FROM BACK OF THE SHEEP TO BACK OF THE BOY

INTERESTING FILM AT ARCADE WILL SHOW HOW CLOTHES ARE MANUFACTURED.

One of the most interesting industrial films ever produced will be shown at the Arcade Theatre, Wednesday, Nov. 26.

This film, entitled "The Clothing Industry," from sheep to wearer, very cleverly illustrates every angle incidental to the manufacture of that most staple, but very slightly understood commodity, the clothing we wear.

Because of the universal lack of understanding of clothing, this film should prove of special interest to the public and particularly to the mothers who are called upon to select the clothing their children require.

In this picture is first shown the herding and shearing of sheep, then on through the various processes through

which wool passes from the time it leaves the sheep's back until it becomes cloth.

At this juncture the picture takes us to the immense model factories of Messrs. Mayer Brothers, of Chicago, Ill. Practically every step in the manufacture of high grade clothing under modern, sanitary conditions is shown, the subject being concluded by a scene in a large retail clothing store illustrating the sale of Messrs. Mayer Brothers' well known brands, "Graduate" and "Viking" clothes for young men and "Wooly Boy," all wool clothes for boys, to a host of satisfied customers.

The exhibitions of this film in Cottage Grove is made possible through the courtesy and cooperation of the Arcade Theatre, Messrs. Mayer Brothers, Chicago, Ill. and Rees-Wallace Co., who distributes their well known brands of clothing in this vicinity. Adv.

DOUGLAS COUNTY VOTES NOT CAST AT BOHEMIA

A member of the Bohemia election board was in the city the past week and says the statement that Douglas County votes were cast in the Bohemia precinct was incorrect. While they would have been received, no Douglas County voters applied for ballots, and therefore this county did not pay for any Douglas county votes, although votes were cast by those registered in other counties.
