The Most Reliable PEOPLE

It is a recognized fact in the business world that the most reliable people are those who own their own homes. They are the ones who can be depended upon—they are the backbone of the Nation. If it is credit at a store, the merchant has more confidence in the man who owns his own home than in the renter who can pack up and pull out at a moment's notice. If it is a loan, the man who has shown habits of industry and thrift, as exemplified in the ownership of his own home, is the man who is given preference. He is the man who is considered a good risk for a non-collateral loan.

NEWS FROM OUR NATIONAL CAPITAL

President Insists on Passing Anti-Trust Legislation at Present Session.

Washington.—President Wilson will be satisfied with nothing less than the passage through both houses of congress, at the present session, of the anti-trust legislation recently agreed on. This was made clear by officials close to the administration. His attitude was made known in answer to suggestions that some leaders at the capital believed it would be sufficient to pass the anti-trust bills in the house and only agree on a time for a vote next session in the senate.

The house of representatives, in an effort to rush through the second of the administration's anti-trust measures, began night sessions this week and the senate is also endeavoring to speed up legislation to insure an adjournment in July.

Congress leaders admitted however, that if the senate undertook to put through anti-trust legislation of a comprehensive nature adjournment could hardly be taken until late in the fall.

Took Indictment to Save Morgan.

A dramatic climax marked the close of the sensational testimony of Chas. S. Mellen, ex-president of the New York, New Haven & Hartford railroad, before the interstate commerce commission.

With evidence of deep emotion Mr. Mellen asserted the late J. Pierpont Morgan was cognizant of the Grand Trunk negotiations for which Mr. Mellen himself was criminally indicted for violation of the Sherman anti-trust act, and that he took the indictment that belonged to Morgan, as he believed it would have killed the aged financier to be indicted.

Absolute monopoly of transportation under government regulation and control was suggested by Mr. Mellen as the solution of the American railroad problem.

Majority of 10 for Repeal Predicted.

Democratic leaders in the senate are confident the Panama canal tolls exemption repeal bill and the arbitration amendments will be disposed of this week. Senator Kern, leader of the majority, said a vote would be taken May 28 or shortly afterward; and added that the repeal bill would be passed by a majority of at least 10.

Opponents of repeal are not inclined to doubt that the bill will pass, but the vote on the many amendments offered to modify its meaning will be watched with interest by senators on both sides. The administration is said to center its support on the amendment proposed by Senator Simmons, declaring that the United States waives no right over the Panama canal.

Parcel Post for Selling Truck.

Postmaster Otto Praeger, of Washington, has sent out to the patrons of the Washington office an advertising poster, containing the names of 150 truck farmers, fruit and poultry growers, home fruit and vegetable canners, and producers of smoked hams and bacon, who desire to serve Washington consumers direct by the parcel post.

On the reverse of the poster are illustrations of a parcel post delivery truck and of a basket, in which a Washington consumer has received a sausage from a Pennsylvania farmer during the past winter, together with testimonials from 14 patrons of the Washington office recommending the parcel post for efficiency and economy in the shipment of produce.

Producers from 12 states, including New Jersey and Mississippi, offer to sell their product direct to Washington consumers.

National Capital Brevities.

The senate adopted an amendment to the agricultural appropriation bill proposed by Senator Johnson, appropriating \$100,000 for potato quarantine inspection.

Creation of an aviation section of the army as part of the signal corps, is planned by a bill that has passed the house. The measure has the approval of the war department.

Copy of the proposed peace treaty between the United States and Norway has been received at Washington. Secretary Bryan and the minister of Norway will sign it when the draft has been made.

A bill putting telephone and telegraph companies and pipelines under the jurisdiction of the interstate commerce commission was introduced in the house by Representative Reilly, of Wisconsin.

President Wilson appointed a committee to arrange for the formal opening of the Panama canal June 1. Its members are Colonel Goethals, chairman; Richard Metcalf, vice chairman; Colonel Harry Hodges, Surgeon General Gorgas, Colonel Rousseau and Colonel William Sibert.

JOSEPH W. FOLK

Joseph W. Folk, counsel of the interstate commerce commission, who is probing the financial affairs of the New Haven railroad.

MEDIATORS EXPECT CRISIS THIS WEEK

Establishment of a Junta for Mexico Said to be Under Consideration.

Niagara Falls, Ont.—In the hope of seeing a provisional government that the United States can recognize established in Mexico before the rebels seize the city, the Pan-American mediators are preparing for the crisis in their deliberations.

Should the Huerta government collapse as the rebel army approaches, it is realized that a condition of chaos and anarchy would result. The Mexican delegates believe a government set up by the rebels cannot last long if unrecognized by the United States and world powers. They declare a new revolution would be inevitable.

Should Carranza still be in the field when an agreement is reached here, it is the opinion of the mediators that the influence of the United States may be relied on to bring the constitutionalists to terms. The establishment of a junta is considered, it is said.

The mediators disclaim any intention of dictating the choice of a provisional president. Suggestions will be made by the Mexican delegates, but the final choice will be left to the United States.

The urgent demand from the Americans that a plan for the settlement of the land question be incorporated in the settlement here is not acceptable to either the mediators or the Mexican delegates, it is said. If it is insisted on, it will likely disrupt the mediation. A serious effort is being made to modify the scope of the negotiations so as to render the land problem less exigent.

CONFIRM BALKAN CRUELITIES

Atrocities Called Unparalleled by Carnegie Peace Commission.

New York.—Results of an exhaustive investigation into the conditions in the Balkans during and following the wars of 1912 and 1913 were made public by the Balkan commission of inquiry of the Carnegie Endowment for International Peace.

In this indictment brought by the commission against all the contending forces, no one of the Balkan nations is spared. Atrocities committed upon the non-combatant Moslems in Macedonia surpassed in many instances the crimes committed by the race from which the Christian nations were supposed to have received their education in the refinements of cruelty.

The barbarous acts and inhuman reprisals performed by Bulgarians, Servians and Greeks against each other would be incredible if they were not supported by unquestionable evidence.

"Dry" Orator Says He Knows Captors.

St. Louis.—Rev. Louis R. Patmont, the prohibitionist advocate who said he was kidnapped from Westville, Ill., on March 31, and found in an abandoned house near Columbia, Ill., Saturday, asserted here he knew the ones responsible for his detention. He left for Danville, Ill., where the grand jury now in session will take up the investigation of his story.

IDAHO GUARD HALTS ATTEMPTED OUTBREAK

Boise, Idaho.—One prisoner is dead and two wounded as a result of an attempted wholesale delivery at the Idaho state penitentiary Saturday. U. G. Bereup, serving a life sentence for murder, committed at Pocatello, died two hours after the attempt was made. C. A. Allers, a prisoner from Shoshone county, serving an indeterminate sentence for forgery, will lose an arm, which was shattered by a bullet from one of the guns of the prison guards. Lyman Jones, serving a sentence of from 10 to 40 years for murder in Fremont county, was slightly wounded.

The break for liberty was made while half of the guards on the prison wall were at lunch. The prisoners put up a bench to the wall where No. 2 guard usually stood, but which was unprotected. The men were able to make the top of the wall.

They were seen as they were scaling down the outside of the wall and before they had proceeded many feet away they were shot by guards. The convicts were taken back to the prison and physicians summoned.

Retreating Army Doubly Harassed.

Tampico.—Brought to a halt in his march to the south, General Morelos Zaragoza, the defeated federal commander of the Tampico garrison, will have to face in battle once more the constitutionalists who drove him out of this place or enter the wilderness of mountains in the Huasteca district to the west.
