ULTIMATUM SENT BY JAPAN TO GERMANY

Demands Withdrawal of German Warships From Orient and Evacuation of Kiau-Chau.

Tokio.—Japan sent an ultimatum to Germany Saturday night at 8 o'clock, demanding the withdrawal of German warships from the orient and the evacuation of Kiau-Chau and giving Germany until Sunday, August 23, to comply with the demand. Otherwise, the ultimatum states, Japan will take action.

The general expectation here is that the ultimatum will be followed by war. Inspired utterances express regret at the inability to maintain neutrality, but say that Great Britain, the ally of Japan, is compelled to defend herself against the aggressions of Germany. Moreover, it is pointed out that Germany is making preparations day and night at Kiau-Chau, where it is storing provisions, while its warships are scouring the seas of eastern Asia to the great detriment of commerce, and that its converted cruisers are seizing English merchant vessels. Such actions, it is argued, are directly calculated to disturb the peace of eastern Asia and accordingly, after full and frank communication with Great Britain, Japan has found herself compelled to send an ultimatum to Germany.

AGGRESSIVE MOVE BEGUN

French Offensive Movement Started Along the Line From Sarrebourg.

Paris.—Official dispatches announce that the French offensive movement began in great force along the line from Sarrebourg, on the Franco-German frontier to Luneville, in the department of Moselle.

Blamont, 17 miles east of Luneville, Cirey, still further east, and Avricourt, occupied by a Bavarian army corps, were stormed by our troops, the announcement continues. "The Germans are in full retreat, having left many dead, wounded and prisoners. The French continue to advance to upper Voeges, the Germans giving way before them. In upper Alsace we have retaken Thann. Prisoners affirm that General von Deimling, commanding the Fifteenth army corps at Thann, was wounded.

JAPAN ASSURES U. S. OF FRIENDLY ATTITUDE

Washington.—The Japanese ambassador, Baron Chinda, delivered to Secretary Bryan the written announcement of Japan that an ultimatum had been addressed to Germany requesting the latter's withdrawal from her field of activity in China.

At the same time she communicated the assurances of Japan to the United States that the utmost endeavor would be exercised to safeguard the interests of this country and all others not immediately concerned in the present operations.

The ambassador presented a communication which contained a strong statement concerning Japan's purposes of maintaining the territorial integrity of the Chinese republic by restoring to her the territory of Kiau-Chau, originally taken from China by Germany as an act of reprisal for the killing of German missionaries.

The United States, it became known after Baron Chinda's call on Mr. Bryan, does not intend to be drawn in any way into the controversy, regarding it as a matter purely between Germany and Japan. The American government considers satisfactory the promise of Japan of "eventual restoration to China" of the territory of Kiau-Chau.

Invading Uhlans Suffer Great Loss.

Antwerp.—Stories were published here of the frightful losses the German Uhlans, the Kaiser's finest cavalry, have sustained since they invaded Belgium. Of 5000 of them who took part in the battle of Haelen it was declared only 1000 escaped alive and unhurt.

Hamburg-American Vessels For Sale.

New York.—The Hamburg-American line issued a statement, saying that it had under consideration offers to purchase some of its steamships in American waters, valued at \$20,000,000.

Adds a Zest to It.

"I never had much taste for mathematics when I was a boy," said Dustin Stax. "But you managed to do some great calculating in a business way." "That's different. It's wonderful what an interest you can give to a row of figures by putting a dollar mark in front of them."—Washington Star.

FIGHTING REGARDED MOSTLY PRELIMINARY

Despite Repeated Repulses Germans Continue a Forward Movement.

London.—The beginning of the third week of the great European conflict finds scarcely a German soldier in France. That is regarded here as the most significant fact in the military situation. Aside from the attempt to capture the forts around Liege, what fighting has taken place is regarded as merely preliminary and has been mostly outpost affairs, with the French and Belgians disputing every inch of the ground.

Apparently the Germans' plan of campaign has so far miscarried that they are eight or ten days behindhand in the design of smashing France by two or three terrific and immediate blows.

The meeting of these reconnoitering parties in force has resulted in severe fighting, in which, according to French and German official accounts, the allies scored further successes.

On the line of battle in Belgium, Germany and France, despite the repeated repulses which they have suffered, the German battalions continue to move forward for a decisive encounter. The invaders are sweeping along the valley of the Meuse, south of Namur and have reached Dinant, where part of a strong French force, which is established behind that town, took the offensive and defeated them.

All along the Alsace-Lorraine frontier the advance guards of the two opposing armies have come into contact and, according to French official reports, the Germans have been driven back everywhere with loss.

Strong French forces are now in possession of all the passes of the Vosges mountains, from the west, as far as those leading down to Colmar. Further south, French forces are ready to proceed over the flat country toward Mulhausen.

Raspberry Turnovers.

Roll out pie crust and cut in sections about four or five inches square. Put a spoonful of raspberry jam in center, fold over twice and press down the two ends and trim off with a sharp knife. Brush the tops with milk and bake in a hot oven.

TRIM SUNSHADES.

The Season's Smart Models Are Known by Their Shape.

PLAIN PARASOLS PRACTICAL.

They Have No Fluffy Trimmings to Be Injured by Damp Air and Afford the Best Protection From the Sun. Faddists Favor Fantastic Forms.

The parasol is an important accessory to the toilet in summer. Not only does it, if selected with discrimination, enhance the beauty of the costume, but it serves the very useful purpose of protecting the wearer's complexion from the devastating effects of the sun's rays. At the seashore the sun is particularly to be feared, and a green parasol is to be commended when a stroll on the sunny sands is in order.

The thin, fluffy parasols which are in vogue this season offer but little protection, and the sensible woman will carry a simple affair of stout silk. This

FOR AFTERNOON WEAR. will not only keep off the sun, but the damp air will not reduce the trimming to a shapeless mass.

One of the characteristics in the sun shades of the season is their shape. The smartest models almost all show a slight slant, the shape itself not hanging straight across the stick, but being posed at a slanting angle, which, of course, gives a very much better shade, as it can be held to the side when the sun shines, and it is not by any means necessary to get the hat into the shade, as in the old form, before one can comfortably shelter the face.

These slanting parasols are made in the most elaborate as well as the plainest shapes. They fold up quite evenly, the angle being arrived at by the shortening of the inside ribs on one side and the lengthening of them on the other, so that the outside ribs remain exactly the same length all round, and when shut the parasol looks like the old model.

In actual shape the flat Japanese model is in the great majority, very little curve being given to the ribs and a great many more ribs being used than in the curved shapes.

Of course fantastic shapes appear, one of which is a butterfly, longer and shorter ribs giving the correct shape. This made up in chiffon as a slanting shade looks well, although rather conspicuous. It is, however, certainly the best model in the bizarre shapes. The pagoda and lamp shades parasols are popular.

Very sensible is the summer afternoon costume shown here. It is of cotton crepe embroidered in blue, while the simple taffeta parasol is also of blue.

The Oven For Cake.

An oven for a cake should be hotter at the bottom than at the top, and after the cake is put in it should not be opened for at least fifteen minutes, when the cake should have risen to its full height. Layer cake sheets require about twenty minutes; sheet cakes, such as gingerbreads, require half an hour; loaf cake, if small, three-quarters of an hour.

The Fleur-de-lis.

The origin of the fleur-de-lis is still an unsettled question. There are many theories, but no two of them agree. One makes the emblem originate with Clovis I., another with Louis VII., another with one of the German kings of the twelfth century and still another with the Romans. All that is definitely settled is the fact that since the twelfth century the fleur-de-lis has been employed as the emblem of French royalty. The nature of the emblem is also in dispute. An old tradition makes it the representation of the lily given by the angel to Clovis at his baptism. Another theory is that it was adopted by Louis VII. in allusion to his name, Louis Florus.

PANAMA CANAL IS OPEN

Vessels of Warring Nations Must Pass Without Halting.

Washington.—With the passage through the Panama canal of the war department steamship Ancon, the great waterway becomes "free and open to the vessels of commerce and war of all nations on terms of entire equality," in accordance with the provisions of the Hay-Pauncefote treaty.

Vessels drawing not more than 30 feet of water may now make the passage. It would be possible to put the big American dreadnoughts through at any time.

Any of the foreign warships now in the Atlantic and Pacific waters could also make the trip. Except in cases of absolute necessity, vessels of belligerents must make uninterrupted passage through the canal. They may not coal, revictual or embark or disembark troops in the canal zone.

Would Have Refugee Ships Neutral.

Washington.—A proposal has been made by this government to the powers that all nations regard as neutral those ships "chartered for the sole purpose of repatriating" citizens who are now stranded in Europe.

If it's in The Sentinel it's a news—if it's news it's in The Sentinel.

ECHOES FROM ROSEBURG

ROSEBURG HAPPENINGS ALWAYS INTEREST OUR READERS

After reading of so many people in our town who have been cured by Doan's Kidney Pills, the question naturally arises: "Is this medicine equally successful in our neighboring towns?" The generous statement of this Roseburg resident leaves no room for doubt on this point.

G. H. Poole, proprietor blacksmith shop, 318 N. Rose St., Roseburg, Ore., says: "I have used Doan's Kidney Pills on several occasions when my back and kidneys bothered me and I have always found them a good remedy. I recommend them to anyone suffering from kidney complaint."

The above is not an isolated case. Mr. Poole is only one of many in this vicinity who have gratefully endorsed Doan's. If your back aches—if your kidneys bother you—don't simply ask for a kidney remedy—ask distinctly for Doan's Kidney Pills, the same that Mr. Poole had. 50c all stores.
