

The Cottage Grove Sentinel

INCORPORATED WITH COTTAGE GROVE LEADER AUGUST 1, 1912.

Volume No. XXIV

COTTAGE GROVE, OREGON, WEDNESDAY, JULY 8, 1914

Number 41.

90 GALS. OF FRUIT PRODUCED BY ONE CHERRY TREE

Tree is Fifty Feet in Height, Fifty-Six Inches in Circumference, Twenty-one Years of Age and Has Appearance of Monster of Forest.

Twenty-three dollars and thirty-seven cents is the sum realized from one Royal Anne cherry tree this season by J. B. Lewis. The tree is in Mr. Lewis' yard but really belongs to Mrs. Ernest Oberg of Portland, Mr. Lewis' daughter, to whom Mr. Lewis gave the tree when he planted it twenty-one years ago.

The tree is 56 inches in circumference at the base and is about fifty feet in height. It is so large that it resembles a forest tree more than a fruit tree, and it took considerable agility to pick the cherries from the topmost boughs. It is probably the largest fruit tree in this vicinity. The yield this year was something over ninety gallons. Eighty-five gallons of the fruit was sold, one half of it at 30 cents a gallon and the other half at 25 cents. Several more gallons were consumed by the family.

When Mr. Lewis planted this tree he planted four others, and gave one to each of the children then at home. This one was given to Mrs. Oberg, then Antoinette Burdick, and was the only one to live.

PORTLAND LADS HIKING TO MOUNT LASSEN ON PLEASURE BENT

Will Visit Crater Lake Park and Shasta Springs as Part of Night-Seeing Trip.

With a great thirst for adventure and little else except a thirty-pound pack each, George E. Love and Fred L. Carlton of Portland, passed through this city last week on foot, en route to Mount Lassen. The young men made a number of friends during their stay in this city. They are not striving for time or distance records, but are making the trip merely for the pleasure that they find in the great outdoors and for the adventure the "broad highway" promises. They are sticking quite close to the Pacific Highway, but will leave it at Medford for a side trip to Crater Lake Park, and will then continue on to Shasta Springs through the mountains, thence to Mount Lassen. They expect to be gone from Portland about twelve weeks. The return journey will probably be made by boat from San Francisco.

C. G. WINS AND LOSES FROM LORANE TEAM

Scores of 18 to 6 and 22 to 20 Indicate Loose Playing on Both Sides.

Cottage Grove broke even with Lorane in the two games played Saturday and Sunday, winning the first game at Lorane by a score of 18 to 6 and losing the second on the home grounds 22 to 20. Hard hitting was the feature of the second game. The batteries for the first game were Walter Pitcher, Brumbaugh and Smith for Cottage Grove, Crowe and Davis for Lorane. For the second day the batteries were Brumbaugh, Atkinson and Smith for the local team and Davis and Davis for the visitors.

The Sentinel—a Live Wire.

Sentinel Will Try to Outwit Pursuing Hoodoo Just Once

Former Grove Lad Successful Athlete. Cecil Wooley, formerly of this city, brother of Mrs. George M. Scott, won the blue ribbon in five difficult swimming tests at the Eugene Y. M. C. A. Thursday. This is the second time that such a prize has been won in that tank. On this occasion the tests were so difficult that no one was successful in winning the second prize although three were awarded third prizes. The five tests completed by Wooley were: 30-yard swim in 17 4-5 seconds; 100 yards, 18 4-5 minutes; three dives, the life-saving event, which included going after a man in the far end of the tank and returning with him in 31 seconds. He also won the 30-yard under-water swim.

The road to success is paved with good advertisements. apr22-tf

Twins May Not Always Be Brother and Sister

She was a wee little tot with dimpled chin and chubby arms and under each arm was a wee little kitten, which, despite its diminutive proportions, seemed to be as large a load as the little arms could carry.

An interested passerby stopped to pat the little curly head and to pet the little felines.

"Pretty little kittens you have, my little girl. Are they twins?"

"No!" was the indignant reply, "they're brother and sister."

This happened on a Cottage Grove street a few days ago.

SIGNATURELESS AD. GETS RESULTS ANYWAY

An incident which shows the value of running an ad. every week in the same position in a newspaper, occurred last week, when The Sentinel unintentionally omitted the signature from the Metzan Shop's ad. Hardly had the paper been distributed in the postoffice before a woman inquired for some of the goods advertised. She had not noticed that the signature was not attached to the ad, and was surprised when her attention was called to the fact.

Several months ago The Sentinel placed in the position usually occupied by a certain store the ad. of another. A number of people called at the store which usually occupied the space for the goods advertised by the other store.

The moral is plain: Have a new ad. every week and place it where the reader looking for it expects to find it.

The men have a unique stunt in registering the towns they visit by getting the postmark of each on their khaki coats, and the signatures of the mayors on their Rose City pennants.

They sleep outdoors but depend upon getting their meals at the farmhouses along the way. They say that they have made many delightful and interesting acquaintances among the farmers who have entertained them thus far.

Lane Co. Teachers in Monmouth Parade.

Forty Lane County teachers who are taking the summer course at the Monmouth Normal school paraded in the Fourth of July parade Saturday. Although many of them are taking as many as five subjects they drilled every evening for a week and presented a most creditable and unique drill. They formed in two hollow squares and at the head of the first square was displayed a large banner on which were the words "Lane Co. T. A. N. O." (T. A. N. O. means, "There Are No Others.") At the head of the second was a banner on which were the words "Lane Leads—Seventy Standard Schools." A teacher in the center of each square held a long pole from which hung streamers held by each of those who marched.

The demonstration undoubtedly impressed upon the spectators the fact that the Lane County teachers are proud of their schools.

Mr. Lhevine Overlooked.

Several have called the attention of The Sentinel to the fact that in its story about the chauntanun, the name of Mr. Lhevine, a member of the Gray Concert Co., was omitted. Mr. Lhevine is an artist on the piano and added much to the high class entertainment furnished.

Amber Thirst Quencher Used to Extinguish Burning Auto

Republican Girl Outwits Democratic Postmaster.

Alice Weatherson, a 25-year-old Florence miss, not only outwitted Postmaster Buchanan of Florence but she went directly to President Wilson and Senator Chamberlain and asked them to oust a democrat from office in order that she might have the place. She got it.

The young lady returned to her home on the Lane county coast ten days ago carrying the appointment of postmistress, signed by the president and confirmed by the senate.

It is a bolt out of a clear sky to Mr. Buchanan and he reluctantly accepts defeat.

When Postmaster Kyle resigned nearly a year ago he recommended Miss Weatherson. Buchanan, a democrat, was appointed. Miss Weatherson, shortly afterward left, supposedly for a visit with an aunt in Massachusetts. Meanwhile, the office was raised from fourth to third class. Buchanan understood that he would remain as postmaster and filed the necessary bonds. He thought nothing more of it until his rival presented her appointment last week.

Miss Weatherson is a niece of Geo. O. Knowles of this city.

Oregon Cherries Make Hit.

Never before saw cherries of such mammoth proportions nor with such a delicious tang," writes Mrs. James Smith from Harris, Minn., who received a box of the fruit from her daughter, Mrs. Elbert Bede of this city. The cherries were of the Bing variety, nearly ripe when picked and reached their destination in good condition.

Former Cottage Grove Maiden Raises Flag on Famous Big Stick

Miss Lillian Veatch, the attractive young daughter of Mr. and Mrs. Samuel Veatch, formerly of this city, and granddaughter of Uncle Burn and Aunt Jane Veatch, had the honor of pulling the halyards which raised the immense American flag on the huge flag pole presented by Astoria to the Panama-Pacific Exposition at San Francisco. The firing of a national salute of 21 guns accompanied the ceremony, which took place July 4.

Miss Veatch at one time lived in Cottage Grove and although her home is now in San Francisco, she often visits here and gave her address as Cottage Grove to the Associated Press, which sent the news over the entire country mentioning this city as her home.

Miss Lillian Veatch, the attractive young daughter of Mr. and Mrs. Samuel Veatch, formerly of this city, and granddaughter of Uncle Burn and Aunt Jane Veatch, had the honor of pulling the halyards which raised the immense American flag on the huge flag pole presented by Astoria to the Panama-Pacific Exposition at San Francisco. The firing of a national salute of 21 guns accompanied the ceremony, which took place July 4.

GROVE CELEBRATES HOLIDAY WITH NEIGHBORS

Lorane Entertains Large Number of Citizens in Royal Manner—Large Number Go To Eugene and Many Organize Picnic Parties.

Although Cottage Grove was quiet in the extreme on the Fourth of July, its residents did not lack the opportunity to celebrate the nation's natal day. There were celebrations on every side—London, Lorane, Saginaw, Eugene, Currin Station and Blue Mountain drawing most heavily on the holiday crowds. The various communities which celebrated were most hospitable and gave their guests a rousing good time in every instance.

A large number accompanied the speakers and baseball team to Lorane, where there was a very pretentious celebration and a large number accompanied the band to Eugene.

In addition to the crowd seeking to express their joy over the country's independence in the usual rather strenuous manner, there were many others who organized individual picnic and automobile parties and sought out pleasant sylvan nooks in which the countryside abounds and enjoyed the day fishing and lounging about. Others still more lethargic stayed at home and conducted little private celebrations under their own vines and fig trees. It was a day upon which any taste could be satisfied, and the weather, contrary to the old tradition that "it always rains on the Fourth of July," was perfect—neither too hot nor too cold, and with plenty of bright sunshine.

Indiana Man Visits Cousin and May Settle Here.

J. L. Cunningham of Flora, Ind., spent yesterday with his cousin, J. L. Overholser. The men played together when children but had not seen one another for 44 years. Mr. Cunningham arrived Monday evening. Before leaving Mr. Cunningham said he was more than pleased that he had stopped off here and it is more than likely that this may become his future home.

A live wire newspaper—The Cottage Grove Sentinel.

There are some who claim that beer, when properly used, serves a good purpose in the world. Without entering into a discussion of prohibition and related topics, it may be stated without fear of contradiction that five bottles of the famous amber fluid served a good purpose for a party of automobilists on the Fourth.

The party was bound for the Lorane celebration and was making such a strenuous effort to be there on time that the friction set the machine afire.

No water was near at hand and the situation was getting serious when a quick-witted feminine member of the party thought of several bottles of beer taken along as part of the lunch. They were quickly opened and the contents applied to the flames. The last drop from the last of five bottles quenched the last spark and saved the machine.

Divide Downs London 34 to 0.

(Special to The Sentinel.) Comstock, Ore., July 4.—Divide took a well played game of base ball from London today by a score of 34 to 0. Owing to the excellent work of the Divide batteries only 32 men faced it, while 65 of the Divide players faced the London battery. The battery for London was Powell, Powell, Woodworth and Powell. For Divide, Stratford and Dugan. The baseball game was the main feature of the London celebration.

Truck Walks up Big Hill.

L. L. Harrell reports that he has been kept pretty busy this week smoking on those who said his Reo truck wouldn't take the steep Lorane hill with his Fourth of July load. He says the car never bucked a buck and walked right up the side of the mountain just as if that was an everyday occurrence.

Small Mill Firs.

A fire which broke out in the log chute at the Donahue & Dubois Mill at Star Thursday about noon is still burning slowly although it is thought to be about out. The damage that has been done is so small, however, as to be almost negligible.

Peaches Are Ripe.

J. J. Jones is one of the first to have ripe peaches this year. In proof of their deliciousness, he treated a number of his friends yesterday. He had hard work getting as far as The Sentinel office, but succeeded in arriving with a half dozen.

Grove Hen Lays Monster Egg

W. C. Billings claims to have the largest hen's egg ever produced in the Cottage Grove country. It measures 7 3/4 inches in circumference one way and 6 1/2 inches the other. It looks as if it might hatch an ostrich.

Lane Woman "Freighter."

Mrs. Charles Croner has the distinction of being the only woman "freighter" on the McKenzie river. She makes regular weekly trips over the 60 miles between Eugene and McKenzie bridge, hauling supplies for the summer resort, her load averaging 1600 pounds.

She is an expert horsewoman, and is accompanied on her trips by a dog as her sole companion. The trip takes two days each way.

Some of the most interesting reading in The Sentinel is in the ads.

Spray Wants Pay for Milk Unceremoniously Delivered

Can a person collect for goods delivered without an order having been given for same, without notice being given the person to whom delivery is made, especially when the person making the delivery hastens away so rapidly as to give the person receiving the goods no opportunity to refuse the same?

This question may have to be threshed out in court as the result of the runaway in which J. F. Spray, a black horse, a buggy and several quart bottles of milk were the principal characters. The horse became frightened while Mr. Spray was bringing some milk into the city Sunday evening. Although the animal became unmanageable, Mr. Spray succeeded in retaining his grasp on the lines and guided the runaway into the city, through the city and out of the city again. The mad flight continued uninterrupted the entire length

Oregon Furnishes Timber for Lipton's Challenger

Coquille Sentinel: It may not be generally known that the timber which went into Sir Thomas Lipton's sailing yacht, Shamrock IV, was cut in Coos County. The timber was cut about a year ago at the Lyons-Johnson mill down the river, and Virgil Wilson, son of V. B. Wilson, assisted in the handling and tallying of it.

CHURCH BALL GAME ENDS AMICABLY 9 TO 9

The game between the Methodists and Presbyterians failed to settle any theological questions. It did not even settle the question of which church has the best ball players, for the game was called at the end of the seventh inning on account of darkness with the score tied 9 to 9.

If sinners can slip through the gates of heaven as easily as the ball slipped through the infield upon numerous and divers occasions, no one need to worry about the hereafter, but if the devil hangs on as tight as some of the players did to their bases, some folks are going to have trouble in getting to glory land. Rev. Aldrich created considerable amusement as water carrier and slaked the thirst of the players with reckless disregard for creeds and denominations. The tie will be played off tonight.

FIRST RUN MADE BY COTTAGE GROVE CANNERY

Plant Now Accepting Produce of Every Kind That Is Susceptible to Canning.—Wild Berries Offer Opportunity to School Children.

The Cottage Grove Cannery made its first run yesterday. It was only a small one to test out the machinery, but the plant is now ready to handle any kind of produce that can be put up in cans. Manager Wallace says that nothing will be refused except produce that is in poor condition. It is important that care be taken in selecting stock. Produce that is dirty or has started to decay can not be accepted. Manager Wallace urges growers to bring in produce as rapidly as possible as it is the desire of the directors to keep the machinery and crew busy from now until the plant closes down this fall.

With the luscious wild blackberries already ripe and the Evergreen coming on in profusion there is a splendid opportunity for school children to lay up quite a nestegg during vacation. Berries will be accepted in any amount if they are in good condition.

Tenth Street Being Macadamized.

The work of macadamizing Tenth Street was begun last Wednesday and will be finished as quickly as possible. This is a heavily traveled street and the need for the improvement now being made has been keenly felt for a long time.

CHURCH MEMBERS READY FOR SECOND DIAMOND CONTEST TONIGHT

Preparations are complete for the ball game tonight between the Methodists and Presbyterians. The game last week was a tie and both teams feel certain of victory this week. A battle royal is promised. The line-up as given out by Captains Smith and Mackin is as follows:

- | | |

BAD MAN SAYS HE LIKES SUPT. LAWSON FINE

Escaped Convict Vaughn was taken through this city Thursday morning after having been caught near Drain while trying to hide in the Calapooia River. The capture was made by Sheriff W. W. Gage of Coos County. Vaughn has a remarkable history as a criminal. He escaped from the Oregon penitentiary ten years ago, being shot at six times by guards at the time. Four years later he escaped from the Walls Walls institution and was on that occasion shot three times. He was at Myrtle Point last week as a witness in the recent bank robbery case there, but got to Drain and there escaped the officers by jumping out of a second story window at the Perkins Hotel. He is very anxious to find out how Sheriff Gage succeeded in finding where he was and capturing him. He was returned to the penitentiary Thursday.

When asked how he liked Supt. Lawson, Vaughn replied, "Fine!"

He has a wife and child living about 16 miles from Grants Pass.

Spray Wants Pay for Milk Unceremoniously Delivered

Can a person collect for goods delivered without an order having been given for same, without notice being given the person to whom delivery is made, especially when the person making the delivery hastens away so rapidly as to give the person receiving the goods no opportunity to refuse the same?

This question may have to be threshed out in court as the result of the runaway in which J. F. Spray, a black horse, a buggy and several quart bottles of milk were the principal characters. The horse became frightened while Mr. Spray was bringing some milk into the city Sunday evening. Although the animal became unmanageable, Mr. Spray succeeded in retaining his grasp on the lines and guided the runaway into the city, through the city and out of the city again. The mad flight continued uninterrupted the entire length

of Main Street, but at the cemetery corner the horse made a turn and the occupant was thrown out at the front entrance, rendered unconscious and badly bruised up. The horse was pretty well tired out and came to a stop a few hundred yards further on. The buggy was not damaged.

The injured man was taken to the home of his son, Eb., where he is recovering from his injuries, but has learned that as he made the turn in front of the home of Editor Bede, a case of milk was thrown from the rig and the broken glass later gathered up by the newspaperman to prevent injury to automobile tires. Spray says he has been paying for his paper year after year although he has never ordered it of the present publishers and he sees no reason why he can't collect for the milk delivered in the manner already related.
