

Society

Mrs. Ernest Sears was hostess to the Emission club Thursday. After a busy social hour, dainty refreshments were served in two courses. Mrs. Otto Heinie was a guest. Mrs. Bert Trask was elected as a new member. The club will meet with Mrs. Clyde Humphrey next week.

In giving the names of the members of the entertainment committee of the Eastern Star social session last week, the name of Mrs. G. O. Knowles was omitted by error.

Mrs. Jennie Jury was a genial hostess to an informal party of sixteen Friday afternoon. The afternoon was spent in crocheting and social chat. A dainty luncheon was served in two courses. Guests present were: Mrs. Geo. Hall, Mrs. Will Hall, Mrs. Clara Burkholder, Mrs. Van Allison, Mrs. A. W. Kime, Mrs. O. L. Nichols, Mrs. E. A. Gleason, Mrs. H. A. Miller, Mrs. A. L. Monroe, Mrs. C. A. Frost and Mrs. Elbert Bede.

Miss Gertrude Lockwood gave a family reunion March 28 in honor of Mrs. Ann Wallace, who has been an invalid for five years and a sufferer from a dislocated hip. The guests were the following: Mrs. Harriet Wallace, Mr. and Mrs. Burn Veatch, Ves Veatch and Robert Veatch, including all brothers and sisters except Mrs. N. J. Whorton of Kirbyville, Ore.

The senior boys of the high school were entertained at dinner Sunday at the E. R. Spencer home.

The marriage of Miss Cora Myrtle Purvance and Roy Bell Wilson took place Sunday at high noon at the home of the bride's mother, Mrs. Sarah Purvance, Rev. H. N. Aldrich officiating. The wedding march was played by Miss Gertrude Aldrich and the ring ceremony was used. They were attended by Mr. and Mrs. Jackson F. Godard of Springfield. Only members of the immediate families of the contracting parties were present. The young couple are both well known here and were active workers in the First Methodist church. Mrs. Wilson will complete her present term of school in Corvallis and then join her husband in Washington, where he is employed in the reclamation service.

Mrs. E. C. Shay, Mrs. Rex Gleason and Mrs. K. K. Mills will be hostesses at the meeting of the Constellation club Thursday afternoon at Masonic temple.

Mrs. A. L. Monroe entertained a few friends informally Thursday evening at five hundred. Light refreshments were served.

The M. P. G. club met yesterday afternoon with Mrs. Leon DesLarzes in her new home. There was the usual work and light refreshments.

Mrs. Herbert Eakin entertained the Social Twelve club pleasantly Thursday afternoon. The usual work and selections on the victrola took up the afternoon. The home was prettily decorated in ferns and tulips and a dainty cafeteria luncheon was served. Guests of the club were Miss Esther Silsby, Miss Lulu Currin, Mrs. Helen Silsby, Mrs. E. R. Spencer, Mrs. VanBoskirk, Mrs. Ora Hemenway.

The Monday Evening club of the Presbyterian church entertained pleasantly last night. A short and delightful program was rendered under the direction of Miss Silsby. Candy and flowers were sold at booths which were tastefully and beautifully decorated.

FADS AND FANCIES.

When a fire is too slow it is usually due to a lack of draught. When building a fire, always place the sticks of kindling so that they will lie in opposite directions. Pile the coal on lightly. There is nothing that chokes a stove or furnace more quickly than paper, so do not use it as a fuel, and only sparingly to start a fire. If a fire is merely low, a teaspoonful of sugar will revive it. Old fryings can be used for the same purpose.

A cheap home-made kindling may be made as follows: Soak some corncobs or saturate sawdust with the crudest cheapest kerosene that you can buy and keep in a cool place far away from all fires. Dip out a little sawdust or a cob into a newspaper, put it into the stove

under the wood and it will burn quickly and long enough to give the wood a good start.

Perhaps you have grown tired of the usual way steak is served. If so, try this: Buy a good thick one, either sirloin or porterhouse. Season slightly with pepper and salt, and broil until it is moderately brown. Have prepared enough chopped parsley and white onion to cover it. Dot it thickly with dabs of butter and bake in a quick oven for five minutes. The onion, parsley and butter sink into the meat, the parsley absorbing the strong flavor of the onion. Once a steak is served in this manner, the usual fashion of serving it will seem tasteless.

The trick which will save the sauce should be pulled off just before the strained flour is poured in. The flour should be mixed with cold milk instead of water, whenever it is possible, and then the solution is strained. When the hot milk on the stove is almost ready to boil, a few tablespoonfuls of the hot milk should be taken out, mixed with the cold milk and flour until the mixture in the bowl is warm; then when the milk boils, the warm flour and milk can be poured into the pot of hot milk, stirring constantly, and it will be found that the resulting cream sauce is smooth and quite clear of lumps.

Unless this mixture of cold and warm is done the flour will form in clots the minute it is poured into the hot milk, making the sauce impossibly lumpy.

In order to save time and work I keep short-handled teaspoons in my jars of baking powder, salt, tea, mustard, baking soda, etc., and tablespoonfuls in the jars of rice, cornstarch, and similar articles, writes a contributor to Good Housekeeping. At the ten-cent store a judicious purchase of tin and aluminum spoons for the various articles cost me very little, and has more than paid for itself in the convenience of always finding the measure at hand, and in the time saved in washing spoons.

A very easy and effective way to get rid of moths in a rug or carpet, says the Los Angeles Express, is to wring a long strip of cloth out of cold water, and lay down on the edge of the carpet. Moths work on the edge only and ten or twelve inches is far enough in. Iron it with a very hot iron, sending the steam down into every crevice and fold. This does away with the necessity of taking the carpet up to rid it of moths. This destroys all insects in the carpet.

TESTED RECIPES.

Fine Oyster Stuffing An excellent oyster stuffing for turkey or goose is made as follows: Take one pint of oysters, melt one-fourth cup of butter and mix with one and one-half cups of cracker crumbs, two teaspoonfuls of lemon juice, one teaspoonful of chopped parsley and season with salt and pepper. Roll each oyster in the buttered bread crumb mixture and then fill the turkey or goose. The oysters may be chopped up coarsely and mixed with the crumbs if desired. It will be necessary to increase the proportions of this recipe for a large fowl to obtain a sufficient amount of stuffing.

Oyster Salad: Drain all the liquid from a quart of fresh oysters. Add to the oysters eight hard-boiled eggs, eight medium-sized pickles, one-half teaspoonful of pepper, one-half teaspoonful of salt, one cupful of celery (chopped), one cupful of crackers and one-fourth teaspoonful of mustard. Pass all through a coarse meat grinder. Pour over the chopped mixture the liquor from the oysters and about one-fourth of a cup of vinegar. Stir the mixture thoroughly and serve on crisp lettuce leaves.

Mexican Tamale Loaf—One pound veal, one onion, two of garlic, one tablespoon chili powder, one can tomatoes (strained), 24 green olives (chopped). Boil the meat until very tender, take from the broth, cool and chop. Return to the broth, add salt to taste, add the onion and garlic chopped fine, then the tomatoes, garlic and chili powder. Let all come to the boiling point, then add yellow corn meal to make as thick as mush, turn into molds and set aside to cool. The loaf may be served either cold or sliced and fried.

Investigating Neighborhood Row. J. M. Devers went to a neighborhood four miles out of Cottage Grove Friday to investigate an alleged case of assault with a deadly weapon. He found that Howard Atkinson had struck G. A. Cavanaugh over the head with a rifle, after a quarrel. Both had guns, according to the information he received. When Atkinson struck Cavanaugh the latter said he fell to the ground and Atkinson then picked up both guns and walked away. The prosecutor said it was nothing more than a neighborhood row, and he will not prosecute Atkinson, although he warned the participants that anything further along that line will result in their arrest.—Eugene Register.

Those who send check or money order by mail to pay subscriptions will receive no receipt unless requested. Watch your label to see that your date is changed. sep22tfc

CHURCH NEWS

[Every religious organization is invited to use this column for announcement of its services and other news. Contributors are requested to omit exhortations and other editorial matter, and to make the announcement of services as concise as possible. Social functions, etc., and news outside of the weekly announcement may be elaborated upon.]

CHRISTIAN CHURCH

Friday evening, choir practice. Sunday, Bible School at 9:45 a. m. Bible School at 11 a. m. and 7:30 p. m. C. E. 6:30 p. m. Prayer meeting Thursday at 7:30 p. m. Ladies' Aid meeting each Wednesday afternoon.

PRESBYTERIAN CHURCH

D. A. MacLeod, Pastor. Phone 137R. Bible School at 10 a. m. Morning worship at 11 a. m. Junior Christian Endeavor at 3 p. m. Evening worship at 7:30 p. m. Service 11:00 a. m., subject "A New Revelation." Subject for the evening, "That Absurd Excuse."

METHODIST EPISCOPAL

Horace N. Aldrich, Pastor. Sunday School every Sunday at 9:45 a. m. Service with sermon, 11 a. m. and 7:30 p. m. Junior League 3:00 p. m. Epworth League 6:30 p. m.

BAPTIST

Rev. C. C. Van Gorkum, Pastor. Sunday School, 10 a. m. Preaching, 11 a. m. and 7:30 p. m. Y. P. S., 6:30 p. m. Prayer meeting Thursday, 7:30 p. m.

FREE METHODIST

Rhoda Burnett, Pastor. Sunday School 10 a. m. Preaching service 11 a. m., followed by class meeting. Services Sunday evening at 7:30. Prayer meeting Wednesday evening at 7:30.

SEVENTH DAY ADVENTIST

Prayer meeting on Wednesday evening at 7:30. Young Peoples' Missionary Volunteer Society, Friday evening at 7:30. Sabbath School each Sabbath at 1:30 p. m. Services following.

CHRISTIAN SCIENCE

The Christian Science church holds service in their chapel, 242 Second St., every Sunday at 11 a. m. and every Wednesday evening at 7:30. All are welcome. Sunday School at 10 a. m. and each Wednesday from 1:30 to 4:30 the circulating library is open to the public.

APOSTOLIC FAITH MISSION.

Fred Honshub, Pastor. Services every Wednesday evening at Mission Hall, opposite depot. Everybody invited to attend these meetings. No collections taken.

Card of Thanks.

We wish to express our thanks to our friends and relatives for their help and kindness during the sickness and death of our dear mother, Mrs. Mary Whitlock, also to the Rebekah and I. O. O. F. lodges and friends for the flowers. H. D. WHITLOCK and FAMILY. Apr. 5pd.

Card of Thanks.

We wish to express our sincere thanks to the many friends who aided us during the illness and death of our daughter and sister. MR. and MRS. WM. LANDESS AND FAMILY. a5c

Bids for School Building.

Sealed bids will be received till Saturday, April 22, 1916, by J. C. Wright, clerk, Walker, Oregon, for bids to furnish all materials for and erect a two-story three-room high school building at Walker, Oregon. Plans and specifications at office of county school superintendent, G. O. Walker, Walker, Oregon, and Veatch & Spencer, Cottage Grove, Oregon. R. Y. PORTER, Chairman. J. C. WRIGHT, Clerk.

Garden and Orchard Hints

Work to be done April 1 to 16: Continue to sow sweet peas on well prepared ground so as to have a continuous lot of blooms.

Where the soil works well enough, sow lawn grass seed, either for new lawns or for repair of old ones. Never neglect staking off all standard trees directly they are planted. A wind-whipped tree cannot obtain a hold.

Frequent hoeing and a little nitrate of soda to push along the early cabbage plants.

Obtain and plant suitable climbers and vines for veranda posts, dead trees or other objects it is necessary to cover. Plant out what pansy plants you intend growing this season.

Where slugs are plentiful sprinkle a little soot and lime around the plants they are disturbing.

The annual fight against weeds is commencing; be ready and get them out off while small.

Prepare the celery ground as early as possible and work in plenty of thoroughly rotted manure.

Have everything in readiness for re-grafting old trees of useless varieties of apples and pears.

The burnt earth and rubbish from a garden fire is excellent material for placing around seedling plants, just put out, to protect them from insects.

THE WHIP IN RIFLE BARRELS.

It is Caused by the Pressure of Modern High Power Powder.

The use of high power powder in rifles has given rise to a phenomenon which did not exist in black powder days. This is known as "whip" and is due to the pressure and vibration set up by the powder. It is constant with given loads and is always in the same direction.

Sights are aligned by the manufacturer to compensate for this whip in proportion to the powder charge used in firing auxiliary cartridges it will of ten be found that the rifle shoots off center. As a matter of fact the bullet from the auxiliary is traveling in a true line with the bore, and it is the sights that are wrong. The lighter charge of the auxiliary does not produce the usual whip, with the result that the line in prolongation of the bore of the rifle along which the bullet travels is not the line given by the alignment of the sights.

Two other rifle terms that must not be confused are up-tilt and keyholing. Keyholing is the tendency of the bullet to turn over in flight, while up-tilt is the slight shortening of the major axis of the bullet due to the force of the charge. It was peculiar to black powder fired behind lead bullets and does not exist to any appreciable extent in metal jacketed bullets with smokeless powder. In the latter case the charge burns more slowly and the jacket stiffens the bullet against the sudden blow from behind.—Outing.

ORIGIN OF THE PERISCOPE.

The Reflecting Spyglass Used at the Siege of Sebastopol.

Speaking of the origin of the periscope, the following extract from the writings of the well known inventor of "Pepper's Ghost" gives the credit to the clerical profession. Pepper wrote soon after the Crimean war:

"During the siege of Sebastopol numbers of our best artillerymen were continually picked off by the enemy's rifles as well as by cannon shot, and in order to put a stop to the foolhardiness and incautiousness of the men, a very ingenious contrivance was invented by the Rev. William Taylor, the coadjutor of Mr. Denison in constructing the first 'Big Ben' bell. It was called the reflecting spyglass, and by its simple construction rendered the exposure of the sailors and soldiers who would look over the parapet or other parts of the works to observe the effect of their shots perfectly unnecessary, while an other form was constructed for the purpose of allowing the gunner to 'lay or aim his gun in safety."

"The instruments were shown to Lord Panmure, who was so convinced of the importance of the invention that he immediately commissioned the Rev. William Taylor to have a number of these telescopes constructed, and if the siege had not terminated just at the time the invention was to have been used no doubt a great saving of the valuable lives of the skilled artillerymen would have been effected."—London Express

Gam's Dry Humor.

When the gallant Welsh captain, David Gam, was sent forward by Henry V to reconquer the French army before the battle of Agincourt he found that the enemy outnumbered the English by about five to one. His report to the king is historic:

"There are enough to be killed, enough to be taken prisoners and enough to run away."

This quaint forecast of the result of the battle at once spread through the camp, and doubtless every yeoman archer of the valiant company felt an inch taller. We know that it was almost literally justified by the event. Poor Gam's dry humor was equalled by his courage. He was killed while in the act of saving the life of his prince.—London Standard.

Distilled Water.

Distilled water after having been exposed to the air is one of the most salutary of drinks. Its daily use in measured quantities is helpful in cases of dyspepsia and greatly assists the general functions of the body. Every large steamer carries a water distilling apparatus by which sea water is made fresh. In the days before steamers primitive distilling apparatus was used on warships and vessels carrying passengers.

Well Fitted.

"Yes, grandma; I am to be married next month."

"But, my dear," said grandma earnestly, "you are very young. Do you feel that you are fitted for married life?"

"I am being fitted now, grandma," explained the prospective bride sweetly. "Seven gowns"—Kansas City Journal.

More Than the Average.

Mrs. Wayup—How much sleep do I need, doctor? Doctor—Well, the average person needs about seven hours Mrs. Wayup—Then I shall take about fourteen. I consider I am much above the average.—Judge

A Plain Heroine.

"This is refreshing. The author says his heroine isn't beautiful."

"It will be refreshing to see the pictures of the heroine come up to the print."—Louisville Courier-Journal.

Many Sided Woman.

Man thinks he is going to solve the mystery known as women after he is married. And then the plot thickens.—Toledo Blade.

It is bad to work idlingly; it is worse to loiter instead of beginning to work at all.

Abandon Smudge Pots.

The farmers of Lane county have abandoned the smudge pot as a means of fighting frost, according to Manager Holt of the Eugene Fruit Growers association. They have learned it is a useless expenditure of money and that little if any results have been obtained in this valley from the burning of crude oil in the orchards during frosty weather. Several years ago quite a number of owners of the larger orchards around Eugene bought smudge pots and oil and arrangements were made with the weather bureau in Portland to send out forecasts of frost so that the orchardists could light the smudges in time. This was tried two or three seasons but the growers one by one gave up the idea and it is probable that there is not one in the county using this method at the present time.

What Printers Are Up Against.

Conditions in the paper trade seem to be growing worse rather than better and this will account for some of the unusual rules and regulations that we're applying to our daily business. Prices are constantly advancing and deliveries are becoming increasingly uncertain. At present it is impossible to furnish price lists dependable for any length of time, as conditions frequently change over night; however, customers can depend upon having orders, placed with us, billed at the lowest price—consistent with prevailing costs.

Before figuring on quantity lots or contracts, we suggest the advisability of securing a definite price, as conditions compel us to make our quotations, unless otherwise particularly specific, subject to change without notice. BLAKE, McFALL COMPANY.

Dogs as Carriers of Parasites.

The United States bureau of animal industry has published a bulletin in which D. M. C. Hall asserts that the destruction of all superfluous dogs, including those whose owners do not keep them at home and in a sanitary condition, would mean the saving annually of hundreds of lives, and millions of dollars in the wealth of the nation. To allow a dog to lick a child's face or its candy is to subject the child to chances of dangerous parasitic disease. Among the diseases which may be transmitted from the dog to man and to other domestic animals are: rabies (hydrophobia), hydatid (liver abscess), dip "measles" (of sheep), tapeworm roundworm in man, and tongue worm in man and stock.

Owners of Pianos Read This.

I want your piano work. Would you prefer a resident tuner, here all the time subject to a call when you need him, and one that spends his money with you? If so, my work will be guaranteed to the limit. Mr. Grable has references at his store. See him. H. S. WEBBER, Address City.

Watch your label on you paper and see that it is changed within two weeks after making a payment.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by his firm. NATIONAL BANK OF COMMERCE, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75 cents per bottle. Sold by all Druggists. Take Hall's Family Pills for constipation.

SPRIGGS BROTHERS BLACKSMITHS

Best land bargain in this section—Eighty acres of good land (15 acres brush, 4 acres cultivated, the remainder piling timber), all under fence, nearly all level. Will go quick at \$10 per acre, all cash. On good road, 7 miles from Cottage Grove, good water, school and church 3/4 of mile. Box 249, Cottage Grove. meh29-apr19c

For Sale—Six year-old mare, weight 1200 lbs., half Percheron. Gentle, drives single or double, \$120. Chas. Bales, 2 1/2 miles east. apr5-tf-sp

For Sale—Two Airedale dogs, they have proven themselves to be varmint dogs. Harry Martin. apr5-12-19pd.

For Sale—Good young farm horse. Glenn Thayer, Creswell, Ore. apr19pd.

Seed Wheat—We have for sale a small quantity of ninety-day spring wheat. Fred Wright & Sons, Walker, Ore. apr12p

Twelve-inch water motor for sale. The Sentinel. meh29tf

For Sale—Two fresh milch cows, 3 and 5 years old. A. J. Young, Wildwood. Apr5pd.

Fine O. I. C. pogs for sale. John Hull, 2 miles south of city. Apr6tfc

For Sale—2 lots and 3-room house on West Main. Phone 2P11. apr19pd

For Sale—Young parrot, fine talker, very pretty. A bargain at \$16. Mrs. Wilbur, 157 Pacific Highway. a5m3sp

Wanted—A man to take charge of 800-acre ranch on shares. Have 30 head of stock, ten milk cows, three horses; milk goes to cheese factory. Jesse Darling, Loraue. apr5-19pd

I will sell my home at Twelfth and Washington avenue, joining city park, for \$1,200 on the following easy terms: \$200 down; balance in payments of \$100 per year at 6 per cent interest on decreasing balance. Large lot, fenced, good well, newly-painted house, trees, roses, vines, etc. Small barn, chicken house and yard. D. W. McKinney, Sagsinaw, Ore. a5m3sp

U. S. letters patent on a sanitary tray for a child's high chair table; can be made of any smooth sheet metal from block tin to solid gold; sanitary, light and easily managed; removable for cleansing; no corners to accumulate dirt and germs. Will sell full right and royalties. Address Mrs. E. P. Vaughn, Sagsinaw, Oregon. a5m3sp

WANT ADS.

WANT AD. RATES. One cent per word. No ad accepted for less than 15 cents. Special cash-with-order rate:—Three insertions for the price of two, six insertions for the price of four. Cash must accompany copy. Land for sale or trade, ten insertions for the price of five. Cash must accompany order.

If you have something of the value of \$5.00 or more that you are willing to sell or trade at a bargain, see The Sentinel about its special proposition of no sale, no pay.

Good 7-room house to rent on East Main St. \$6 per mo. Robert Griffin apt15tfc

Doctor Goff, corn doctor, licensed to practice in any state. Cure guaranteed. Your money or your corn back if not satisfied. meh1tf
