

Worth Careful Thought

Do you read the label to know whether your baking powder is made from cream of tartar or, on the other hand, from alum or phosphate?

Royal Baking Powder is made from cream of tartar, derived from grapes, and adds to the food only wholesome qualities.

Other baking powders contain alum or phosphate, both of mineral origin, and used as substitutes for cream of tartar because of their cheapness.

Never sacrifice quality and healthfulness for low price.

ROYAL BAKING POWDER CO.
New York

Society

A successful private dance was given in Moose hall Thursday evening by a committee of women composed of Mrs. U. O. Knowles, Mrs. Will Hall, Mrs. Van Allison, Mrs. Elbert Bede, Miss Eunice VanDenburg and Miss Belle Burkholder. About 40 couples enjoyed themselves from 8 to 12. Punch was served.

Mrs. Wm. Hall and Mrs. E. A. Gleason entertained very pleasantly Friday and Saturday. Contests were the diversion for the first day. Mrs. Lizar won the prize, a potted plant, for the greatest proficiency in the art gallery contest. There were also a Pat contest and a green contest. Cards were the diversion for the second day. Mrs. Frost winning high honors. The Hall home was prettily decorated in green and yellow, shamrocks predominating. Dainty two-course luncheons were served.

The Constellation club meets Thursday with Mrs. Herbert Eakin. Mrs. Henry Veatch and Mrs. Herbert Eakin are the hostesses.

In an item concerning hostesses at the Constellation club in last week's issue, it was stated that Mrs. H. A. Miller, Mrs. K. K. Mills and Mrs. T. C. Wheeler were hostesses. The Sentinel is informed by one of the other women named as one of the hostesses that Mrs. Wheeler alone was the hostess and that Mrs. Miller and Mrs. Mills were assistants.

The M. P. G. club met yesterday afternoon with Mrs. Chas. Beals and the

afternoon was spent with the usual fancy work. A dainty luncheon was served. Miss Della Atkinson and Mrs. Nelson Durham were guests. The next meeting will be with Mrs. Leon Des Larzes.

A business meeting of the Social Twelve club was held Thursday with Mrs. Clara Burkholder. The table was decorated in green and the favors also were green. The following officers were elected: President, Mrs. Minnie Miller; vice president, Mrs. A. L. Monroe; secretary, Mrs. Clara Burkholder.

The Emanon club met Thursday with Mrs. Chas. Beidler. The afternoon was a happy and busy one. Delicious refreshments were served in two courses. Mrs. Roy Short, Mrs. Mary Smith and her mother, Mrs. Alfred Powell and Mrs. Bert Trask were guests.

FADS AND FANCIES

Condensed milk is cheaper and as good as fresh milk for the making of cocoa, puddings and ice cream.

A small piece of camphor in the water in which cut flowers are put will make them last much longer.

If stockings are turned inside out when they are put with the general laundry they will not be linty.

The efficient housekeeper knows that sharp knives save time, patience and give better results than dull ones.

When iodine is spilled on the sheets or clothing, simply soak the article in water for twenty-four hours.

A delicious drink for hot weather is made by squeezing the juice of two limes into one bottle of ginger ale.

To prevent milk from curdling when used in tomatoes, mix a little bicarbonate of soda before mixing the two.

A slice of potato is an excellent thing to clean white oilcloth which has become disfigured by hot cooking utensils.

There is economy in stocking the pantry with groceries that can be bought when the stores advertise a few cents' reduction.

If the wire mattress becomes rusty, try rubbing it with paraffine; then dry thoroughly and give both sides a coat of black lacquer.

If a layer of sawdust is placed on the floor before laying the oilcloth, it will make a much softer tread and increase the life of the cloth.

Raisins will stone much more easily if they are placed in the oven until

they are heated through. They can then be easily split and the stones removed.

When you have a cork that is too large for the mouth of a bottle in which you want to put it, boil the cork for five minutes. Then you can squeeze it into the mouth of the bottle without difficulty.

To clean marble take a large lump of whiting and moisten it with water in which has been dissolved a piece of washing soda. Put some of this whiting on a flannel and rub the marble well, leaving the whiting on for some hours. Wash off with soap and water, dry well and polish with a soft duster.

TESTED RECIPES.

Rock Cake—Rub three cupfuls of sifted flour with three ounces of butter. Add a quarter of a cupful of granulated sugar, three ounces of currants, an ounce of candied peel, cut in shreds, two teaspoonfuls of baking powder, a beaten egg, some grated nutmeg and milk, enough to make a stiff dough. Put on a greased tin in rough little piles, 12 or 15 of them. Bake for 25 minutes.

Unleavened Bread, or Matzas—From the earliest bible times to the present, the Hebrew people have observed the feast of the Passover by eating unleavened bread. This bread is a hard cracker made from unfermented dough. The process of making is very simple. Mix flour and water to a very stiff dough. Roll this into a thin sheet, cut into round or square pieces and bake in a hot oven.

CHURCH NEWS

[Every religious organization is invited to use this column for announcement of its services and other news. Contributors are requested to omit exhortations and other editorial matter, and to make the announcement of services as concise as possible. Social functions, etc., and news outside of the weekly announcement may be elaborated upon.]

CHRISTIAN CHURCH

T. B. McDonald, Pastor.
Friday evening, choir practice.
Sunday, Bible School at 9:45 a. m. Preaching at 11 a. m. and 7:30 p. m. C. E. 6:30 p. m. Prayer meeting Thursday at 7:30 p. m.
Ladies' Aid meeting each Wednesday afternoon.

T. B. McDonald will close his very pleasant relations with the church as its minister next Sunday.

He has been with the church for sixteen and one-half months. He leaves on the most cordial terms to take up the work at Heppner, Oregon, hoping that the higher altitude and drier climate will be beneficial to his health.

He takes this opportunity to express to the community in general his thanks for the unflinching courtesy he has received at the hands of its people.

The C. E. society at the Christian church is making splendid progress under the efficient direction of Miss Ware of Eugene.

PRESBYTERIAN CHURCH

D. A. McLeod, Pastor, 132R

MAYORS UNITE FOR NATIONAL DEFENSE

St. Louis, Mo.—A permanent organization of American mayors to promote the cause of national defense was effected here at a meeting of mayors and their representatives from 80 large cities.

The organization is to be known as the National Defense conference of mayors. Mayor Kiel, of St. Louis, who presided, appointed a committee on resolutions of 11 men. This committee is to report Saturday afternoon.

The conference at its final business sessions adopted resolutions declaring for universal military training, for a navy that will make this country the first naval power in the world, for the locating of arsenals and munitions plants at places distant from either coast and from the Mexican or Canadian borders, for the mobilization of physical resources of the country, for the standardization of all materials used in war, for the organization of transportation service for use.

The resolutions urge that congress pass laws making the principles set forth in the resolution effective.

ZEPPELINS RAID ENGLAND

Three Men, Four Women and Five Children Listed as Dead.

London.—Twelve persons were killed and 33 injured in Sunday night's Zeppelin raid. Three Zeppelins took part in the attack. This information was given out officially.

The statement says: "The number of Zeppelins which took part in the raid is now believed to have been three."

"After crossing the coast, the airships took various courses, and from the devious nature of their flight apparently were uncertain as to their bearings. The area visited included Yorkshire, Lincolnshire, Rutland, Huntingdon, Cambridgeshire, Norfolk, Essex and Kent."

"As far as is known, about 40 bombs were dropped altogether. The casualties, so far as ascertained, amount to: 'Killed, three men, four women, five children; injured, 33.'"

La Follette's Name Filed in Wisconsin

Madison, Wis.—Petitions for placing the name of Senator R. M. La Follette on the official ballot as a candidate for the republican nomination for president and for placing the names of 26 La Follette candidates for delegates to the republican national convention were filed in the office of the secretary of state.

Prohibition Bill Passed in Virginia.
Richmond, Va.—The lower branch of the Virginia assembly passed the state-wide prohibition bill, 85 to 5. The bill had passed the senate. One quart of whiskey a month a person is the limit placed by the bill on importations of intoxicants from other states.

CONTAMINATION IS NOT IN CITY WATER

(Continued from first page.)

all seepage over to the Layng creek watershed.

Your committee found that about 70 lengths of wooden pipe belonging to the city is being used by the U. S. Logging Co. to assist in carrying water into the camp for use of the camp. While the pipe has not been greatly injured, nor the city suffered any great loss from its use by the logging company, we would suggest that as a matter of business the city council should either arrange for use of the pipe by the logging company, or require payment for same. We were informed that payment was offered by the logging company at the time the pipe was put into use. This pipe will be needed for the improvement suggested in the early part of this report.

Respectfully submitted:
C. M. SHINN,
A. J. ARMSTRONG,
R. S. TRASK,
ELBERT BEDE,
Committee.

The committee's report only refers to conditions at the time of its visit and does not refer to muddy water previously caused by snow or rains or by use of water from the west side reservoir.

Regarding the possibility of the mixing of Layng creek water at the old intake, E. S. Holderman, forest ranger, told the members of the committee that at the time a part of the pipe line had been taken out by high water, and when the Prather creek supply was shut out of the pipe, not a drop of water was coming through the pipe, thus indicating positively that no Layng creek water was getting into the pipe. As this was not a finding of the committee, it was not included in the report, but was referred to by Committee-man Armstrong at the commercial club meeting.

The statement was made by Councilman Wheeler at the commercial club meeting, following the committee's report, that the U. S. Logging Co. was using the city's pipe by permission of the water commissioner.

The committee was given further time to examine into conditions at the west side reservoir, where the city's water has come from when the other system has been out of commission. It is understood that this water is always muddy.

PRINTING PRICES ADVANCE

Paper Houses Withdraw All Price Lists for Their Own Protection.

As a result of the war, it may soon be impossible to get colored paper for use in printing and prices on all kinds of printing will have to advance as the result of continued advances in the prices of paper goods and ink. Advances have been regular and dealers in paper have now withdrawn all price lists. Type metal is almost double its price at the beginning of the war, due to shortage of antimony and other metals. Other lines, notably drugs, have been similarly affected and prices have advanced.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Southern Pacific Issues Walnut Book.

The Southern Pacific has recently issued a handsomely illustrated book, "Oregon Walnuts." The text was written by C. I. Lewis, chief of division of horticulture, Oregon Agricultural college. The cover shows a collection of Oregon walnuts in natural colors. The interior pictures are taken from various walnut orchards throughout western Oregon, and show, in addition to general views, technical illustrations of grafting, pruning, budding, etc. Copies of this book can be obtained from Southern Pacific agents, or by addressing John M. Scott, general passenger agent, Portland, Oregon.

ROY E. SHORT

ROSEBURG NEWS: SOME PEOPLE WHO are in business in certain cities, and Roseburg is one of them, think that their daily and weekly papers should do all the boosting for the city, and incidentally the business of these persons also, wholly at their own expense, as a glimpse of the advertising columns of any of the papers will show. Every time an article boosting your city appears in the paper of your home community, Mr. Business Man who doesn't advertise, it helps your business, and you do not reciprocate. No respectable publisher will ask you to insert your advertisement out of sympathy to fill space, for he is candid in the belief that a judicious use of his columns will result in actual benefit many times in excess of the nominal cost. The issue of the paper you are now reading enters nearly one thousand homes within an hour distant from your place of business, surely in all these, some one will be found who is scarcely aware of your existence and your name. Your wares and your prices constantly before their eyes will soon bring them into connection with them. Try it for a while.
