in Mrs. Pankhurst's conviction of conspiracy to commit arson.

J. J. Hill Badly Shaken in Wreck.

GOVERNOR SULZER REMOVED

Extreme Penalty of Disqualification Unanimously Withheld.

Albany, N. Y.—William Sulzer ceased to be governor of the state of New York. He was removed from office by the high court of impeachment.

By a virtually unanimous vote also the impeachment tribunal decided that Sulzer should not be punished by disqualification to hold office of honor and trust in this state in the future.

In going out of office Sulzer issued a statement in which he denounced the tribunal which removed him as "Murphy's high court of infamy." He asserted he had not taken the stand in his own defense because he realized that his story attacking the Tammany leader would be ruled out.

Southern Pacific Wins Contention.

San Francisco.—The first arbitration held between a western railroad and its employees under the Newlands arbitration act was accomplished when the arbiters filed their findings and award in the dispute between the Southern Pacific company and the organization of engineers, conductors and trainmen. The majority opinion of the arbiters upheld the contentions of the Southern Pacific on the distinction between street car service and suburban electric service.

**RESIGNATION DENIED
BY PRESIDENT HUERTA**

Mexico City.—In a brief statement President Huerta denounced as baseless that he was contemplating resigning or fleeing from the capital.

Persons close to the president declare that he has received sufficient assurances of support from the army heads as well as from the provincial governors and is satisfied that the revolt in the north will soon be ended with the recapture of Torreón by the strong federal force now being concentrated upon the city.

Ten of the imprisoned deputies were set free, there being no evidence that they had taken part in a conspiracy. Seventy-four of the remaining 100 were formally held for trial in the federal district court on charges of sedition, rebellion and contumacy.

LAND LOTTERY PROTESTED
Eastern Oregon Residents Prefer Old Way of Settlement.
Washington.—Vigorous protest has been made by residents of Eastern Oregon against the opening by the lottery system of some 300,000 acres of land that are soon to be eliminated from the Paulina and Deschutes national forests.

Representative Sinnott, to whom these protests were made, took the matter up with Land Commissioner Tallmar. The commissioner said there had been no definite determination as to the method of opening, but in about two weeks the question will be settled. The commissioner thought the department might eventually decide to open these lands in the usual way, throwing them open to settlement on some date to be fixed and opening them to entry 30 days later, thus giving settlers the preference right of entry.
