MONROE DOCTRINE QUESTIONED IN CHILE

Colonel Roosevelt and Chilean Ex-Diplomat in Heated Argument.

Washington.—Members of the diplomatic corps, especially representatives from the South American countries, were greatly interested in a report reaching Washington that ex-President Roosevelt and Dr. Marshall Martinez, at one time Chilean minister to the United States, clashed in Santiago de Chile on account of divergent views on the Monroe doctrine.

The reported debate attracted unusual interest here because both of the prepared speeches were reviewed before delivery by the Chilean foreign office.

In his address at the Roosevelt re- the Monroe doctrine as a dead issue and arguing that the conditions which gave rise to its promulgation by President Monroe in 1823 have almost entirely disappeared.

This statement is said to have aroused the ire of Colonel Roosevelt, who replied with some heat, holding that the Monroe doctrine still was a vital principle of the foreign policy of the United States. He is said, too, to have suggested to the Chilean diplomat incidentally that it was ill-advised on such an occasion to inaugurate a controversy.

Nothing official has reached the Chilean legation here concerning any phase of what diplomats are inclined to consider a delicate situation.

KILL MEXICAN PLOTTERS

All of Commissioned Officers of Battalion Suffer at Guaymas. Hermosillo, Sonora.—The commissioned officers and many sergeants and corporals of the Tenth battalion of the federal garrison at Guaymas were executed in that city, according to word brought here.

Officers and men of the Tenth were dismissed several days ago by General Ojeda, federal commandant, when he discovered they were plotting to desert to the insurgent side.

Accompanied by three of the federal officers who surrendered to the insurgents at Maytorena, General Obregon, field commander of the constitutionalists in western Mexico, returned here to assist in locating the scattered groups of federal soldiers who had deserted from the Guaymas garrison.

Idaho Solons to Stay Home.

Boise.—A session extraordinary of the twelfth Idaho legislature will not be called by Governor Haines. After giving consideration to the demands from various sections of the state for an extra session, he issued a statement here refusing to act.

HUERTA CONTINUES TO OBTAIN MONEY

Mexico City.—Financial impoverishment and an increasing organization among scores of rebel bands have reduced the provisional government to what appears to be a desperate situation, but conservative residents of the federal capital profess to believe, in view of the recent military operations and the fact that Provisional President Huerta continues to secure money even though in small amounts, that the government may not fall for many months unless some unexpected turn for the worse occurs.

In all departments there was little delay in meeting the pay rolls. That the government may not be able to float another loan is conceded by Mexicans generally, but none has lost sight of the fact that the country is rich and that General Huerta as a last resort would not hesitate to take money where he could find it.
Already the cabinet has discussed the confiscation of the property of all individuals who are known to have arrayed themselves against the Huerta government.

GOVERNOR URGED TO PARDON

Women Protest Hanging One of Own Sex in Connecticut.

Hartford, Conn.—Governor Baldwin of Connecticut is being deluged with petitions from every part of the United States urging him to extend clemency to Mrs. Bessie J. Wakefield, who has been sentenced to hang March 4 for the murder of her husband. The petitioners are for the most part women, although there is a sprinkling of men. These appeals vary in tone. Many argue the case opposing hanging in general or hanging women in particular. Many appeal to the governor's sense of chivalry. A large percentage make the assertion that to hang a woman will be to disgrace the state. Some threaten.

Mrs. Wakefield is only 26 years old. She was convicted of killing her husband, William Wakefield, largely as a result of the testimony of her accomplice, James Plew, a farmhand. Plew also has been convicted and sentenced to death.

Tide Lands Belong to People.

San Francisco, Cal.—Affirming the doctrine that the tide lands of California belong to the people of the state in their sovereign capacity and that the legislature or other official bodies have no power or authority to sell them, the supreme court returned a sweeping decision that will affect the titles of millions of dollars of water front property.

WISCONSIN EUGENIC LAW RECEIVES BLOW

Milwaukee.—The eugenics marriage law, which will go into effect January 1, received a blow when Horace B. Walmsley, an attorney, issued a statement that a marriage ceremony in Wisconsin was unnecessary and therefore the eugenics measure was useless. "All that is required in this state is that two persons who are not married at the time agree to accept each other as mates," said Mr. Walmsley. "No service is necessary and the physical examination required by the late law cannot be enforced."

The contention of Mr. Walmsley is based on a decision of the state supreme court, April 8, 1913. The decision holds that any man or woman not married at the time may make a legal and valid contract of marriage without any license, medical examination, priest, clergyman or magistrate. No written statement nor writs are required, but the court suggested that for the benefit of both parties it would be well to sign an agreement.

UMATILLA PROJECT STARTED

Secretary of Interior Orders Operations on West Extension at Once.

Pendleton.—H. D. Newell, engineer in charge of the Umatilla project at Hermiston, received orders by telegram from Secretary of the Interior Lane to begin operations on the west extension of that project immediately. As this order has been eagerly awaited, no time was lost, and within one hour after the message was received a crew of men were busy locating the first construction camp. This will be about two miles west of Hermiston. The 70,000 acres contained in the west extension will be reclaimed by units. There are 10,000 acres in the first unit. The principal part of the work will be the construction of the diversion dam across the Umatilla river, making a reservoir of the river valley. This dam will be located two miles west of Hermiston. Following the completion of the first unit, a second dam will be built across the river near Stanfield, converting a large part of the Umatilla meadows into a reservoir.

W. J. Leaton is Sentenced.

Linn county will expend more than \$180,000 in road improvement in 1914. The purpose of the convention will be to outline plans for road work for the coming year and to make a study of modern roadmaking methods.

The bill which Representative Sinnott introduced to give public land entrymen three years in which to establish a residence on land, meets the ideas of many men in Oregon, who have represented that the expense of getting established on claims is almost prohibitive. The bill is very carefully drawn and Sinnott believes it will have the approval of the committee and the interior department.

Portland enjoys the distinction of having the most prosperous postal savings bank in the United States, as shown by the annual report of the board of trustees of the postal savings system, recently sent to congress. Only three cities in the United States have larger deposits in their postal savings banks than Portland—New York, Chicago and Boston, cities which greatly outrank Portland in population.
