CANTATA IS PRODUCTION OF MAGNITUDE

The cantata, The Seasons, given by local talent at The Arcade last night, was a musical production of considerable magnitude, there being sixty voices. The manner in which the production was presented showed careful, able and painstaking instruction and persistent training. The costuming to represent the four seasons was unique and pleasing. Leaves falling from above during the depiction of fall and falling snow flakes for winter, added a pleasing touch of reality. Possibly the most pleasing numbers were given by the male quartet. The orchestra music, under the direction of Prof. Merle Seovell, was the subject of much favorable comment. The cantata was directed by Rev. H. N. Aldrich. The show house was well filled.
