

Our Stupendous Sacrifice Sale Continues

With bigger and better bargains than it was possible for us to offer at the beginning of our sale. Many lines have become broken that we are going to discontinue and we are going through our stock and not considering the cost when we make the final reduction. We are also making some big reductions on new wanted merchandise. You will find our store full of Dollar Bargains every day until Oct. 30. The only difference you will find in our Dollar bargains that we are offering during this sale is that they are Bigger and Better Bargains and you can buy as many as you want, no limit placed on your purchases. Watch our windows for bargains. It is impossible for us to even think about quoting you prices on the hundreds of bargains you will see when you visit our store, but, however, we have selected a few at random from each department which only give you a faint idea of the enormous price concessions we are making.

THE race ain't always to the swift. VELVET is way ahead of those quick-cured tobaccos, even if it does wait two years for agein'.

There are less expensive ways of curing tobacco than Nature's way—not less than two years of mellowing in sealed wooden casks. But that ageing gives VELVET its smoothness, and brings out to the full the natural fragrance and flavor of the choice Kentucky Burley tobacco.
