CADE OF PORT ORDERED BY HUERTA

Two Gunboats to Tampico to Head off Munitions for Mexican Rebels.

Washington.—A new crisis in the situation was brought about yesterday when Huerta ordered gunboats to blockade the port of Tampico to prevent a cargo of munitions from New York, flying the flag of the United States, from reaching there. Huerta notified the power that he intended to blockade the port and that he proposed to seize the gunboats consigned to the belligerents against his sovereignty as consequence of war.

The purpose of the United States was to prevent the attempt to blockade the port of Tampico, which would be an interference with the American interest indicated when Secretary of State Lansing issued an official statement that while no new orders were given Admiral Badger, there was no change in the policy of the United States in reference to the port of Tampico shall be to all commerce.

An attempt to carry out the blockade decree will be made by Admiral Badger in a gunboat to the navy department from the United States. He advised that the Mexican gunboats Zaragoza and Bravo, which left Puerto Mexico had passed the mouth of the Gulf of Mexico and were steaming toward Tampico.

Orders Blockade of Tampico. The foreign office in London is taking steps to the legations notifying the port of Tampico had been blocked by order of President Huerta. The United States government was also notified through the minister at Washington.

PRESIDENT BELITTLES HASTY WAR SPIRIT

Baltimore, Md.—President Wilson expressed special interest in closing his eyes to the naval academy graduation class by his declaration that the young men of the navy should be fighting for the public welfare, not merely on the drop of a hat or some slight punctilio. "In the flag incident" at Vera Cruz and its subsequent disappearance from the discussion of Mexican affairs, this reference to punctilio as a short of being a casus belli was met with smiles and knowing glances.

The president also told the young men that the boys down at Vera Cruz would leave as their most lasting impression on the people of the world the fact of their self-control, the way they fought.

A great crowd of 5000 persons, of whom many were cadets and relatives and friends of the graduates, filled the stadium.

What Wifey Does!

This is an extremely important matter to any married man.

To have her always gentle and docile is a very desirable characteristic to develop, but not as impossible as it sounds.

A woman with a home of her own takes more pride in it than in a rented house and consequently keeps herself much busier in keeping it shipshape. This does not give her as much time to get cross and cranky. With a home of her own she has plenty to make her happy and contented even if hubby doesn't perform just to suit her.

But no matter how good hubby may be he can not expect wifey to be perfectly happy in a home that she may have to move out of most any day, and that makes hubby's job in keeping her good-natured just that much harder.

The moral is plain: Buy a lot in Milapoo Park and build a home while lumber is the cheapest that it will ever be.
