I want you all to know I want to sell penny unless I sell the article listed. onfectionery stores or your grocer's. Remember, my method of selling milk house to house, making the cheapest milk. Cottage Grove has the best and cheapest milk supply of any town in Oregon. Who did it? Spray. When I commenced selling milk it was selling at 7c to 9c per quart, measured out of ean in a cup. Everybody had to furnish their own vessel to put it in. Now all the milk sellers use bottles with ight caps put on at the farm and even at the high price of feed are willing to sell at 6c per quart. There is double the milk used in the Grove now that there was before I commenced selling of Veta Pitcher from Thursday until and not one-half the condensed milk

Fence your land and put goats in. They make the brush go and let the grass grow. There is enough brush land tributary to Cottage Grove if it was properly fenced and used for goats and sheep to produce more money than is now produced in the whole country.

When I was young, old people told me the way to break a hen from set-Thursday were Mr. and Mrs. Frank ting was to put her in a pen and starve Wilson and daughter Roberts, Mr. and her but I find a better way is to feed her all she can eat and her comb will turn red and instead of setting she will lay eggs. I bought 100 White Leghorn hens of a well known chicken raiser. They weighed less than 3 lbs. each when I bought them. In less than 3 weeks they weighed nearly 4 lbs. and were laying 75 per cent. They needed the last half of the feed. If your hens don't lay eggs I will sell you the the home of her sister, Mrs. Cora feed, and then if they don't lay I will sell you more feed.
