Proposed Prohibition Law in a Nutshell

Following is a synopsis of the proposed law to be presented to the Legislature by the combined organizations that took part in the campaign to vote Oregon dry:

Definition is broad enough to include not only familiar varieties of intoxicating liquors, but beer powders, etc.

Anything containing more than one-half of 1 per cent of alcohol intended as a beverage is defined as "intoxicating liquor."

Home manufacture of wines, cider or vinegar permitted—but it cannot be sold.

Sale of sacramental wine permitted on order of clergyman.

Drug stores cannot sell whiskey—even on prescription of physician. Licensed physicians may administer but not prescribe.

Taking of orders forbidden.

Giving away of liquor, when intended as a law evasion, forbidden.

Club locker rooms forbidden.

Carrying intoxicating liquor to dance hall forbidden.

Only original consignee may receive liquor from without the state.

No habitual drunkard may import liquor from without the state.

Quantity that may be received at any one time from without the state within four weeks limited to five gallons spirituous or vinous liquors and 20 gallons of malt liquors.

Places where liquors are manufactured, sold or given away become common nuisances. This section covers motor-boats and automobiles when they are not common carriers.

A search and seizure system is provided upon a warrant which may be obtained by any citizen from proper authorities.

All intoxicating liquors found in violation of law declared forfeited.

Appointment of Assistant Attorney General to assist the local District Attorney at a salary of not over \$200 a month is provided, but the Legislature may change flat salary to fee system.

Fines collected under this law go to the county in which conviction is obtained.

Negligent officials may be removed by civil action.

Private citizens may employ attorneys with their own funds to be recognized as associate counsel in prosecuting violations.

Prosecuting officers are authorized to swear witnesses and to make them sign their testimony. Refusal of witnesses to be sworn is construed a misdemeanor subject to fine.

Exact definition of liquor sold is not required in complaint.

Any number of offenses may be included in one complaint, and trial be had as on one count.

State has right of appeal on legal questions.

Physicians or pharmacists convicted more than once of violating law will have licenses revoked.

Fine becomes lien on property in which violation took place.

Copy of internal revenue stamp prima facie evidence of sale.

Eat Wedding Cake Made 44 Year Ago.

Portland, Ore., Dec. 31.—Having been kept in a sealed metal box since the wedding of his parents in Saginaw, Mich., forty-four years ago, a large, elaborately leed and decorated wedding cake made its second appearance last night at the marriage feast of Mr. and Mrs. R. H. Heald, both of Portland. The cake despite its journeyings and age was as good as the day it was made.

SAYS GROVE MIGHT HELP OUT WITH SUGAR BEETS

Whether or Not Sufficient Acreage Can Be Secured at Eugene, Cottage Grove Farmers Could Add Another Profitable Line to What They Now Have.

A farmer who has lived in sugar beet sections suggests that in case a sugar beet factory is established in Eugene the Cottage Grove country could get into the sugar beet industry. In fact, this farmer thinks it might be well for Cottage Grove to cooperate with Eugene in getting the factory started. Five thousand acres of land to be planted to beets is one of the main items necessary to bring about the establishment of the industry at Eugene. This farmer thinks it hardly likely that sufficient acreage can be secured in the immediate vicinity of Eugene and that it should be little trouble to get a couple thousand acres in this vicinity to help the project along. In sugar beet sections a tremendous amount of money is put into circulation through the purchase of the beets.

EUGENE PAPER STRONG FOR FRUIT INSPECTION

(Editorial in Eugene Register.)

There can be no doubt that the taxpayers who gathered at the court house Thursday to discuss the 1915 budget and to make recommendations acted wisely in deciding against reduction of the appropriation for fruit inspection. Lane County now has between 5,000 and 10,000 acres of commercial orchard, and the only possible way to make this large body of land a valuable asset to the whole county is to bring the trees to maturity in as nearly perfect condition as possible. Imperfect fruit is worse than no fruit at all.

Every person in Lane County is interested in seeing that the land that has been set out to orchard is made profitable to its owners, for if it is not made profitable general business will suffer and the reputation of the upper Willamette Valley as a prosperous community will be damaged. The only way to bring these young orchards to perfect maturity is to see to it that they are protected against the spread of pests, and this can be done only by concerted action.

If anything, we need more inspection and better enforcement of the law rather than less. We need to see to it that every man with an old pest breeding orchard is compelled to spray it or cut it down. With a large acreage set out to young orchard, this is no time to lie down and let it go to ruin.

No Cash Stores, He Says.

Cottage Grove, Ore., Jan. 4, 1915.—I note that in your last issue you state that one cash store and one credit store reported a better Christmas trade than for the year before. You must be in error in your statement. There were no cash stores in Cottage Grove during the year 1914. BEN LURCH.

LYCEUM COURSE IS ARRANGED FOR THE WINTER

In addition to a chautauqua Cottage Grove is to have a first class lyceum course during the coming year, arrangements having been made with a local committee during the past week for a high class list of entertainers from the Ellison-White Bureau.

The numbers on the program are the Apollo Concert Co., Beverly Entertainers; Harry Arnold, lecturer; Wells Entertainers; Sidney Landon, impersonator.

While there is little doubt that the course will be carried through the contract with the local committee does not become binding until sufficient season tickets have been sold to cover the cost of the talent.

Cottage Grove Supply Not Endangered by Steady Flow to Keep Pipes from Freezing During the Recent Cold Spell Here.

Cottage Grove's experience during the recent cold spell indicates that there is little danger of the city ever being without water. While in other cities appeals had to be made to water users not to leave their faucets open, no such appeal had to be made here and with faucets open all over the city to keep the pipes from freezing, water never stopped running from the overflow.
