In every community a certain number of stores serve the needs of the people—some of these stores being big, and managed on big lines; others but neighborhood shops, managed as well as may be with the available resources of the merchant. The relative importance of each store is nearly always indicated by the relative importance of the advertising. One who never visited this city, seeing a few copies of consecutive issues of this newspaper, could list the stores of the city in the order of their value to the community.

D. P. BURTON IS OUT FOR COUNTY ASSESSOR

Cottage Grove Man Outlines Platform Upon Which He Will Stand for the Nomination.

D. P. Burton of this city has announced his candidacy for the nomination for county assessor on the republican ticket. His opponent is the present incumbent, B. F. Keeney, who has already announced his candidacy.

Mr. Burton has previously served ten years in the office. In his announcement, Mr. Burton says:

"I believe that my former experience of 10 years in this office qualifies me to state that I will be enabled, if nominated and elected to the office, to save the taxpayers at the least calculation \$2500 per year in conducting the office and at the same time give better results than with the present system.

"To illustrate a few savings I know possible: I would give all my time to the office, allowing no outside interests to interfere with time paid for by the county and I am satisfied that my former experience in this office has made me competent to personally oversee the office force, thus eliminating the expense of a head deputy at \$1200 per year.

"I also believe that with no extra office expense, the tax roll can be arranged alphabetically so that the tax collector can more economically collect the taxes and in support of this I am informed that the present tax collector has stated that had they been so arranged he could save \$2000 on the expense of collecting this year's taxes alone.

"Therefore, comparing the cost of conducting this office the past four years, which has been \$40,000, with the savings as stated above, I am confident that with my former experience of 10 years as county assessor I can, if nominated and elected, during the term of four years for which the assessor is elected, save the taxpayers of Lane county at least \$10,000."

Improvement in Freight Service.

Cottage Grove now has a daily local freight service each way. Heretofore the local freight has run only every other day. This is in addition to the daily fast freight service.

CHAMBERS MILL EMPLOYEES GET A RISE

That there has been a slight improvement in lumber conditions here will be indicated to the employees of the J. H. Chambers mill in their next pay envelopes when they will be paid at the rate of \$2.00 a day, instead of \$1.75, as heretofore. The men have not yet been notified of the rise and it does not apply to the men in the logging camps. It is effective from Feb. 15.

Henry W. Churchill Dies.

Henry W. Churchill, formerly of Cottage Grove, died suddenly of heart failure while visiting his daughter in Los Angeles.

He was born in Iowa Dec. 8, 1848, and with his parents crossed the plains by ox teams and located west of Roseburg in 1853. In 1872 he married Elysebeth Cathcart and raised a family of six daughters. Mrs. Churchill and Burnetta Brestow, have died. The surviving children are Mrs. Eva Pickard of Portland; Mrs. Allace Baker of Portland; Mrs. Pearl Burnfield of Los Angeles; Mrs. Grace Wagner of Los Angeles. Mr. Churchill was a member of Mountain lodge No. 103, I. O. O. F., of Drain, where he had been engaged in contract work of late years.

In early days he gave valuable service to the government in fighting against hostile Indians. The body will be brought to Cottage Grove for interment and the funeral will probably be held Saturday or Sunday.

THINGS WE THINK
Things Others Think and What We Think of the Things They Think

When a young man gets to going too fast he begins to lag behind his slower and soberer brothers.

A business failure has been laid to woman's non-use of petticoats—but this does not mean that the failure was the result of time wasted by the male employees keeping their eyes on the street. The trouble was that the firm that failed was a manufacturer of petticoats.

Now that woman's suffrage is becoming popular we may expect to hear of women going to the poles, both north and south.

If Greece gets into the war the fat will be in the fire.

You'd think more women would have indignation, but the truth is they don't swallow half the things their hubbies think they do.

One stroke of a bell in a thick fog does not give any lasting impression of its location, but when followed by repeated strokes at regular intervals the densest fog or the darkest night can not long conceal its whereabouts. Likewise a single insertion of an advertisement—as compared with regular and systematic advertising—is in its effect not unlike a sound which, heard but faintly once, is lost in space and soon forgot.

Flour and Flowers

Flowers will soon be in bloom again, which is an indication that the supply of old wheat is running low, consequently it behooves the economical and far-seeing man or woman of the house (in a case like this there should be no dispute as to who is boss) to lay in a supply sufficient to last over until the next crop has had time to age. Our prices are as low as any on single sacks of equal quality. Extra special on five, ten and twenty sack lots.
