OREGON NEWS NOTES
OF GENERAL INTEREST

Events Occurring Throughout the State During the Past Week.

Black Sand Cost Investigated.
Grants Pass.—A. E. Smith, of San Francisco, a miner and investor in mining properties, is here looking over the various mining sections. Mr. Smith is much interested in the loss that is occurring in the black sand, and so often discarded by the placer miner. It is declared by mining men that a great deal of the vagrant gold finds its way into the black sands of the Rogue river, where it is lost, as no successful machinery has yet been invented whereby it can be operated at a profit.

Klamath Falls Gets Lecturers.
Klamath Falls.—Dr. Joseph Schaefer, professor of history in the University of Oregon, will deliver a lecture on "Education as Social Adjustment" January 17 at the high school building here. While here he will act as one of the judges in the Ashland-Klamath High School debate. Dr. Hodge, of the university, also will lecture to the students in the high school several days following Dr. Schaefer's visit.

Linn County Dry All Over.
Albany.—Linn county is again entirely "dry." There were no "wet" spots in the county from July 1, 1906, until a year ago, when Harrisburg went "wet" in a local option election. Harrisburg returned to the prohibition column in the election last November, but at that time Sweet Home went "wet." Owing to election contests both cities are now "dry."

Conference at Roseburg.
Roseburg.—The social welfare of Roseburg and community will be the subject of a conference on social service to be held in Roseburg on January 17, 18 and 19. The aim of the conference is to awaken the people of the community to its needs for social welfare and, if possible, to suggest plans for bettering these conditions.

DRAIN VALLEY IS PLAN
Plan is to Make Low Grass Lands Rich Agricultural Farms.
Corvallis.—Probably the most important piece of development ever undertaken in recent years in Oregon in Oregon has just started near Corvallis.

Land-owners occupying 40 square miles of bottom and prairie lands between Corvallis and Monroe have begun the formation of the first drainage district organized under state laws in the Willamette Valley. It is believed that successful demonstration of the beneficial results of drainage in the proposed district will bring about an era of progressive development by which fully one-fifth of the total arable area of the Willamette Valley, or 1,000,000 acres, will be so stimulated that crop products will be doubled in two years, that "white lands" will be eliminated and that the entire cost of the construction of the drainage system can be paid for, if necessary, in three years from increased farm profits.

No Men Needed at Umatilla.
Pendleton.—Residents of Umatilla and other towns in the west end of the county are aroused over the influx of laborers looking for work on West Umatilla project. Inasmuch as there will be no work for other than teamsters until spring, these towns are facing a problem of the unemployed.

Big Bridge Contract is Let.
Portland.—Contracts for the construction of an interstate bridge across the Columbia river at Vancouver, were let here by a commission composed of officials of Multnomah county, Oregon, and Clarke county, Washington. The bridge will unite the Oregon and Washington links in the Pacific highway.

Boy Smokers to Be Prosecuted.
Independence.—The school board of this city has posted notices to the effect that the law in regard to prohibiting the sale of tobacco to persons less than 18 years old, would be enforced strictly, that minors would be prosecuted if found using tobacco.

Hammond Has New Mayor.
Hammond.—For the first time in over 14 years Hammond has a new mayor, P. H. Kuhns. Mr. Ford, the retiring mayor, has held his position almost from the date on which the city was incorporated.

Water of Jordan Used.
The Dalles.—St. Paul's Episcopal Church witnessed an unusual variation of pretty service, when Bishop Robert L. Paddock, D. D., baptized two children with water from the River Jordan.

BRIEF NEWS OF OREGON

The ninth annual meeting of the Oregon Retail Hardware & Implement Dealers' association is to be held in Portland January 27 to 30.

Senator Chamberlain will ask the president to renominate Alex Sweek as Minister to Siam as soon as Mr. Wilson returns to Washington.

Investigations at Copperfield disclose the fact that youths were able to get liquor from local saloons, and that gambling was run wide open.

A. M. Crawford, now serving his twelfth year as Attorney-General of Oregon, has formally announced himself as a candidate for the republican nomination for governor.

Grant B. Dimick of Oregon City has announced formally that he will seek the republican nomination for governor of Oregon at the primary next May.

Marshfield and North Bend, which protested against the delay of the new dredge Michie at the Columbia bar, are promised it shall proceed to Coos Bay as soon as it is given a satisfactory working trial.

The organization committee of the federal reserve banking plan will meet in Portland in February to examine this district as a possible point in which to establish a regional reserve bank.

Salmon packers have protested to Senator Chamberlain against a provision in the bill introduced by Representative Lafferty requiring labels on canned salmon to show the date of packing.

Governor West has been notified by the department of the interior that his suggestion that the state and federal government buy and complete the North Canal project of the Central Oregon Irrigation company, had been forwarded to the reclamation service.

One hundred and ten Indians on the Klamath reservation have signed and forwarded to the secretary of the interior a petition asking him to rescind the order closing Williamson and Sprague rivers to logging operations.

The Alaska Fishermen's association is urging the retention of the division of Alaska fisheries, practically abolished by the secretary of commerce in his estimates. The Portland chamber of commerce has telegraphed Senator Chamberlain to the same effect.

The Astoria National bank has been designated as a government depository. Funds of the war department for defraying expenses at the forts about the mouth of the Columbia will be deposited at the bank when the required bonds are filed.

The Albany commercial club has requested the Oregon delegation to drop all plans for the improvement of the Willamette river excepting the one establishing a three and a half foot channel between Oregon City and Corvallis.

That the farmers of the Pacific coast are annually spending \$5,000,000 unnecessarily for grain bags, and that the farmers of no other part of the United States are so foolish, was the statement made to the graingrowers of Umatilla county in convention at Pendleton.

Representative Hawley has taken up with the agricultural department the establishment of an animal quarantine station at Portland. If the matter receives favorable consideration, Mr. Hawley will ask congress for an appropriation to establish and maintain such a station.

Declaring that the evidence in the cases of Mrs. Effie Creswell and Stella Morgan, inmates of the state industrial school for girls, convicted in his court of attempting to poison the other inmates and attaches, warranted a thorough investigation, Circuit Judge Cleeton reconvened the grand jury and ordered it to make a thorough investigation of the institution.

For the protection of local merchants the state railroad commission has announced that the practice of certain traveling salesmen of delivering goods from trunks checked as baggage is not lawful. The decision was rendered at the request of Joseph Simon, of Portland, who desired a construction of the law and an order from the commission.

That the enfranchisement of women and the organization of the progressive party will be expensive to the state through the printing of election matter is the announcement made by Secretary Plimpton, of the printing board. He states that three and one-half tons of paper are necessary for tally sheets alone at the coming primary, whereas heretofore two and one-half tons had been sufficient.

The mines of Oregon made a somewhat unexpected large increase in gold yield for 1913, compared with 1912. The mine report of 1912 showed a production of \$770,041 (a material increase over 1911), but the preliminary estimate for 1913 made by Chas. G. Yale of the United States geological survey shows that the gold output nearly doubled in 1913, amounting to \$1,393,322, or \$623,281 more than in 1912. The mine output of silver in 1912 was 57,081 fine ounces, while the estimate for 1913 shows a yield of 118,949 ounces.

DEFEATED FEDERALS
CROSS BORDER LINE

Six Mexican Generals and 2,800 Soldiers Surrender to American Troops.

Presidio, Tex.—Twenty-eight hundred Mexican federal soldiers, six generals, 200,000 rounds of ammunition, two cannons, four large field pieces and 1500 civilian refugees are in the custody of the United States army border patrol as the result of the federal army's evacuation of Ojinga, Mexico, its flight to American territory and the occupation of the village by General Francisco Villa's rebels.

The distress of the refugees is appalling. Men, women, children, dogs and chickens and cattle are packed together in a space covering several acres. About them are scattered all the wreck and turmoil they brought in fleeing from the Ojinga battle.

From a military viewpoint the situation was regarded as being without precedent, since in time of peace the United States army has never had to surround, disarm, hold in custody and care for so large a body of aliens. Fewer than 500 cavalrymen handled the panic stricken mob of almost ten times their number.

"It was hopeless," said General Mercado. "Our men had left only 70 rounds of ammunition apiece and we could not have resisted a charge by the rebels. It would have been a massacre. I ordered the evacuation and flight to safety across the river on grounds of humanity."

WEST WON'T INTERFERE

Says Trouble Merely Squabble Between Mayor and Council.

The Dalles, Or.—Governor West's declaration that he will not come to The Dalles because the trouble here, he says, is merely a squabble between Mayor Anderson and the council, has caused excitement over the matter to die out, and now citizens are merely interested and much relieved.

Following the action of the councilmen in refusing to confirm any of the mayor's nine appointees for the office of chief of police, Anderson said he would bring in "outside help," meaning the state militia, and would issue a proclamation in an attempt to close all local saloons. He also threatened to arrest Ralph Gibbons if he appeared on the street as a police officer, the council having elected Gibbons over the mayor's head.

The mayor hasn't attempted to carry out his threats.

THAW IS DECLARED
SANE BY COMMISSION

Concord, N. H.—The release of Harry Kendall Thaw under bail would not be a public menace, according to the report of the commission appointed by Federal Judge Aldrich to inquire into the state of Thaw's mentality. The commissioners found that Thaw was not afflicted with any of the mental diseases from which he was held to be suffering at the time he killed Stanford White.

While the commissioners say they have reached "a definite and positive opinion as to the present mental condition of Thaw and his probable state of mind at the time of the homicide," they refrain from expressing this opinion, in view of their instructions from the court not to embarrass any subsequent litigation where the broad question of insanity might be involved.

The report will be considered by Judge Aldrich in connection with the petition of Thaw for admission to bail under habeas corpus proceedings.

African Colonies Under Martial Law

Pretoria.—Sixty thousand militia were called out because of the alarming spread of the railway strike and the Transvaal and Orange River Colonies were placed under martial law.

The strike has spread to every railway line in the Union of South Africa and the strikers are in an ugly mood.

Shanghai Editor Killed.

Shanghai.—Z. F. How, manager and director of the Commercial Press, was shot dead in the street. The assassin was arrested. How began his career as a small printer and built up the Commercial Press, which possesses the finest printing works in Asia.

Mitchel Declares War on Gangsters.

New York.—Mayor Mitchel declared war on the organized gangs of the city and caused emphatic orders to be given the police that these gangs of drug habitues, murders and thieves must be broken up.

Girls Starve But Won't Be Servants

Los Angeles.—Although they say they are starving and want work, nearly all of the girls and women registered at the municipal employment bureau turn down every offer of domestic service.

Sharp Retorts.

A man who was offering gratuitous information at a country fair was disparaging the show of cattle.

"Call these here prize cattle?" he scornfully said. "Why, they ain't nothing to what our folks raised. You may not think it, but my father raised the biggest calf of any man round our parts."

"I can very well believe it," observed a bystander, surveying him from head to foot.

It is not every one who enjoys a joke at his own expense. The judge who pointed with his cane and exclaimed, "There is a great rogue at the end of my cane," was intensely enraged when the man looked hard at him and asked coolly:

"At which end, your honor?"

A friend of Curran's was bragging of his attachment to the jury system and said:

"With trial by jury I have lived, and by the blessing of God with trial by jury I will die."

"Oh," said Curran in much amazement, "then you've made up your mind to be hanged, Dick?"—London Tit-Bits.

Carved by Nature.

A curious effect of the wear and tear to which the earth's crust is continually being subjected is shown in the Devil's slide in Utah and other peculiar formations all over the west. There exist on the South river, in the Wasatch mountains (a part of the Rockies), singularly capped pinnacles or slender pillars rising from 40 to 400 feet high and most of them crowned or capped by huge stones. These pillars are not the work of man, but are memorial monuments of huge hills from which they are cut out by the action of the air and water and the lone remains of many square miles of solid rocks which have been washed away to a depth of some 400 feet. The greater hardness of the surface has caused it to resist corrosion more than the underlying rock, thus leaving huge caps of stone perched high in the air on points of their columns. Here and there can be found a double column capped by a single stone, thus forming a natural bridge both unique and picturesque.—Health.

Chloride of Sodium.

In connection with the name salt a curious fact is to be noted. Salt was formerly regarded as a compound resulting from the union of hydrochloric (or, as it used to be called, muriatic) acid and soda, and hence the generic term of salt was applied to all substances produced by the combination of a base with an acid. Sir Humphry Davy, however, showed that during their action on each other both the acid and the alkali underwent decomposition and that, while water is formed by the union of the oxygen of the alkali and the hydrogen of the acid, the sodium of the former combines with the chlorine of the latter to form chloride of sodium, and this term is the scientific designation of salt, which, paradoxical as it may seem, is not a salt. At one time nearly the whole of the salt used as food and for industrial purposes was obtained from the sea, and in many countries where the climate is dry and warm and which have a convenient seaboard a great quantity of salt is still obtained.

The Political Cabinet.

George I. is said to have been responsible for the word "cabinet" as it has long applied to politics in the United States. When he was king he could not take part in the deliberations of his own privy council because he knew no English. British statesmen did not speak German. So the ministers who served this first of the Hanoverian sovereigns of Great Britain used to meet in the king's private room or cabinet—derived from the French cabinet or little room—while he was absent. Afterward they informed him of the result of their discussions. It followed naturally that the part of the privy council which was supposed to be in particular favor with the king and especially close to him came to be spoken of as his cabinet council.

Handmade Ragtime.

"Of course," said the salesman, "anything handmade is sure to be superior to what is made by machinery."
"Not always," answered the musical person. "If you start up a music box it generally plays something in the way of a standard composition. But when anybody sits down at the piano and turns out something by hand the chances are that it will be ragtime."—Washington Star.

Slight Omission.

"I thought you said he was a man of means?"
"Excuse me. I left off the adjective."
"What adjective?"
"Limited."—Birmingham Age-Herald.

A Great Art in Little.

"Is there really any art in conversing?"
"Of course; always say small things in a big way and big things in a small way."—Minneapolis Journal.

Closed Door.

Hans von Buelow, the pianist, at one time posted on his door a notice that was quite in the London vein: "Before Noon. Not Receiving; Afternoon, Out."

Plenty of Room at the Top.

Knecker—There's plenty of room at the top. Bocker—Yes, but your wife lets you have only the bottom bureau drawer.—New York Sun.

A little in one's own pocket is better than much in another man's purse.—Cervantes.

Best Cough Medicine for Children

"I am very glad to say a few words in praise of Chamberlain's Cough Remedy," writes Mrs. Lida Dewey, Milwaukee, Wis. "I have used it for years both for my children and myself and it never fails to relieve and cure a cough or cold. No family with children should be without it as it gives almost immediate relief in cases of croup." Chamberlain's Cough Remedy is pleasant and safe to take, which is of great importance when a medicine must be given to young children. For sale by Benson's Pharmacy.

A Difference in Working Hours

A man's working day is 8 hours. His body organs must work perfectly 24 hours to keep him fit for 8 hours work. Weak, sore, inactive kidneys can not do it. They must be sound and healthily active all the time. Foley Kidney Pills will make them so. You cannot take them into your system without good results following. For sale by all dealers everywhere.

Constipation, if Neglected, Causes Serious Illness

Constipation, if neglected, leads to almost innumerable complications affecting the general health.

Many cases of typhoid fever, appendicitis and other severe diseases are traceable to prolonged clogging of the bowels. Regarding the effects of constipation, C. E. Ayers, 6 Sabin St., Montpelier, Vt., says: "I was afflicted with constipation and biliousness for years, and at times became so bad I would become unconscious. I have been found in that condition many times. Physicians did not seem to be able to do me any good. I would become weak and for days at a time could do no work. Not long ago I got a box of Dr. Miles' Laxative Tablets, and after using them found I had never tried anything that acted in such a mild and effective manner. I believe I have at last found the remedy that suits my case."

Thousands of people are sufferers from habitual constipation and while possibly realizing something of the danger of this condition, yet neglect too long to employ proper curative measures until serious illness often results. The advice of all physicians is, "keep your bowels clean," and it's good advice.

Dr. Miles' Laxative Tablets are sold by all druggists, at 25 cents a box containing 25 doses. If not found satisfactory, your money is returned.

MILES MEDICAL CO., Elkhart, Ind.
