LORANE

Aug. 23—Threshing is now completed in this section. The weather has been ideal for the work.

Ray Fox and Paul Buntrock have returned from Lincoln County where they had been looking up a location for a sawmill. They were favorably impressed with the neighborhood of Toledo and will probably build a mill there.

Mr. B. Griffin has purchased a fine ranch in the Yakima Bay district, and will go into dairy farming for which the land is especially fitted. He expects to move there in about a week.

F. Woodruff, plumber from the Grove, was out one day this week doing some work for W. W. Jackson.

Some men are born lucky, while others have all sorts of luck thrust upon them. Two men coming from Portland recently came under both of these propositions. They were riding in a Ford at a pretty swift speed, and when near Rieckreall in a sandy stretch, the car turned completely over and righted itself at the side of the road, leaving the men partially under the car, wondering what had happened. As neither received so much as a scratch, and as the engine just kept on running, they proceeded to drive on into town, and even having to take the trouble to crank up. While the men are all right, the car is taking on a new wind shield and having a fender straightened out.

Work to Start When Rains Begin.
Road Supervisor Beak states that work on the Lorane road will start just as soon as the rains set in this fall. He has put off the work until that time owing to the fact that much blasting must be done in getting out the stumps and that better progress can be made along this line when the soil is wet and loose. The amount of powder allowed him for the work by the county is limited and he must make it go as far as possible. He has made arrangements for a cook who will accompany the crew which will consist of perhaps six or eight men. The money appropriated for the work will be taken out of the general fund. There will be some bridge work to do and this will come out of the bridge fund. The powder for the stump work is here and as soon as conditions are favorable the work will begin.

FOR SALE—Hampshiredown bucks, \$10 per head. Wm. Bainbridge, Lorane. Aug. 24-Sept 7 pd

Spray's Column

This column is devoted to bringing the buyer and seller together, especially to bring them to Spray's store, so you see I have two axes to grind. I want you all to know I want to sell you something or buy something from you. Also I want you all to know what your neighbor has to sell or what he wants to buy. If you have anything to sell, some and see me. If you want to buy, see me. It will cost you not a penny unless I sell the article listed.

Good second hand Hay Press, \$150.00
Pure milk from Spray's dairy at the confectionery stores or your grocer's.

Remember, my method of selling milk cuts out the expense of peddling from house to house, making the cheapest milk. Cottage Grove has the best and cheapest milk supply of any town in Oregon. Who did it? Spray. When I commenced selling milk it was selling at 7c to 9c per quart, measured out of a can in a cup. Everybody had to furnish their own vessel to put it in. Now all the milk sellers use bottles with tight caps put on at the farm and even at the high price of feed are willing to sell at 6c per quart. There is double the milk used in the Grove now that there was before I commenced selling and not one-half the condensed milk used.

Second hand mower, \$10.00.
Jersey red male hog for sale.
McCormack mowers and binders. None better.

Twine and extras on hand.
Second hand wood saw and engine. A bargain.

Good milch cow for sale.
Try a sack of my mixed chicken feed. A cheap feed that fills the egg basket. I have several second hand wagons at a bargain.

Try a sack Golden Loaf flour.
Jersey bull for sale.

One more grubbing machine at a bargain.
Good second hand cook stove for sale.

Feed! Feed! Feed! I want to sell you part of your feed.
Page fence, a spring steel wire. Fence your land and put goats in. They make the brush go and let the grass grow. There is enough brush land tributary to Cottage Grove if it was properly fenced and used for goats and sheep to produce more money than is now produced in the whole country.

When I was young, old people told me the way to break a hen from setting was to put her in a pen and starve her but I find a better way is to feed her all she can eat and her comb will turn red and instead of setting she will lay eggs. I bought 1000 White Leghorn hens of a well known chicken raiser. They weighed less than 3 lbs. each when I bought them. In less than 3 weeks they weighed nearly 4 lbs. and were laying 75 per cent. They needed the last half of the feed. If your hens don't lay eggs I will sell you the feed, and then if they don't lay I will sell you more feed.
