OLD AND NEW WAY TO TREAT CATARRH

The discovery of Hyomei has wrought a wonderful change in the treatment of catarrh.

Prior to three years ago the medicines ordinarily employed in the care of this disease were drugs, sprays, lozenges, etc. In some instances they benefitted, but the improvement was not lasting.

With Hyomei you take into the air passages of your throat and head a balsamic air that goes into the minutest cells, and should effectually kill all germs and microbes of catarrh. Its purpose is to enter the blood with the oxygen, killing the germs in the blood, and restore health to the whole system. Many astonishing testimonials have been received from those who have been helped by Hyomei.

A complete outfit is inexpensive and includes an inhaler, dropper and sufficient Hyomei for several weeks' treatment.

Perhaps the strongest evidence that can be given to doubters, is the fact that The Modern Pharmacy has so much faith in Hyomei that they sell every package under a positive guarantee to refund the money if it does not relieve.

How About It?

Is loganberry juice made out of loganberries? Is the Willamette Valley producing loganberries or is it producing phenomenal berries in disguise? Or is it the reverse? In any event, can a rose by any other name smell as sweet? Luther Burbank, who knows more about berries, cacti, potatoes and flowers than the original inventor, says the Willamette Valley Valley loganberries are nothing of the sort. He does not spit on his hands and swear when he makes the statement, but he affirms with great affirmation that the so-called loganberries are phenomenal berries, a product so far ahead of loganberries that no respectable person will mention them in the same breath. Luther says the loganberry is a soft, mushy, tasteless thing that will not ship, is unlovely to look upon, and produces juice with no more virtue than circus lemonade. That's the limit in criticism, and it has weight of authority, though there are some authorities who disagree. However, the California wizard is unconcerned with the disagreement—his name is Burbank, and that ought to be enough to satisfy anybody. And Burbank says, says he, that not until he took the little old loganberry and gave it a dose of Burbankitis did it assume any taste at all. Then somebody got hold of a sprig of his rejuvenated loganberry, which he has rechristened "Phenomenal Berry," and they took it to Oregon. It grew there at a terrific rate and the phenomenal thing there is so very common that this new invention from California probably outgrew its

name. At least the word "phenomenal" got misplaced and the wonderful big red berry that has produced the juice that William Jennings Bryan says is the best that ever happened is now known as the loganberry. The question is, is it? Who first brought the berry into Oregon, and where did he get his slip or cane? Experts here are anxious to know, so if you, dear reader, know anything about it, please send the information to "Publicity," Oregon Building.

On a Level

He may be the son of a master of learning, whose wisdom has taken a nation by storm, or the offspring of one who is rightfully earning the plaudits of all through his Social Reform. His father may be a great, famed politician, whose word will bring thousands of men to his feet; his family may hold an exalted position in circles where only the mightiest meet. But today he is only "one man in a million;" no family connections or riches enthrall the comrades who march in the same big battalion. At college he merely is "one freshman." That's all.
