**Hopper-Queen Wedding.**  
A very pretty wedding was solemnized at the country home of the bride's parents, Mr. and Mrs. J. L. Queen, near Saginaw Tuesday evening, November 10, 1914, when Mr. Ira M. Hopper of Weiser, Idaho, led to the bridal altar Miss Elizabeth A. Queen. The ceremony was performed by Rev. A. M. Williams in the presence of about eighty guests. Just previous to the impressive ceremony, Miss Maude Gilfray of Creswell sang "I Love You Truly." Mrs. C. H. Haight accompanied. The bridal party entered the parlor to the strains of Mendelssohn's Wedding March played by Miss Maude Gilfray. Mrs. Harold J. Hopper, sister of the bride, was matron of honor and wore

white crepe de chine with shadow lace and carried an armful of yellow chrysanthemums. The groom was attended by his brother, Mr. Harold J. Hopper. The bride wore a beautiful wedding gown of white satin charmeuse with overdrape of chiffon with pearl trimmings, and carried a shower bouquet of white carnations, maiden hair fern and lilies of the valley.  
The rooms were beautifully adorned with chrysanthemums, dahlias and ferns, each room carried out in its own color.  
The wedding was of unusual interest because of the fact that it occurred on the twenty-fifth wedding anniversary of the bride's parents and some of the guests were present who attended the

former wedding in North Carolina twenty-five years before.  
The bride and groom were the recipients of many beautiful and useful presents. Following the ceremony and extending of congratulations, refreshments were served by Mrs. M. A. Horn, Mrs. Nolan Hopper, Mrs. Harold Hopper, Misses Bethie Angel, Leota Case and Harriet Queen. Assisting about the rooms were Mr. and Mrs. Arthur Smith. The bride is the second daughter of Mr. and Mrs. Queen. She has made her home here for almost seven years and has many friends who extend best wishes. Two sisters in the Queen family have married brothers within the past few weeks.

In the afternoon, Mrs. Stouffer's daughter, Mrs. Burkholder, invited in sixteen of her mother's friends. The age of the honored guest was learned in a unique manner. The date of her birth and the present date had been placed on cards and the cards cut into small pieces. The guests had to put the cards together. Mrs. Stouffer was presented with a number of beautiful bouquets. A two-course luncheon was served. In the evening a number of Mrs. Stouffer's friends surprised her at her home. A half dozen little girls in colonial dresses did the serving. After the banquet a musical and literary program was given in the Epworth League rooms. There was a solo by Prof. Barnhart, a reading by Miss Eunice VanDenburg, a

piano number by Miss Mae Armstrong and an informal debate upon the subject: "Resolved, That a Neat Cross Woman Is a Better Home Maker Than the Slovenly, Good-natured One." Prof. Dunton and Miss Maude Hooper upheld the affirmative and Rev. Aldrich and Ernest Anderson had the negative. The decision was for the affirmative.

The reception room was decorated in English ivy and yellow chrysanthemums and the banquet room with hedge green. The table decorations were robusids.

The M. P. G. Club met yesterday afternoon with Mrs. Harry Short, every member being present. A fruit shower was given Mrs. A. C. Kinter in honor of her recent return from the East. The usual work was taken up and refreshments served. The next meeting will be held with Mrs. Armand Wynne.

### FADS AND FANCIES

Sprinkle cornmeal moistened with kerosene over your carpets before sweeping. You will find you can sweep without raising much dust and it leaves the carpets looking clean and bright.

To spread butter easily, beat it to a cream instead of warming it; for in this way it gives a better flavor and prevents any useless waste.

A good way to utilize silk or lisle thread stockings that are past wearing, is to cut the feet off, then cut each stocking top open lengthwise and sew the two together by hand or machine. It makes good dust cloths for nice furniture and leaves no lint. It takes off the blue, the smoky look from mahogany furniture and if a circular motion is used in dusting, leaves a nice polish that if rubbed with the grain of the wood.

To utilize short grass clippings as a compost, place them in a heap and cover with an inch or two of soil, adding other layers of grass cuttings and of soil from time to time as the lawn is mowed. This makes the finest kind of soil for house plants and ferns grown during the winter.

A serviceable brush of good weight for polishing floors may be made out of an old discarded carpet sweeper, says Good Housekeeping. Remove the brush and place a brick inside, fastening it by wires to keep it from slipping. Then cover the sweeper all over with a piece of heavy carpet. The swing of the handle will give the brush an easy motion and lessen, to a considerable extent, the arduous work of polishing the floors.

When bread is taken out of the oven it should be removed from the pans and placed side down on a wire bread or cake cooler.

Mackintosh coats which have become hard and rigid may be easily cleaned with lime and water and made to look as good as new. A handful of the best gray lime dissolved in half a bucket of water, applied with a small sponge, makes it better. Repeat after three hours.

### BRITISH BATTLESHIP LOST

Audacious, Third Dreadnought in British Navy, Reported Destroyed  
New York.—Rumors of disaster to the British superdreadnought Audacious, which have persisted ever since the White Star liner Olympic, diverted from her course, arrived at Lough Swilly on October 29, are confirmed.

The battleship's cry for assistance was caught by the wireless operator of the Olympic, which was only about 10 miles distant. The steamship rushed forward at full speed. Volunteers were called for and double the number necessary to man the lifeboats responded.

After taking off all the officers and crew, Captain Haddock, of the Olympic, turned his attention to an attempt to save the warship, but was unable to tow her to shoal water, and she was blown up.

As a reason for destroying the Audacious, it was said that the battleship was hopelessly damaged and that if not blown up she would become a menace to navigation.

In spite of the fact that there were 900 officers and men on the Audacious and that the rescue work was carried on under great difficulties, in a heavy sea and a westerly gale, only two lives were lost.

The destruction of the Audacious is the most serious single loss sustained by the British navy since the opening of hostilities. Only a few British warships outrank her in size and fighting equipment.

### LORD ROBERTS DEAD

British Field Marshal Seized by Pneumonia While Visiting His Army.  
London.—Lord Roberts, hero of the South African war, and retired field marshal of the British forces, died in France. The immediate cause of his death was pneumonia.

It was stated that Lord Roberts had contracted chills while visiting the British troops in France.

His death was announced in a telegram received by Lord Kitchener from General French, commanding the British expeditionary force. The telegram stated that Lord Roberts contracted a chill, pneumonia quickly developed and he died after an illness of but shortly over two days.

"Bobs" was colonel-in-chief of the Indian troops, with whom he was making a brief visit.

Few men in British military history had more distinguished careers or earned higher honors. When death overtook him he was 82 years old and had been out of harness only about 10 years.

## NATIONAL RESERVE BANKS NOW OPEN

New Currency System Designed to Provide Elastic Circulating Medium.

Washington.—With the opening of the 12 federal reserve banks Monday the nation will begin actual operation of its new currency system, designed to provide an elastic circulating medium based on modern ideas of finance and economics.

The new system is generally conceded to be a compromise between a central bank and the present system with its thousands of units, scattered reserves and fixed limits of currency. Its chief attraction and value those who interpret it find in the elasticity it will give to recognized paper currency.

Under the new system the federal reserve notes, which, in time, probably will entirely replace the national bank notes, now so familiar, will be issued on commercial paper arising out of actual business transactions. It seems plain that they will rise and fall in amount as the tides of business rise and fall and that there will be no plethora of money to lie idle. They will be obligations of the United States government, which national bank notes are not, and will have back of them a large reserve of gold in the regional banks. Through them the reserve banks are expected to come to the aid of any needy member bank which has plenty of good paper but needs cash.

### PROHIBITION IN RUSSIA

Russians by Thousands Wait in Snow for Last Supply of Liquor.

Petrograd.—Thousands of men, women and children have stood since 4 o'clock Sunday morning in a driving snow storm before the doors of the liquor shops on this, the last day on which it is possible to purchase light wine and beer, under the prohibition act of the Russian government, which on Monday becomes absolute.

This final prohibition act is the last of three distinct liquor reforms, the first curtailing the sale of vodka and the second abolishing it absolutely. The third measure extends the prohibition to every form of alcoholic drink in all portions of the empire under martial law. Cities included under the prohibition are Odessa, Riga, Warsaw, Moscow, Kiev and virtually all cities of western Russia.

## PLAN TO EVACUATE VERA CRUZ NOV. 23

Washington.—While awaiting official confirmation of the report from Mexico that a truce had been arranged by leaders of the Carranza and Aguas Calientes claimants to control of the central government, the Washington government allowed its order to General Funston to stand and Vera Cruz will be returned to Mexican control November 23, unless some radical change in the situation there prevents.

The American expeditionary force at Vera Cruz will embark on that date for Galveston, and the Mexican factions will be left to work out their own destiny, the policy of watchful waiting having been altered in no respect.

Although Secretary Bryan declined to say to whom General Funston would surrender custody of Vera Cruz, it is believed his instructions are to turn the city over to whatever de facto authorities appear to receive it. It is not the intention of the Washington government to recognize any faction in Mexico through this transfer.

Assurances have been received both from General Carranza and from the Aguas Calientes convention authorities that the guarantees required by the United States would be forthcoming and Washington officials feel that their responsibility ends there.

#### Carranza Offers to Leave.

Mexico City.—General Obregon received a dispatch from Cordoba saying that General Carranza had made an offer to General Eulalio Gutierrez to turn over the military forces to General Gonzales and leave for Havana to arrive there not later than November 25, if General Villa would turn over his command to General Gutierrez and be in Havana the same date.

#### Lorimer Pleads Not Guilty.

Chicago.—Ex-Senator Lorimer pleaded "not guilty" to a charge of wrecking the La Salle Street Trust & Savings Bank, of which he was part owner.

#### Scott Will Head Staff.

Washington.—Brigadier-General Hugh Scott was selected by President Wilson to be chief of staff of the United States army on the retirement Monday of Major-General Wotherspoon.
