

Before You Vote

Consider What Your Action Means to Oregon

1400 HOP FARMERS are relying upon your sober judgment to vote **333 X NO** to protect them.

2500 ACRES OF HOP LAND are spread out before you awaiting your vote of **333 X NO** to save them.

AN INCOME TO OREGON OF \$6,000,000 annually is in the balance awaiting your vote of **333 X NO** to insure its future progress.

TEN THOUSAND MEN WILL BE AFFECTED and thrown into unemployment unless you vote **333 X NO** on the ballot.

YOU MAY BE ONE OF THOSE "LAID OFF" for business reasons caused by depression unless you vote **333 X NO** against a change.

You are asked to uphold LOCAL OPTION and HOME RULE. Further the cause of temperance and vote 333 X NO.

VOTE 333 X NO against a "Theory" discredited and rejected by **FIFTEEN** Eastern States after trial of from **ONE to FIFTY-THREE** years, during which time the voters Hoped and Prayed the promises would come true.

VOTE 333 X NO against "Experiment," "Promises," beliefs and a useless "law" that would throw Oregon into "low gear" for a half century to come.

AGRICULTURAL LEGISLATION NEEDED

The Farm the Place to Study All Legislative Problems.

By Peter Radford.
Lecturer National Farmers' Union.

The principal function performed by government today is to collect taxes, keep records and prevent and punish crime; but that is not sufficient. Government should tip its hat to the Goddess of Opportunity as courageously as it draws a six-shooter on a train robber. We ought to encourage thrift as well as restrain greed. We have been basing legislation upon the extremes of human life—the classes high and low, the depraved and the talented—let us now reach the masses and the extremes will more nearly disappear. Our statutes are filled to overflowing with pity and revenge; let us add opportunity.

The slogan of the Farmers' Union is co-operation. Not only among individual farmers, but between all legitimate and useful occupations. We want to sit around the hearthstone of industry and talk over problems of mutual interest with our neighbors.

We want to invite those who are earnestly searching for information on public questions to get back to the soil with their investigations where, in the stillness of nature, they can climb the mountain-top of wisdom, explore the deep canyons of knowledge and stroll through the quiet valleys of understanding.

There is no problem in civilization that cannot be found in its native state on the farm. The labor, educational, financial, transportation, home-building and all other problems are there. We will discuss a few of them.

The Labor Problem.

We bow to the dignity of labor. No one would be willing to do more to lighten the burdens, increase the safety, comforts and profits of those who labor in commerce and industry than their fellow toilers in agriculture. But how about the farmer who bows his back to feed and clothe the world, and who works from sun until sun? Is he not also entitled to an increase in pay and a shortening of hours? Much has been said about the women in the factory and behind the counter, but how about the woman in the field, drenched in perspiration, gathering the harvest, the little children, their lips wet with mother's milk, toiling by her side? Are they not also entitled to consideration? Is not the man who digs in the ground entitled to the same consideration as he who toils at the forge, weaves at the loom and works behind the counter?

The farmer has been bearing his burdens as patiently as the beast he plows, but is patience a bar from justice? The labor problem of Virginia today is on the farm, and the first attention should be given those who labor in the field.

The Need of Cheap Money.

Agriculture has never been properly financed. The farmer pays a much higher rate of interest as a rule than any other class or borrower and his property, especially that of farm products, is not so readily accepted as a basis of credit as the property of other lines of industry of equal market value.

A rural or land credit system is needed that will enable a farmer to buy a home on long time at a cheap rate of interest.

A statute based on sound business principles that will enable the landless to buy and encourage the large land owner to sell, is much needed, and one that merits the most serious consideration of our law makers.

The financial problem of the state and nation is on the farm, and first attention should be given those who create the nation's wealth.

It is an admitted economic fact that there can be no permanent prosperity without a permanent agriculture.

An up-to-date farmer must have an accurate knowledge of today and a clear vision of tomorrow.

In this age of advancement in agricultural science there is no excuse for soil depletion to further menace the nation's prosperity.

Soil is not a dead, inert substance, as many suppose. It is an active, virile force, full of energy and power and the farmer should know his soil if he would maintain its productivity.

Agriculture is recognized as the greatest of all industries and a prosperous, progressive and enlightened agricultural population is the surest safeguard of civilization.
