## THE HAPPIEST MOMENT IN A WOMAN'S LIFE

The happiest moment in a woman's life, is not, as most men think, when she is led to the bridal altar. No, sir! The happiest moment by far, in a woman's life, is when the man, whom she allowed to lead her to the bridal altar, and who has helped him in saving a nestegg, provides her a home of her very, very own—a home which she can make cozy and comfortable with the thought that the comforts provided will be a source of joy for years to come.

There is an easy way to bring this supreme joy to a woman—that is to get a lot in Manitou Park, Cottage Grove's restricted residence district, and put up a cozy little home while material and labor are as cheap as they will ever be.

## MEXICAN MEDIATORS PROPOSE NEW PLAN

### Separate Conferences Between Americans and Constitutionalists Suggested.

Niagara Falls, Ont.—The mediators proposed a new course of action which will not only prolong the proceedings, but eventually may work out a solution of the Mexican problem.

The plan contemplates separate conferences between the Americans and representatives of the constitutionalists. Justice Lamar and Frederick W. Lehmann would continue their dealings with the Huerta delegates through the mediation board. In this way all elements in the Mexican situation would be drawn together and there would be no necessity for the declaration of an armistice until some agreement was reached and approved by the rebels.

The plan was said to be a result of the visit of Minister Naon, of Argentina, to Washington, where President Wilson is understood to have emphasized the written statement of Justice Lamar that any agreement reached by the mediation board which was not approved by the constitutionalists would be "a paper agreement" and would not accomplish the sole purpose of the United States, the pacification of Mexico.

It was reported here that the Washington government already had extended an invitation to General Carranza to send his representatives to Niagara Falls, N. Y., to confer with the American delegates.

### General Chao Not Executed.

Torreón, Coahuila.—Rumor that General Angeles had been proclaimed provisional president by General Villa and General Chao had been executed was denied by General Villa. As soon as the representatives reached his headquarters General Villa said that he had heard nothing of General Angeles' dismissal from Carranza's cabinet, as reported at Saltillo.

### WAGE REDUCTION ADVISED

#### Shingle Manufacturers Plan to Meet Foreign Competition.

Seattle, Wash.—A meeting of shingle manufacturers of the state for the purpose of recommending ways and means to compete with British Columbia manufacturers, held here, resulted in the decision that the best way to meet the situation was to reduce the wage schedule. A report embodying this view was presented.

It is generally understood that a new schedule of wages among the shingle manufacturers of the state will be put into effect on July 1. The committee appointed at the meeting did not make such a recommendation, but put the question to the individual manufacturer to act as he thinks best.

## BUTTE MINERS FORM INDEPENDENT UNION

Butte, Mont.—Seceders from the Western Federation of Miners have launched an independent miners' union, rejecting peace overtures of President Moyer and associates and electing as temporary president M. McDonald.

There is little hope of compromising the two factions and with the issues sharply drawn an open breach is expected. Federation officials threaten to import miners to fulfill the contracts with the operating mining companies.

A mass meeting was attended by 5000 miners. The report of the executive committee, in whose hands had been left the drafting of the insurgents' policy, was adopted without change.

No official recognition was taken of the Western Federation. President Moyer had no representatives present to offer compromise and his apparent advances in asking for the resignation of all local miners' union officials did not win even consideration from the insurgents.

Unofficially it was declared that the seceders' reasons for not accepting advances from the federation officials was determined opposition to the national as well as local officers and a strong desire not to be affiliated with any national organization.

## NEWS FROM OUR NATIONAL CAPITAL

### River and Harbor Bill, Carrying Large Appropriations, Opposed in Senate.

Washington.—The river and harbor bill, carrying one of the largest appropriations in recent years, will meet determined opposition in the senate this week.

The bill on the face of it, as introduced by the senate committee on commerce, carries about \$53,000,000. Actually, however, the sum authorized will be much greater.

Examination of the bill shows that the "pork barrel" has been generously distributed to nearly every section of the country.

While opposition forces are massing their strength in the senate for an attack on the river and harbor bill, as the chief "pork barrel" measure of the year, a bill introduced in the house by Representative Rucker, of Missouri, strikes at the use of a "barrel" in national elections.

### Would Limit Campaign Expenditures.

The bill limiting the use of the "barrel" provides for the control of campaign contributions and expenditures.

It is a codification of the three existing federal laws with regards to campaign expenditures. It also contains several new sections.

The most significant of these is the one which provides that no "political committee" may use in any state a greater amount than the aggregate contributed by the citizens of that state. Representative Rucker's report expressly states that the bill provides that this is not to limit the use of money for publishing literature, for advertising, or for any other campaign method which appeals primarily to the judgment of voters, but it is designed to prevent the collecting of immense contributions from corporations and individuals in the financial centers of the country for use in various states. In a word, it is aimed at the national "barrel."

### House Seamen's Bill is Reported.

A substitute for the La Follette seamen's bill passed by the senate was favorably reported to the house.

The bill substantially adopts the requirements agreed on by the convention on safety of life at sea at London, last January, as to lifeboats on ocean vessels, and applies these in modified form to United States vessels in ocean voyages on routes not more than 20 nautical miles off shore and on the great lakes. It would require an ocean passenger steamer, at every moment of its voyage, to have aboard no more persons than there are accommodations in lifeboats and life rafts, at least 75 per cent of this equipment to be lifeboats. Cargo steamers would carry enough lifeboats for all aboard under existing regulations.

### Committee Amends Anti-Trust Bill.

The senate judiciary committee decided to eliminate from the house anti-trust bill words which lawyers say would legalize the blacklist.

The portions of the bill acceptable to organized labor were only slightly modified and their principal contention, for the limiting of injunctions in labor disputes, was agreed to practically as written in the house bill.

The committee struck out language which would have banned injunction against picketing and attendance near the homes or working places of any person "for the purpose of peacefully obtaining or communicating information."

In the section relating to contempt proceedings it struck out the house provision limiting the punishment to a \$1000 fine or six months' imprisonment. It was pointed out that in many instances contempt might be wilfully committed with the object of securing these comparatively mild punishments.

### National Capital Briefs.

Vote on the 20 year reclamation extension bill which has been presented to the house by committee, is expected this week.

Co-operative dairies, mutual fire insurance companies and like concerns must pay the income tax according to a ruling of the United States supreme court.
