## Society

William Warnke of Albany and Miss Elizabeth Maier of this city were married Sunday afternoon at the home of the bride's parents before a few intimate friends and relatives. The ceremony was performed by the minister of the Lutheran church of Albany. Miss Maier was charmingly gowned in a robe of white messaline with tulle veil. She was attended by her cousin, Miss Marie Reule. Peter Maier, brother of the bride, stood with Mr. Warnke. After the ceremony an elaborate wedding dinner was served. Mr. and Mrs. Warnke left yesterday for their home in Albany. Out-of-town guests were the parents and sister of the groom and the wife and family of the officiating clergyman.

Raymond A. Bates of Wendling and Miss Naomi Wilson of Dorena were married Sunday at the home of the bride's parents, Mr. and Mrs. F. R. Wilson, at Dorena. Rev. A. M. Williams performed the ceremony. The wedding march was played by the bride's sister, Miss Roberta Wilson. The bridal party took their places under an arch draped with white crepe. From the arch was suspended a floral wedding bell. The room was decorated in garden flowers. After the ceremony a wedding luncheon was served. The bride's cake was adorned with a dainty silver bell with which the bride summoned the guests to luncheon.

Mrs. Bates has been a resident of the Dorena country all her life. The groom is the nephew of Mr. and Mrs. W. A. Land and has been in this vicinity for about three years. His parents are residents of Noland, Ark.

Mr. and Mrs. Bates left Sunday evening for their home at Wendling, where Mr. Bates is employed by the Booth-Kelly Co.

The Busy Bee sewing club met yesterday afternoon with Misses Ireta and Fay Cooley and spent a busy and profitable hour. After the sewing was laid aside the girls played games and were served a delicious luncheon by Mrs. Cooley. About ten members of the club were present and additional guests were Mrs. W. G. Daskam and Mrs. V. D. White.

The birthday anniversaries of L. S. Hill and W. C. Johnson, both of which occurred Sunday, were celebrated by the friends and families of the two men with a picnic party. About twenty made up the party which motored out to the fork of Mosby Creek and Row River and spent the day. An excellent luncheon was served and the party had a delightful time. Those who went were: Mr. and Mrs. Johnson and

daughter Edna, Mr. and Mrs. Hill and daughter, Esther, C. A. Bartell, Mr. and Mrs. William Garoutte, Mr. and Mrs. Mark Garoutte, Mr. and Mrs. Wampole, Mrs. Wampole's two sisters, Miss Verdie Kelly, Earl Garoutte, Mr. and Mrs. Lew A. Cates and Mr. and Mrs. Walter Martin of Dallas.

Miss Katherine Kirkpatrick of Lebanon was the inspiration for a very very charming informal afternoon affair given last Wednesday by Miss Leah Perkins and Miss Myrtle Kem at the home of the latter. About ten young women gathered to meet Miss Kirkpatrick. The afternoon was spent in the cool woods at the rear of the Kem home.

Mr. and Mrs. J. W. Grant were pleasantly surprised by a party of about thirty friends Friday evening. The couple were taken to the city park, where a picnic supper was served. Afterwards various pranks were played upon the groom. He was once captured and taken to the city, where cigars were secured at his expense. Later he was given a wheelbarrow ride through the city, a cushion of blackberry briars having been provided for the occasion. The couple were presented with some beautiful pieces of cut glass.

### FADS AND FANCIES.

**By Harriette**  
Early fall millinery styles are showing charming little hats made up in tulle and velvet. Frequently these hats have uneven crowns of velvet with the entire brim made of pleated tulle with a band of the velvet about the edge. A single rose or butterfly is a favored trimming.

Capes have been very stylish for summer wear and promise to remain in favor until late in the winter.

The balmacan cut is undoubtedly one of the very best styles for coats this autumn. Many attractive models are being received by local stores and will be put on display in a short time.

Small, cunningly shaped hats of patent leather are much worn by smart dressers for automobiling. They are equally good for summer or winter which is another advantage.

Filet is a lace which is being taken up by an up-to-the-minute needleworker. It is a particularly handsome lace and can be used for a great variety of purposes, from insets for luncheon cloths, curtains, etc., or for milady's collar, cuffs, or blouse trimmings. All the shops are now teaching it. It is simple when one once gets the hang of

it and is quickly made. It is tied off a shuttle over a needle which determines the mesh size.

### Stewed Tomatoes.

Plunge the tomatoes into boiling water to loosen the skins, drain, peel, cut into small pieces, add small onion and cook over a moderate fire. A long slow cooking improves flavor. Just before removing from stove add butter and seasoning. They may be thickened with bread or cracker crumbs, or sweetened with sugar.

### Ginger Bread.

$\frac{1}{4}$  cup butter,  $\frac{1}{2}$  cup sugar, 1 egg (yolk and white not separated),  $\frac{1}{2}$  cup sour milk,  $1\frac{1}{4}$  cups flour, 2 teaspoonsfuls ginger, 1 teaspoonful cinnamon, salt, 1 teaspoonful soda. Bake in a moderate oven 30 to 40 minutes.

To steam mixtures, a mould or tightly covered tin can may be used, it should be thoroughly greased, and, if it has no cover a strong piece of brown paper may be tied over the top; this should also be greased. It should be put into a steamer over boiling water or on a rack in a kettle of boiling water.

### Brown Bread.

Four cups of rye meal, 2 cups of corn meal, 1 teaspoonful soda, 1 teaspoonful salt, 1 cup molasses, 4 cups of sour milk. Put into tightly covered moulds which have been greased. Cook over steam for six hours then dry in oven for a few minutes.

### Fruit Pudding.

$2\frac{1}{2}$  cups flour, 1 teaspoonful soda,  $\frac{1}{2}$  teaspoonful salt,  $\frac{1}{2}$  teaspoonful nutmeg,  $\frac{1}{2}$  teaspoonful cinnamon,  $\frac{1}{4}$  cup beef suet finely chopped, 1 cup molasses, 1 cup milk,  $\frac{1}{2}$  cup raisins,  $\frac{1}{2}$  cup currants. Pour into buttered mould and steam for three hours. If it is put into small moulds, steam for two hours.

### Hermits.

Two eggs,  $\frac{3}{4}$  cup sugar,  $\frac{1}{2}$  cup butter and lard,  $\frac{1}{4}$  cup thick sour milk or cream,  $1\frac{1}{4}$  cups flour,  $\frac{1}{2}$  cup raisins cut in pieces, 6 walnuts chopped. Beat eggs until light; add sugar and beat again, add melted butter and lard and then sour milk, flour, soda, spices, fruit and nuts. Drop from a teaspoon and bake in a moderately hot oven. Let mixture stand for a few minutes and it will stiffen. Have the mixture as soft as possible as the tenderness of the cookies depends upon that.

### Peach Roll.

Prepare a light, rich biscuit dough, using two cups of flour, 2 teaspoonfuls baking powder,  $\frac{1}{2}$  teaspoonful salt, 3 tablespoonfuls of butter and milk to mix. Pass the flour, salt and baking powder through a sifter and rub in the shortening lightly with the fingers, afterward moistening the whole with the milk. Roll out in an oblong sheet on a well floured board. Spread quickly with peeled sliced peaches, add sugar

to taste and roll up like jelly roll. Pinch and press the edges firmly together to keep in the juice. Brush over the top of the roll with softened butter and bake in a slow oven  $\frac{3}{4}$  of an hour. Serve with hard sauce to which may be added, if desired, 2 tablespoonfuls of peach pulp.

### Butter Scotch Pie.

One cup sour cream, 1 tablespoonful butter, 1 tablespoonful flour, yolks of two eggs, 1 cup brown sugar, 1 teaspoonful vanilla, a few grains of salt. Add flour to sugar. Add sugar and flour to slightly beaten yolks of eggs. Add vanilla, melted butter, salt and cream. Beat together, pour into crust and bake. Make a meringe of the two whites of eggs. Use silver knife for testing pie. This pie is very similar to custard pie and should be baked in the same way.

## CHURCH NEWS

[Every religious organization is invited to use this column for announcement of its services and other news. Contributors are requested to omit exhortations and other editorial matter, and to make the announcement of services as concise as possible. Social functions, etc., and news outside of the weekly announcement may be elaborated upon.]

Services at the Christian Science Hall every Sunday at 11, and Wednesday evening at 7:30. All are welcome.

**PRESBYTERIAN CHURCH.**  
Rev. D. A. MacLeod, Pastor.  
Services next Sunday: Bible school at 10; morning worship at 11; Junior Christian Endeavor at 3; evening worship at 8.  
Morning subject, "The New Range of Vision;" evening theme, "The Immortality of a Just Act."

**BAPTIST CHURCH.**  
A. M. Williams, Minister.  
Preaching services morning and evening second, fourth and fifth Sundays of each month. Bible study and prayer meeting every Thursday evening, present study, "Jesus Is Coming." Sunday school at 10.

**ST. MARY'S CHURCH.**  
Rev. John Bernards, Pastor.  
Services next Sunday as follows: Low mass at 8, high mass and sermon at 10:30, devotions and benediction at 7:30 in the evening.

**CHRISTIAN CHURCH.**  
J. W. Jenkins, supply pastor.  
Services: Bible School at 9:45; morning services at 11:00; evening services at 8:00; prayer meeting each Thursday at 8:00.

All not worshipping elsewhere cordially invited to attend.  
**FREE METHODIST.**  
Rhoda Burnett, Pastor.  
Preaching service the first and third Sundays of every month at 3 and 7:30. Prayer meeting every Wednesday at 7:30, and on second and fourth Sundays at 3.

**METHODIST EPISCOPAL.**  
Horace N. Aldrich, Pastor  
Services next Sunday as follows: Sunday School at 10; sermon at 11; Junior League at 3; Epworth League at 7; evening service at 8.  
Morning, Rev. R. S. Bishop of Creswell will preach. Evening illustrated service—subject: "The Flock and the Fold," introducing the twenty-third Psalm. The hymn, "The Ninety and Nine" will be illustrated with ten slides.  
Epworth League services will be under the direction of Miss Hazel Hazelton.

**Easy Mental Cube Root Rule.**  
Can you, without pencil or paper, do a little problem in cube root; that is, can you treat it as mental arithmetic? It is very easy. Forget all the rules in arithmetic books and use this method by an English mathematician:  
First of all, it is essential to memorize the cubes of the numbers from 1 to 9. The cube of 1 is 1, of 2 is 8, of 3 is 27, of 4 is 64, of 5 is 125, of 6 is 216, of 7 is 343, of 8 is 512, of 9 is 729. Observe that the cubes of 1, 4, 5, 6 and 9 end with 1, 4, 5, 6 and 9; that the cube of 2 ends in 8, that of 3 in 2, that of 3 in 7 and that of 7 in 3. When you have a number of which you must extract the cube root look first at the thousands. For example, take the number 185,193. The thousands are 185. The cube of 5 is 125; of 6, 216; therefore it is obvious that the number you want is between 50 and 60. Ignore all the other figures except the last. This being a 3 you know that your figure is 7. So the answer is 57.

Take again the number 12,167. In the top line the thousands are 12. The cube of 2 is 8; of 3, 27. Therefore the first figure must be 2. Again skipping to the last figure, a 7, you know you want a 3, giving 23 as the cube root of 12,167. In the same way a moment's thought will give you 25 as the cube root of 15,625. And the answer is 23-25. It is probably by this method that many of the phenomenal "lightning calculator's" work.

## CANNERY ASKS FOR EVERY KIND OF PRODUCE

Many Varieties of Produce Which Cannery Is Anxious to Go to Waste.—Growers Do Not Thoroughly Understand Method of Buying.

(Continued from first page)  
of revenue the cannery has so far had its payments on the stock subscribed. The only way that the cannery could get money with which to buy produce would be from the stockholders. Under this system the growers would have, at the beginning of the season, paid in the money with which to buy the produce and would have then brought in their produce and got their own money back. In that way the cannery would have had the growers' money in the bank lying idle until the produce was brought in for which to spend it. By this method the stockholders would have also had to put up the money to buy the produce of non-stockholders who had done nothing to help get the cannery. By the method of handling produce on a commission basis only, the grower simply puts up his produce instead of the cash, with the further advantage that when he gets his money he gets all that is secured from the sale of his produce after five per cent is deducted for operating expenses. Ten per cent is charged non-stockholders. If cash were paid for produce when it was brought in, the cannery would have to pay a price low enough to insure no danger of loss from a decline in the market. By the commission method the grower gets the profits. By the cash method the concern that puts up the cash would get the profits.

## War Makes High Cost of Living Very Much Higher Still

Nearly everything you can mention is higher in price and still rising on account of the war in Europe. Cottage Grove people feel the pressure of war prices in numerous ways. Drugs of all kinds are soaring in price, some items having increased 400 per cent. In the main, however, drug prices range chiefly from 10 to 50 per cent higher.

Sugar has reached a breath-taking figure, \$8.05 being the price quoted yesterday. The three principal reasons given for the heavy increase in this commodity are heavy foreign demand, the 7 per cent exacted for war risks and the high cost of exchange, in addition to the fact that sugar is hard to get at any price.

Poultry and eggs are quoted as higher, although no reason for this can be found.  
Printing is costing more since type metal and paper are both advancing in price; type metal has increased from approximately 7 cents a pound to 22 cents. Out meal is increasing and all imported liquors are soaring.

## FRONTIER DAYS SHOW WILL STIR PULSES OF ALL

Frontier Days and Round Up at Walla Walla will be the biggest and best show ever held in any arena in the world. From start to finish it will be fascinating, dangerous and exciting. Men and women will peril their lives in their efforts to master wild horses and cattle, and it is beyond human intelligence to foretell the victor. It is a game of conquer or vanquish, and it remains to be told who is to be the victor in any of the events. There will be special trains out of Portland and you can eat and sleep on first-class sleeping and dining cars all three days of the Round Up and return home on the same train.

## THE LIFE CAREER

"Schooling in youth should invariably be directed to prepare a person in the best way for the best permanent occupation for which he is capable."—President C. W. Klott.

## OREGON AGRICULTURAL COLLEGE

Forty-sixth School Year Opens  
SEPTEMBER 18th, 1914

Write for illustrated 100-page booklet, "THE LIFE CAREER," and for Catalog containing full information.  
**Degree Courses — AGRICULTURE:** Agronomy, Animal Husbandry, Dairy Husbandry, Poultry Husbandry, Horticulture, Agriculture for Teachers. **FORESTRY,** **LOGGING ENGINEERING, HOME ECONOMICS:** Domestic Science, Domestic Art, **ENGINEERING:** Electrical, Irrigation, Highway, Mechanical, Chemical, Mining, **CERAMICS, COMMERCE, PHARMACY, INDUSTRIAL ARTS.**

**Vocational Courses—Agriculture, Dairying, Home Makers' Course, Industrial Arts, Forestry, Business Short Course.**  
**School of Music—Piano, String, Band, Voice Culture.**

**Farmers Business Course by Mail Free.** Address THE REGISTRAR, Corvallis, Oregon (No. 7-15 to 9-2).

## ADMINISTERS BEATING; GETS TEN DAYS

In an altercation arising over the payment of room rent last week Lorell Jackson finally became enraged and assaulted H. M. Barrett, an elderly man living on South Pacific Highway, injured him and broke up a number of chairs in his room. A complaint was preferred against Jackson, who plead guilty and was sentenced to ten days imprisonment in the county jail. He was taken to Eugene Friday by City Marshal Pitcher and began to serve out his sentence on that day.

Jackson had rented rooms from Barrett but had refused to pay the full amount of the rent. The old man turned him out and he returned saying that he had some property in the room which he wanted to take away. The door was locked and Mr. Barrett refused to open it and let him in. The encounter followed a heated argument.

## SIX NEW FORDS DRIVEN FROM PORTLAND

A caravan of six new Ford cars, driven by O. E. Woodson and party, arrived in the city last evening from Portland. The run was made in one day. Mr. Woodson has made several trips of the sort but has never brought down so many cars at one time before. He ordered a carload of the machines to be delivered in Portland and this is his scheme for saving the high freight tolls from Portland to this city. There were five touring cars and one runabout in this group. When the machines reached the city they paraded up Main Street and attracted a great deal of attention. Those in the party were: N. P. Jensen, Albert Butler of Scottsburg, "Happy" Young, J. E. Woodson, Victor Chambers and O. E. Woodson. This is the fourth carload of the machines received this year by Mr. Woodson.

## PLAYGROUND WORK IS PROVING SUCCESS

The embryo playground work being conducted by Misses Maud Hooper and Myrtle Purvance is being continued and great interest is being developed among the children taking part regularly. A meeting was held last Thursday at the home of Miss Purvance and another on Monday evening at the home of Miss Hooper. The children are taught folk games. They play out-doors, under the trained supervision of the two young women for an hour at each session. The girls in the class range from 9 to 14 years of age. Later on Miss Purvance and Miss Hooper expect to establish one afternoon class for the little tots. The meetings will be held outdoors as long as the weather permits, and the two teachers hope by that time to be able to arrange for a meeting place for stormy evenings. From fifteen to thirty children attend the present class.

### War Prices Could be Worse.

Present war prices are creating such agitation that it may be of interest to compare these "Civil War prices" received by Burkholder-Woods Co. last evening from their wholesaler, with present prices. These prices were those quoted in August, 1864:

- Prints—Coebeo, 50c; American, 45c; Pacific, 46c. Gingham—Lancaster, 48 $\frac{1}{2}$ c; Everett, 47 $\frac{1}{2}$ c. Ticks—Pemberton Red Aw, 72 $\frac{1}{2}$ c; Franklin A, C, A, 62 $\frac{1}{2}$ c. Canton Flannel—Hamilton X F Bro., 75c. Denims—Warren Bro., 55c. Brown Shirtings—Booth O 4-4, 54c; Atlantic L, 4-4, 62c; Pepperell R, 4-4, 60c. Brown Sheetings—All Standards, 4-4, 72 $\frac{1}{2}$ c. 4-4 Blea. Cottons—New York Mills, 77 $\frac{1}{2}$ c; Mt. Vernon, 70c; Andross-coggin, 71c; Hills Semper Idem, 65c; Hope, 61c. Sheetings and Pillow Case Blended—Pepperell, 10-4, \$1.60; Pepperell, 9-4, \$1.50; Pepperell, 8-4, \$1.32 $\frac{1}{2}$ ; Pepperell, 6-4, \$1.00. Spool Cotton—Coats, \$2.00. Less 5 per cent.

### Cooking Feed for Swine.

Cooking feed for swine has been largely abandoned, thinks Prof. G. R. Sampson, swine specialist at Oregon Agricultural College, since the digestibility of most feeds is diminished by cooking. The potato seems to be an exception to this rule. When cheap enough to be fed to pigs, potatoes will stand the expense of cooking and pay a profit if installing equipment does not make too large a proportion of the feed cost. At the present time one hardly seems justified in installing an expensive cooker for potatoes, since ordinarily potatoes are more valuable for human than for pig feed. Other crops also usually furnish more nutrients at less cost per acre than boiling potatoes, since the purpose of cooking is to decrease the water content and burst the starch cells. If potatoes are boiled the water should be drawn off and the potatoes left over the fire long enough to give them a dry and mealy appearance when they split open.

If you have anything you want to trade, from a mother-in-law to a muley cow, a want ad. in The Sentinel will do it for you. One cent a word. apr22-ft
