The Woman's Missionary Society of the Christian Church met with Mrs. Knox Thursday afternoon. An interesting program was rendered and a social hour and refreshments enjoyed.

Beggars Swarm Church.
The Christian Endeavors of the Christian Church held a tramp Social Monday evening, which proved to be one of the most enjoyable occasions of the season. All were given the tramp code of marked houses for "hand outs" and for an hour and a half tramps and beggars swarmed the streets begging at back doors and meeting with the usual stern refusals, requirements to work at the wood pile and various other jobs, fierce bull dogs and women with a gun. Here and there they met generous, gracious housewives who willingly fed them. An officer in policeman attire and billy club the size of a base ball but kept them "moving on" and when they gathered at the final rendezvous they learned that three of their members had been arrested under warrants and charges duly sworn to, for disturbance of the peace by halerious laughter, disorderly conduct, etc., for vagrancy and begging and for appearing on the street in unseemingly apparel. They were arranged before Judge Shinn and after a determined fight by the prosecution sentenced one John Doe (real

cutting and defending attorneys, the name unknown) to the rock pile, apitied Annetta Roustabout and since loud and continued laughter seemed to be the chief offense of Richard Roe, he was given an indeterminate sentence of from one to five years to be laughing all the time. The trial was a very interesting and laughable affair and greatly enjoyed by those present. A premium was offered by the C. E. for the most begerly looking beggar and bumest look ing bum. Zacharias, the leader of the gang, was conceded to be the bumest looker. The judges have not yet quite decided as to which young lady most richly deserves the beggar prize. A great many of the make-ups were so deceiving that friends did not identify some well known young people.

The Emanon Club meets tomorrow with Mrs. Lawrence Phelps.

The Social Twelve Club meets tomorrow with Mrs. R. R. Job.

Mrs. Geo. Scott, Mrs. O. L. Nichols and Mrs. Helen Silsby were hostesses to the Constellation Club Thursday afternoon. The afternoon was spent in the usual needle work and a two-course luncheon was served. There were 23 members and several guests present.

The parcel post shower given last night at the home of Mr. and Mrs. Herbert Eakin by the women of the Presbyterian Church was a tremendous success. There was about 90 present and \$46.25 was realized from the sale of parcels. Games were played and music furnished on a Victrola. Refreshments of punch and cake were served. The home was prettily decorated with ivy and Christmas bells.

FADS AND FANCIES

When oranges are cut in half and the juice extracted they may be rubbed upon white wool, such as kitchen tables, then go over with a scrubbing brush. They act as soap and the article will be white.

A few "hints" on the use of olive oil: Any olive oil left in the pan after frying can be filtered through cheese cloth and kept in a cool place for future use. Olive oil can be used repeatedly; it should be hot before the article to be fried is placed in the pan.

Olive oil is capable of having the temperature raised to over 600 degrees before it burns. Butter burns at a little over 300, suet at about 300, and lard at 235. It will be seen that butter is a poor frying medium, as food must cook at too low a temperature to prevent scorching, while with oil the high degree quickly coats the outside of the article with a crust that prevents the oil from penetrating.

Use olive oil in receipts when possible where butter is called for; it is especially delicious in soft gingerbread, salad dressing and baked beans.

Stone jars with covers that fit tight make excellent receptacles for bread—better than tin boxes.

Prunes—Halves of stewed prunes can be served with a custard in which a little lemon or orange peel has been steeped.

Quarters of stewed prunes can be put in any fruit jelly.

Halves of stewed prunes and segments of orange freed from all seeds and skins can be served together for breakfast or for luncheon dessert.

Dried prunes can be parboiled, freed from their pits, thoroughly dried and stuffed with bits of nuts and raisins, then rolled in sugar and used as a sweet.

Green Pepper and Cheese Salad—Select and wash three medium size green peppers. Cut around the stem of each with a slender peering knife to remove the seeds and the white sections. Stuff the inside of the pepper with cottage cheese, pressing it in firmly. Chill, and when ready for use, cut the pepper into one-fourth inch slices and place two or three of these slices in a nest of tender lettuce. Serve with salad dressing.

Keep the canary in a moderately small cage if you desire it to sing.

Beefsteak Pie—Flank steak or a slice from chuck or upper round can be utilized for meat pie. Cut it in fingers, dredge each piece with salt and pepper. Should the amount be scant, pare, quarter and parboil a few potatoes. A few ounces of raw ham, cut fine and added, serve to improve the flavor. Make a rich biscuit crust and roll out almost a half inch thick. With this line a deep baking dish and fill with the prepared meat, etc. Add a half cup of rich stock, fit on the top covering and bake in a moderate oven for an hour and a half, covering at first that the crust may not become too brown. Have ready a quart of rich gravy. When the pie is taken from the oven pour carefully in as much as it will hold, serving the remainder separately.

Luncheon sandwiches of brown bread spread with cottage cheese seasoned with salt and pepper are very good.

Always clean a brass cooking utensil thoroughly before using it. Vinegar and salt are good for the purpose.

Do not put soap directly on your fancy colored gingham. If they are much soiled soak them in salt water for an

hour, then wash them in warm suds.

If you wish to remodel last year's frock of plain material, cut the old skirt off about three inches below the turn of the hips and add checked material to finish the skirt, introduce a little checked material on the blouse and you have a very pretty dress.

An Appropriate Gift.

Possibly you have been puzzled about what to send some friend for a Christmas present. A year's subscription to The Sentinel may be just the thing.

In all modesty we can truthfully say that there are many who would appreciate and enjoy it as much as they would some token that would cost you many more times than the paper.

Take, for instance, your friends or relatives in a distant state who once lived in or near Cottage Grove and who retain a fondness for old acquaintances. Don't you think they would find much satisfaction and a great deal of pleasure out of reading a copy of The Sentinel once a week during the coming year? And wouldn't they be grateful to the person who was thoughtful enough to send them the paper? If you want to make a gift that will be enjoyed during the entire twelve months of the year, a subscription to The Sentinel is the thing. And then, too, it is not expensive.

C. G. Militiamen Successful.

Results of the examinations conducted in Eugene several weeks ago under general orders from the war department have been given out by Adjutant-General George A. White and received in Eugene. The following from Cottage Grove qualified to hold ranks named below:

Northwest Mills Get Big Railway Tie Order

SEATTLE, Wash., Dec. 2.—One million railroad ties, valued at \$400,000 to be furnished by mills in the Northwest, a majority of them from the big lumber plants of Grays Harbor and Puget Sound, will be bought by the Union Pacific system for its 1916 improvements and extensions. The railroad has already placed orders with a number of lumber concerns.

The price averaged \$8 a thousand, 50 cents to \$1 higher than the price prevailing six months ago. The Grays Harbor mills received orders for 540,000 ties and mills and agencies in Centralia orders for 140,000 ties.

H. L. Hudson, district freight agent, with headquarters in Seattle, today said the supplies were for all the roads of the system.

"Specifications called for hewed and sawed timbers of certain size," he announced, "and any mill in the country is entitled to bid. Contracts have been let in the Grays Harbor territory and I presume local orders also have been placed."

Every retail merchant who has tried various kinds of advertising, and given each a fair and impartial test, will tell you that the money he spends for newspaper space turns out to be his best investment. When a man or woman sits down in the quiet of the home, office, store, shop or elsewhere, to read his or her favorite newspaper, he or she is usually in a receptive mood to absorb what the paper contains, and as the result your advertising will be read and given serious thought.

Amunition for the fight against tuberculosis in Oregon has been received by the Oregon Association for the Prevention of Tuberculosis and a call is sent out for additional recruits to handle the Red Cross Seals. One million bright little stickers are now awaiting distribution by volunteers who are willing to devote a little time and effort to the sale so that the anti-tuberculosis work in the state may be carried a step further during the coming year. Orders may be sent to the Association, 503 Corbett Bldg., Portland.

One stroke of a bell in a thick fog does not give any lasting impression of its location, but when followed by repeated strokes at regular intervals the densest fog or the darkest night cannot long conceal its whereabouts. Likewise a single insertion of an advertisement—as compared with regular and systematic advertising—is in its effect not unlike a sound which, heard but faintly once, is lost in space and soon forgotten.

Call for Bids for Wood

Notice is hereby given that the Directors of School District No. 45, Lane County, Oregon, will receive bids for 120 cords of wood to be delivered to said district, on or before the first day of September, 1916, as per specifications on file with District Clerk. Bids to be opened Dec. 11, 1915, at 7:30 p. m., the Board reserving the right to reject any and all bids.

Indians of Ecuador. Perhaps nowhere on the globe do human beings so much resemble passive beasts of burden as in Ecuador. In fact, the Indians used to be designated in documents as "smaller beasts of burden" to distinguish them from pack animals. Loaded, they clamber up the steep streets as stolid as little gray burros. One sees many an urchin of seven years bearing on his back a load of bricks as heavy as he is. One woman, bent under a burden, carries a child at her breast. Another laden woman piles distaff and spindle as she creeps along. Here is a file of barefoot women bent under loads of earth or bricks escorted by a man with a whip.—Professor Edward Alworth Ross "South of Panama."

Holland's Windmills.

A man's wealth may be measured by the stocks and bonds he owns in New York, by the cattle he has in Argentina, by the chain of gold eagles his wife wears in Tehuanatepec, and so on. But in some parts of Holland the number of windmills a man owns gives the clew to his financial rating. They fight the water, shelter the family, afford an occupation and provide an income for their owners.

The Military Attache.

The duties of a military attache are to make himself thoroughly acquainted with every change that takes place in military affairs and to report from time to time on the mobilization, armament and equipment of the power to which he is to be accredited.

More to Come.

Pessimist—You haven't had all that you wanted in life, have you? Optimist—No, but I haven't had all that I didn't want, either.—Brooklyn Life.

WAR UPON PAIN!

Pain is a visitor in every home and usually it comes quite unexpectedly. But you are prepared for every emergency if you keep a small bottle of Sloan's Liniment handy. It is the greatest pain killer ever discovered. Simply laid on the skin—no rubbing required—it drives the pain away. It is really wonderful.

Mervin H. Soister, Berkley, Cal., writes: "Last Saturday, after tramping around the Panama Exposition with wet feet, I came home with my neck so stiff that I couldn't turn. I applied Sloan's Liniment freely and went to bed. To my surprise next morning the stiffness had almost disappeared, four hours after the second application I was as good as new."

DO YOU FEEL HEADACHY? LOOK TO YOUR STOMACH

It is an unusual thing for a druggist to sell medicine under a guarantee to refund the money if it does not cure. Yet this is the way The Modern Pharmacy, the popular drug store, are selling Mi-o-na, the standard dyspepsia remedy.

Never before have they had so large a number of customers tell them that a medicine has been successful as with Mi-o-na. People who a few months ago looked like walking skeletons have put on flesh and today are ruddy and vigorous with perfect digestion and good health.

There is no longer any need for anyone suffering or making their friends suffer on account of dyspepsia. Mi-o-na can always be relied upon. The percentage of cures is so great that there is little risk to The Modern Pharmacy in guaranteeing to return the money if the medicine does not relieve. And they stand ready to do so without any questions.

Headaches, all forms of indigestion, specks before the eyes, dizzy feelings, and all forms of liver trouble are helped by Mi-o-na. A few days' treatment should show considerable gain in health while a complete cure often follows rapidly. decl-8
