Pacific Highway Inspected.

E. I. Cantine, chief deputy state highway engineer, made a tour of inspection yesterday over the Pacific highway between Eugene and Divide, and was accompanied by County Surveyor H. W. Libby. Mr. Libby returned to Eugene last night at 5 o'clock, while Mr. Cantine continued his trip of inspection south.

Mr. Cantine and Mr. Libby left Eugene early yesterday morning in a motor car, in order that Mr. Cantine might inspect the highway during the winter months. He told Mr. Libby he was well pleased with the condition of the road and offered no suggestions as to changes.

Mr. Libby says the entire trip to Divide was made in a motor car without the use of chains on the wheels of the vehicle.

Mr. Cantine declined to make public any future plans for highway work in Lane county. He said he was making a trip of inspection and was not ready to make known future plans.

Mining Locations Filed.

A number of mining locations notices were filed for record with the clerk of Lane county yesterday. These are locations of claims in the Bohemia district, formerly located in Douglas county, but with the change in the boundary between Douglas and Lane, are now in Lane county and it is necessary to file them with the Lane clerk. They were previously on record on the books of Douglas county.

The names of the locators and the names of their respective claims are as follows: O. G. Gilbertson, "Home Run," "Bostwick," "War Eagle," "Morning Glory" and "Home Run" extension; I. G. Davidson, "Modoc"; L. M. Leiter, "Specimen."

Stedham Home Destroyed.

Fire which started from some unknown cause destroyed the Rebecca Stedham home on the west side last evening. No one was in the house at the time the conflagration started and the alarm was not turned in until the fire had gained such headway that the house could not be saved, so the firemen made no attempt to throw water on it although they had the hose ready. A fire had been started about 5 o'clock and the fire that destroyed the house may have started from a defective flue.

For Married "Booze" Fighters.

The following item was handed us for publication by a man who says he would be rich now if he had read it 20 years ago and followed the advice given:

To the married man who thinks he cannot get along without his regular drinks, the following is suggested as a solution to the bondage of his habit:

- 1st. Start a saloon in your own home.
- 2nd. Be the only customer and have no license to pay. Give your wife \$2 to buy a gallon of whiskey, and remember there are only 69 drinks in a gallon.
- 3rd. Buy your drinks from no one but your wife, and by the time the first gallon is gone she will have \$8 put in the bank and \$2 to start business again.
- 4th. Should you live 10 years and continue to buy booze from her, and then die with snakes in your boots, she

will have enough money to bury you decently, educate your children, buy a house and lot, marry a decent man and quit thinking about you.

Card of Thanks.

We hereby express our thanks to the many friends and to the order of Rehearsals for their sympathy, help and floral offerings during our recent sorrow and bereavement.
