

## RUSSIA BEGINS NEW DRIVE IN CAUCASUS

Army Heavily Reinforced on Front of 100 Miles; Turks Report Gains.

Constantinople, via Berlin, and by wireless to London.—A new general offensive along a front of almost 100 miles has been undertaken in the Caucasus by reinforced Russian columns, according to an official statement issued at the Turkish war office, which said:

"On the Caucasus front the enemy, heavily reinforced, commenced a general offensive on January 11. The fighting, which is taking place over a front of nearly 100 miles between Karadach, south of the Arasa river, and Icham, south of Milo, is developing favorably for us.

"Two Russian attacks near Karadach, south of Koglj, on the 13th, resulted in the complete defeat of the enemy, who was compelled to flee in disorder. Prisoners taken at this point say that during four days' fighting each of their regiments lost at least 800 dead."

Petrograd, via London.—An official statement given out says:

"On the Caucasus front in the course of the fighting January 14, we captured 20 Turkish officers and more than 400 men, a quantity of war and engineering material and provisions, one heavy gun and seven other guns and eight machine guns."

## EXPLOSION ON U. S. SUBMARINE KILLS 4

New York.—Four men were killed and 10 others injured, five of them dangerously, in an explosion which occurred on the submarine E-2 while the craft was undergoing repairs in drydock at the New York navy yard. One of the men killed was an enlisted electrician and the other three civilian workers.

The men were at work in the battery compartment of the E-2, discharging the new Edison batteries through a rheostat to measure the voltage, and the explosion occurred in that compartment while they were working there.

A statement indicating that the new Edison storage battery was not in any way responsible for the explosion on the submarine E-2 at the New York navy yard was made by Miller Reese Hutchinson, chief engineer for Thomas A. Edison, and a member of the naval consulting board.

## TURKS DEFEATED ON TIGRIS

British Forces Under General Aylmer Press Enemy Closely.

London.—Turkish forces on both banks of the river Tigris, 25 miles south of Kut-el-Amara, in Mesopotamia, are retreating, according to an announcement made by the official press bureau. The war office adds that after hard fighting the Turks began to withdraw January 13, and are being closely pressed by British troops under General Aylmer. The statement says:

"After their defeat on January 8-9 the Turkish force opposing General Aylmer retired to a position across the Tigris at Orahe, 25 miles down stream from Kut-el-Amara."

## DAMAGE ACTIONS BARRED

Compensation Law in Washington is Interpreted by Supreme Court.

Washington.—The supreme court has construed the Washington state workmen's compensation law as abolishing all damage actions in the courts by workmen in the hazardous employments covered by the law, whether against employers or against third persons.

The decision was in a case in which the widow and children of Benjamin Meese sued the Northern Pacific railway for the alleged negligent killing of Meese, an employe of a brewery at Seattle, alongside the railway's track. The district court held the compensation law abolished all actions for damages and dismissed the suit, but the circuit court of appeals held that it abolished litigation only of employes against their employers. The supreme court upheld the district court's interpretation and reversed the circuit court of appeals.

## Kaiser Again at Front.

Berlin, via London.—The following official communication was issued: "After his complete recovery Emperor William returned Sunday to the war theater."

## All Oregon is to Write East.

Portland.—All Oregon will write to the east this week inviting tourists of the east to make their plans for the summer of 1916 to include a visit to Oregon's scenic wonderland.

## IS YOUR STOMACH CLOGGED WITH WASTE?

Modern Pharmacy Guarantees to Return Money if Mi-o-na Does Not Relieve You.

"It's a pleasure to sell a medicine when our customers come in afterward and tell us how much good it has done them," said Modern Pharmacy, the popular druggist, to a Sentinel man, "and that is why we like to sell and recommend Mi-o-na, the dyspepsia remedy. We are going to guarantee it in the future, and will return the money to any purchaser of Mi-o-na whom it does not help. That may seem rash but our customers have said so many good words in its favor that we do not expect to have many packages returned. "Anyone who has dyspepsia, whose food does not digest well, and who has to take thought as to what he can eat, and when, can leave 50 cents deposit at our drug store and take a box of Mi-o-na and if the remedy does not regulate his digestion and help his dyspepsia he can withdraw his money."

This shows great faith in the merit of Mi-o-na. It is really a most unusual medicine and the rapid increase of sales since the Modern Pharmacy introduced it in Cottage Grove shows that it does all that it is claimed to do—relieves dyspepsia, regulates digestion and enables those who use it to eat just what they want with no fear of trouble after.

Let your friends in other states know of the country you live in, and they may want to come here too. Extra copies of The Sentinel for that purpose, two for 5 cents. dec22tf. Start something with a want ad.

## MESSAGE OF JOY TO CATARRH SUFFERERS

Hyomei Guaranteed by Modern Pharmacy to Relieve or Money Refunded.

The popularity and increase in sales of Hyomei here in Cottage Grove are unique in the annals of medicine. Such astonishing successes have been made by this remarkable remedy that the proprietors have authorized the Modern Pharmacy to sell every package of Hyomei under an absolute guarantee that it will knock out the catarrh for good. If it does not, the purchaser can have his money refunded by the Modern Pharmacy.

Hyomei is no ordinary remedy. It is pronounced the only method of treatment that sends by direct inhalation to the most remote part of the air passages, a balsamic air that destroys all catarrhal germs in the breathing organs, enriches and purifies the blood with additional ozone, and gives permanent and complete relief from catarrh.

The complete Hyomei outfit is inexpensive and consists of an inhaler that can be carried in the vest pocket, a medicine dropper and a bottle of Hyomei. The inhaler lasts a life time, and if the bottle does not cure, an extra bottle can be secured for a trifling sum. It is more economical than any remedy advertised for the cure of catarrh, and is the only treatment known to us that follows nature in her methods of treating diseases of the respiratory organs.

## Banks Must Tell Business.

The comptroller of the treasurer seems determined to have every detail of the business conducted by national banks. In a call issued last week to all national banks requiring them to report their condition at the close of business on Dec. 31, the comptroller goes further than at any previous time to learn if money is being loaned by national banks in violation of the state usury laws. He asks for a list of loans by all banks during 1915 "upon which interest was charged or collected, either in the shape of interest, discount or commission, at rates which would amount to more than the equivalent of six per cent per annum."

"Banks are cautioned," says the call, "to prepare this statement with care and accuracy. If errors or discrepancies should be discovered which may seem to make it necessary to verify the reports submitted by all the banks, the bank examiners will be given instructions accordingly."

The call also asks banks to state whether it is their custom to require borrowers to carry deposits when loans are granted, how much they are now loaning to non-depositors, and how much is loaned and not secured by collateral. The aggregate of amounts which borrowers have refused to pay banks because of alleged usury is asked, and also the total payments made by banks as penalties for usury. The call asks for complete information as to the liabilities, salaries and connections of officers and directors of banks.

## Weinhard Plant to Run.

Portland, Ore., Jan. 15.—Rather than close down their great plant at Portland, the Weinhard company has retained its meff and is manufacturing a new temperance drink in strict conformance with the Oregon prohibition law. This drink is made of Oregon hops and barley and contains vital strengthening qualities which will make it a favorite throughout the state. Mr. Wessinger is determined in his effort to prevent any violation of the law in the sale of this new product. He requires a cash bond of \$250, which is subject to forfeit if any dealer is guilty of selling intoxicating liquors under the guise of this new temperance drink. "Here is one bit of proof of our policy regarding this new drink," said

Mr. Wessinger in talking with a reporter the other day. It was a letter written to a man in Madras, Ore. "Now in regard to yours of January 3d in which you say that your district attorney is going to prevent you from selling our Nectar, all we have to say is, that if this should really be the case, we would prefer not to ship any at all and return to you your money paid to us." "We are frank to state," continues Mr. Wessinger in this letter, "that we do not desire, even in the remotest way, to offend any public official or to do anything contrary to law. Our Nectar drink is practically free from alcohol, containing much less than allowed by law, and therefore is strictly a temperance beverage."

## "Excuse Me" Gets Many Laughs.

"Excuse Me," a Pathe Gold Rooster photo play at the Rex Monday and Tuesday, stood out in very pleasing contrast to the usual heavy dramatic offerings. "Excuse Me" was of the lighter comedy vein, bright but not vulgar comedy, and made a big hit here.
