FROM CREDIT TO CASH

The survival value of a retail credit store is problematical. Carrying accounts amounting from \$10,000 to \$20,000 is too heavy a load on the cash buyer. We will by following our present system of paying cash for all our goods and requiring the customer to also pay cash, saves our friends and customers at least 10 percent and probably more. On and after April 1, 1914, we will accept no more credit accounts. Produce will be taken at full value in exchange for merchandise.
