LACK OF RESPECT.

THE SENTINEL is not an apostle of tonyism, or anything resembling that, but it does believe in a show of proper respect for those worthy of such respect, and it wishes to unequivocally denounce the disrespect which school students of the Cottage Grove country show to officials of the state educational department.

A year ago a fist fight was staged at the high school for the edification of Assistant State Superintendent Wells.

Last week State Superintendent Churchill visited this vicinity. A rally was held at The Cedars school.

After the meeting it was found that boys on mischief bent (presumably boys from the city) had tinkered with the automobile in which Mr. Churchill was to return to the city and it was some time before the trouble was found and the car put in condition for the return trip.

The state superintendent asked if that was a regular thing when a state official visited Cottage Grove. Never before had he been shown such disrespect.

Such disrespect upon the part of the boys who play these pranks is inexcusable. Boys who purposely show such disrespect are rowdies and should be denied the privileges of our public institutions.

The Sentinel has heretofore refrained from publishing the names of boys who pull off these stunts in deviltry, but it may not always act so charitably.

The job of punishing boys who have no sense of honor is made hard by the fact that parents having boys of that kind usually refuse to cooperate with the superintendent. Perhaps a little publicity would be efficacious. Perhaps some people would be surprised to learn through the newspaper who the culprits are.

PORTLAND'S PORCINE INCONSISTENCY.

IT IS BUT a short time ago that Portland mill men were vociferating and reiterating that Portland mills should have freight rates on a parity with Willamette valley mills into a small portion of Northern California territory, despite the fact that the haul from Valley mills was shorter and despite the fact that Portland mills then enjoyed, and still enjoy, parity rates into the larger part of Northern California territory and have a big advantage in water rates to coast points and to points reached by rail from seaports.

Now, however, as The Sentinel predicted they would do, the Portland mills are demanding a preferential rate over Valley mills into Eastern Oregon, Utah and Idaho.

Their argument for a preferential rate is that the haul is shorter, yet that is the very argument which the Portland mills cast aside as of no importance when such argument was against them.

The Portland mills have parity rates with the Valley mills into the larger portion of northern California, which is a shorter haul from Valley points, but parity rates into a territory which is closer to Portland is a high crime.

The truth of the matter is that the

500 ACRE TRACT

nine miles from Cottage Grove, farm land and timber; ten million feet of timber; well watered and on good road; \$20 per acre; will furnish buyer for timber at \$5,000. Veatch & Spencer. jn22j12

Good Thing for Speculation

Thirty-four acres of fine land on good improved road, within one-third mile of city limits of City of Cottage Grove. Terms can be had. Call at this office. wia-jly27fc

NEW 7 ROOM BUNGALOW

Two large lots, close to school and pavement, at a bargain if taken soon. Terms if desired. A. J. Woodard, owner. jly27fc..

there is any possibility of getting adopted!

Would he turn the land over for settlement at \$2.50 per acre and make a few lucky claimants wealthy over night?

Does he know that if the land were thrown open for settlement there are now enough claimants and squatters to take up every acre of the land? Nearly tion only.

all of these would take it for specula-

THINGS WE THINK

Parents make themselves foolish telling how smart their offspring are.

We kick about expenses of government and hold salaries down so low that only those with a competence can afford to accept them, and then kick because the wealthy get into power. But probably putting the salaries high enough to make them worth while would work fully as much harm by attracting every able-bodied man into politics.

War special from Corvallis Gazette-Times: A pacifist seems to be an individual who stops to pray instead of climbing a tree when he sees a mad bull dog headed his way.

Thomas Edison says that when he stops work he gets sick. It's fortunate that the great majority have harder constitutions or our hospitals would not be able to handle all the business.

If twice as many crimes reported are committed by single men as by married men, a lot of wives are not telling all they know.

Patriotic spasm from Glendale News: "Shortage of German dyes may turn our newspapers yellow, but not our flag."

Quite often a man who is a whirlwind about the office, assumes the proportions of sighing summer zephyr when it comes to breezing about the home.

A well known woman author is reported to have said that women love more deeply than men. Necessarily, for the man in love is the shallowest thing imaginable.

McMinnville News-Reporter: "When you think you could do what another fellow's doin' a heap better'n what he's doin' it," said Uncle Eben, "remember dat a lot of other fellers is thinkin' de same thing about what you's doin'."

An officer of the law refused to use a search warrant on a half dozen bootleggers. Give us the warrant and we'll locate the stuff.

State officers with a gripe refused to lay off, says a headline. Who ever heard of an officer relaxing his hold?

The person with the audacity to claim that there is no hell, never did time as a devil around a country print shop on press day when things were going wrong.

"Why is the road drag not used more?" asks Editor Taylor of the Mollala Pioneer. "A day's work at the right time is better than a week's work done later. Taking care of the roads we have will help in getting better ones."

The dress doesn't necessarily make the woman, but some of them show how she is made.

About the worst pessimist in the world for the time being is the little boy who has been shown a cord of wood which he must saw and split during vacation.

After an automobile turns turtle it does not travel as fast as it did before.

The folks who are looking forward to the end of the world are going to injure their eyes.

Uncle Sam trying to act as a peace intermediary at the present time would probably be in about the same position as the umpire in a ball game between two home teams.

We refuse to convict ourselves upon our own knowledge of our sins.

Politics doesn't make crooks and grafters of men. It merely develops these traits that were already there.

Did you ever notice how much more study the slender girl puts into the proper manner to cross her lower limbs than does her more chunky sister.

Talking about the eternal fitness of things, we read an ad. of Green & Brown, expert dyers, who have their place of business on Whiteside street.

In Europe a newspaper for the boys in the trenches is printed on thin sheets of dough, so that it may be eaten after serving its purpose as a newspaper. Giving the boys inside information as it were.

The man who is reading the other side of your newspaper in a street car thinks you are a boor if you don't ask him if he is ready to have you turn the page.

For Growing Children
there is no better food than
Grape-Nuts
with cream or good milk.

Many diseases of childhood and youth are due to faulty diet—a diet that restricts the amount of needed mineral salts, the lack of which, as your family physician can tell you, often leads to rickets and other diseases of mal-nutrition.

Grape-Nuts, made of whole wheat and malted barley is rich in these vital mineral elements so necessary to health.

This food tastes good, is easily digested, and many letters from parents, after trial, testify

CHINESE RAISE CHICKENS IN WAYS NEW TO OREGON

There Are Other Means of Hatching Eggs Than Setting Hens or Buying Expensive American Incubators.

How his rival in the egg business gets the hatching done may be of interest to the egg producer of Oregon. For the orthodox two ways in Oregon—those of setting a hen or buying an incubator—are often too expensive for the Oregonian's rival, who thereupon has recourse to one of several methods.

The rival is the Chinaman, who in 1914 exported 32,874,127 dozens of fresh and preserved eggs and 16,693,609 pounds of albumen and yolk, to all countries. There were received in Portland, for example, between October 3, 1913, and August 31, 1914, 305,420 dozens of Chinese eggs.

There are few chicken farms in China, but nearly every Chinese family keeps hens. The million of eggs produced daily are collections of a dozen or less from each of a myriad of households. No special attention is given to breeding. Fowls are usually small and produce small eggs, and the following are some of the ways the eggs are hatched, as reported by consular agents at request of the University of Oregon school of commerce:

Old women sometimes do the hatching in one poverty-stricken district near Chefoo. They strap eggs about their waists under their outer garments and carry them till the chickens come. This method is to save fuel.

In interior districts near Amoy, unhusked rice is roasted and a three-inch layer is spread, while lukewarm, in the bottom of a tub. One hundred eggs are laid in the rice. Alternate layers of two inches of rice and 100 eggs are then spread until there are 500 eggs in the tub. After 24 hours the eggs are taken out and the rice reheated. When put back, center eggs go to the outside and layers shifted. This great labor comes to a climax when the Chinamen are endeavoring to keep the hatching brood from smothering under the rice.

In the province of Shantung, eggs are put in earthenware jars, which are set upon beds of brick and clay in which slow fires burn. The eggs are frequently turned.

The consul at Hankow reports a method he says is thousands of years old. In buildings 50 feet long and 16 feet wide, kongs are placed along the sides, each holding about 100 dozens of eggs. Straw is burned. Heat in the eggs is kept uniform by removal from one basket to another, those on top of one basket being placed in the bottom of the adjoining one.

Methods of collecting eggs, export methods, laws governing importation into Pacific coast states, and much other information of interest to Oregon poultrymen is contained in a bulletin on "Chinese Eggs," which may be had free by addressing the school of commerce of the state university. The bulletin shows, for example the following comparison of transportation rates on Chinese eggs from Shanghai by water and on Oregon eggs from four representative points in Oregon by express:

Rates per 100 pounds. Freight rate from Shanghai to Pacific coast ports is \$7.55. Express rate from La Grande to Portland, \$1.20. Express rate from

Pendleton to Portland, \$1.20. Express rate from Roseburg to Portland, \$1.00. Express rate from Eugene to Portland, 65 cents.

Photo Plays

Here and There About Plays and Players

A Worthy Successor.

The spectacular photoplay, "The Ne'er-Do-Well," produced by the Selig company from the story written by Rex Beach, is a worthy successor to "The Spoilers," that other wonder play from the pen of the same author and filmed by the same company. "The Ne'er-Do-Well" will be presented on April 26 at the Rex theater. The Selig stars who made "The Spoilers" a masterpiece, aid in the realism of "The Ne'er-Do-Well." It is a story

full of unfamiliar fascination of Panama. A special company of Selig players, including Kathryn Williams, Wheeler Oakman, Frank Clark, Jack McDonald and others were escorted to the Panama canal zone by William N. Selig in order that the proper atmosphere for scenes necessary in Rex Beach's story might be filmed. There is a wonderful fight that equals the fight in "The Spoilers."

Chas. Beals has made the greatest scoop of his career in securing Rex Beach's "The Ne'er-Do-Well." The Rex theater will play this picture on Wednesday, April 26. This will be the first time that residents of Cottage Grove have been given an opportunity of seeing so great a photoplay, so early in its career. "The Ne'er-Do-Well" has been produced, directed and acted by the same cast and company that made "The Spoilers" famous.

Report of the Condition of The First National Bank

at Cottage Grove, in the State of Oregon, at the close of business March 7, 1916
