## THE HAPPIEST MOMENT IN A WOMAN'S LIFE

The happiest moment in a woman's life, is not, as most men think, when she is led to the bridal altar. No, sir! The happiest moment by far, in a woman's life, is when the man, whom she allowed to lead her to the bridal altar, and who has helped him in saving a nestegg, provides her a home of her very, very own—a home which she can make cozy and comfortable with the thought that the comforts provided will be a source of joy for years to come.

There is an easy way to bring this supreme joy to a woman—that is to get a lot in Manitou Park, Cottage Grove's restricted residence district, and put up a cozy little home while material and labor are as cheap as they will ever be.

## MANY MEASURES FOR VOTERS OF OREGON

Taxation Proposals Are Held to Be of Far-Reaching Importance to the State.

Salem.—That the electorate of the state will have nearly the same number of proposed bills and constitutional amendments to wrestle with at the November election as it had at the last general election is indicated by the number referred by the last general assembly and those filed with the secretary of state for approval as to form. The general assembly referred eight amendments and three bills and 16 other amendments and 19 measures to be initiated have been filed with the secretary of state.

Nearly all measures suggested, discussed and "rumored" have been filed and, July 2 being the last day for filing completed petitions, it is not likely there will be many more.

The measures probably of the most far-reaching importance to be determined at the coming election relate to taxation. The \$1500 tax exemption constitutional amendment is certain to go on the ballot, for the petitions for it have been completed.

This measure provides that every person be exempt from tax on \$1500 of the total assessed value of his dwelling, household furniture, livestock, machinery, orchard, vines, bushes, shrubs, nursery stock, merchandise, buildings and other improvements, in and under his lands made by clearing, ditching and draining.

A constitutional amendment creating the office of lieutenant-governor is referred by the legislative assembly.

Officers of the State Grange, State Federation of Labor, People's Power League, Farmers' Union, Farmers' Society of Equity and the Proportional Representation Bureau have filed a constitutional amendment to abolish the state senate. The amendment is in all respects self-executing and if approved shall be immediately operative.

With all the agitation for abolition of state boards and commissions, only three measures have been filed looking to this end.

Jonathan Bourne, Jr., ex-United States senator, offers a measure to "prohibit the giving or promising of any valuable consideration to induce another to circulate or secure signatures to any petition for the initiative, referendum or recall, or for placing any name on any official ballot, and to provide penalties for violation thereof."

The Socialist party of Oregon has a constitutional amendment which would establish a department of industry and public works to be under the control of the state labor commissioner. Its function would be to establish industries, systems of transportation, distributing stations and public works for the employment of unemployed persons and for the sale and distribution of their products.

The money for operating the department would be derived from a tax upon the estates of dead persons appraised at \$50,000 or more and from appropriations that may be made for the purpose. The tax on estates shall not be less than 10 per cent and may be graduated above that percentage by law.

### Typhoid Germs For Militia

Eugene.—Six tubes of typhoid germs, prepared for inoculation purposes, have been received by Colonel Creed Hammond of the Oregon Coast artillery corps for use among the members of the two militia companies in Eugene. The men will be treated in small groups after working hours.

### Dry Flour Saves His Life

Pendleton.—His life saved by the prompt application of dry flour to an ugly cut in his throat, William Frazier, a farmhand, is in a Heppner hospital recovering from the effects of an automobile accident which happened on the Sand Hollow road between this city and Heppner.

Mrs. Potts' Body Sought By Ghouls. Canyon City.—While attempting to steal the body of Mrs. Charles E. Potts from the local cemetery, four men, three of whom are associated with the defense of Potts, now on trial for the murder of his wife, were arrested.

### Shifting Wind Saves Town

Randon.—Three blocks in the heart of the business section were destroyed by fire here. A shifting wind was all that saved the entire town from destruction. The loss is estimated at \$300,000.

### Peach Crop Is Promising

Cottage Grove.—The peach crop in this section promises to be unusually large this season. While this crop is usually the most susceptible to frosts, and there were several late frosts this year that caused some injury to cherries and berries, peaches seem to have escaped entirely.

Grants Pass is making headway on its new municipal railroad, several carloads of steel and rails having been received for use in the work. First ten miles will be completed this week.

The Rogue River valley creamery is planning to buy a carload of cows for us by the farmers on easy terms. The creamery has a surplus fund for the purpose on hand.

The interstate commerce commission has ordered hearings in the Oregon strawberry express rate matter in Spokane July 30, before Commissioner Hall.

At the meeting of the Oregon Exposition Commissioners it was definitely decided that \$10,000 be appropriated as awards for Oregon livestock at the Panama-Pacific Exposition. On the completion of the budget, it is hoped to raise this sum to \$15,000.

In the debate over mileage, Senator Lane advocated the allowance to members of congress of actual expenses instead of 20 cents a mile. The present system, he said, amounts to an indirect increase of salary, and the people look upon it as "Backsheesh."

Initiative petitions have been placed in circulation in Hood River county to reduce the salaries of county officials in the aggregate sum of \$1400. All officials except the treasurer are affected by the proposed schedule. County judge is reduced to \$800.

With a view to determining the value of the salt beds of Summer and Albert lakes, in order that the state land board or legislature may intelligently dispose of them, Governor West has asked the director of the Oregon Bureau of Mines and Geology to make an examination of them.

An ordinance declaring it a nuisance to solicit orders for intoxicating liquors in Springfield, and providing a penalty of from \$25 to \$100 for the first offense and of \$200 for subsequent offenses has been passed unanimously by the town council.

The Albany Retail Merchants' association are considering reorganizing into a county association, which will probably be known as the Linn County Credit association. The purpose of the association will be for better cooperation among the merchants, the establishment of certain rules governing the credit business and for the adoption of a credit rating guide.

Lane county will lose at least \$160,000 and possibly more tax money in two years on account of a ruling just made by Attorney General A. M. Crawford. He has sent an opinion to B. F. Keeney, assessor of this county, that the Oregon & California grant lands cannot be listed for assessment until the suit to revert the land to the government is settled in the United States supreme court.

The quartermaster general of the army informs Senator Chamberlain that in accordance with his request, instructions have been issued to the quartermasters at San Francisco and Seattle to invite Oregon lumbermen to bid on all lumber required by the war department on the Pacific coast. Senator Chamberlain expects similar action by other departments of the government.

After success at Coquille in obtaining the sanction of the city council for closing saloons, the anti-saloon faction has planned to start a quick petition campaign at Marshfield and hopes to have the city closed before July 4. Women are making a house-to-house canvass for signatures to petitions, which they will later present to the council. No effort has been made as yet to circumvent the movement, the wet element relying on the state law.

Judges Henry L. Benson and Chas. L. McNary appeared before the state canvassing board and requested the board to ask for a recheck of the tally sheets in all the counties of the state, so far as their votes for fourth place on the republican ticket for supreme judge are concerned. Thus a contest was avoided and the exciting race between these two candidates is not yet at an end. As the figures now stand McNary is credited with a lead of 12 votes. The vote for all the other candidates was officially canvassed by the secretary of state in the presence of the governor and state treasurer.

## BUTTE RIOTERS FOR TIME CONTROL CITY

Attempt Is Made to Lynch Two Special Deputies and Intimidate Newspapers.

Butte, Mont.—An attempt to lynch two special deputy sheriffs, efforts to throttle the newspapers, intimidation of the fire department of the city and general rioting featured the Sunday disturbance brought about by the schism in the Miners' Union, which became wide Saturday during the celebration of the organization's 34th anniversary, and was capped by the dynamiting of the homes of two officials of the union.

Early in the afternoon a crowd took two prisoners from the jail; later took possession of an aerial fire truck, which was moved through the street by the city authorities in an effort to disperse the crowds, and threats to lynch Special Deputies Owen Cribben and Martin Harkins, failed to materialize only when police, with drawn guns, rescued the two men and backed down an alley with them.

A delegation visited the three newspaper offices and demanded that no further mention be made derogatory to the I. W. W. and that the words "mob" and "rioters" not appear in any newspaper story.

The riots were caused by long-standing ill-feeling between the regulars of the 9000 members of the Western Federation of Miners here and the insurgents, mostly members of the I. W. W. The members with sentiments in favor of the I. W. W. objected to heavy assessments levied against them by the Western Federation of Miners international officers and local officials as strike benefits for the Michigan copper mine strikers.

## COURT UPHOLDS SUFFRAGE

Illinois Act Permitting Women to Vote is Held Valid.

Springfield, Ill.—Illinois women suffrage act, which permitted women in this state to vote for offices created by statute and on propositions presented to the electorate, was declared valid in a decision by the state supreme court.

State and other officers named in the Illinois constitution were excepted from the act, which, however, left the women free to vote for municipal officers and for township officials. Under the act women in every part of the state participated in the spring elections and in the township and municipal local option elections were instrumental in voting out of existence approximately 1000 saloons.

### Lung Hypnosis Is Broken

Gary, Ind.—Arthur Tracey, the 18-year-old boy put into a trance and left so for more than 36 hours because the hypnotist had been arrested on complaint of club-women, was awakened after the club-women had withdrawn the charge against the hypnotist and promised not to prosecute.

## ORDER RESTORED IN ITALY BY SOLDIERS

Rome.—With the occupation of the disaffected provinces by the military forces, order is rapidly being restored and it is expected that within a day or two the district of Romagna, comprising the provinces of Bologna, Ferrara, Ravenna and Forli will have resumed normal conditions.

The strike has come to an end and the strike of the railway men, which included only a small number of the employees, has been called off, with the result that the workmen are returning to their tasks. Railroad, telegraph and telephone lines are hurriedly being repaired.

An outstanding feature in the general strike situation was the proclamation of an Italian republic by the people of several towns bordering on the Adriatic, in northeastern Italy.

In some towns like Fabriano and Rimini scenes similar to those of the French revolution were enacted. The inhabitants, misled by reports issued from the headquarters of the anarchistic committee at Ancona, an important seaport on the Adriatic, to the effect that a revolutionary movement had been successful in overthrowing the monarchy, proclaimed a republic and substituted for the national flag the black banner of the Peasants' League.

### Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; else cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness caused by Catarrh that cannot be cured by Hall's Catarrh Cure. Send for circulars free.
