

These Lenses Do Not Touch Your Eyelashes

Their deep curve leaves plenty of room, and allows the edges of the lenses to fit close to your eyes. You can forget this annoyance if you wear Toric Lenses. We shall be glad to tell you more about them.

TESTED RECIPES

Peanut Butter Fudge—Two cupsful of light brown sugar, one-half cupful of milk and a scant two-thirds of a cupful of peanut butter. After boiling the sugar and milk to the soft ball stage, remove it from the fire and gradually beat in the peanut butter. Replace on the fire a moment, then spread on a buttered pan, and when partly cool cut into squares.

Boiled Hominy—One cup of hominy grits, four cups of boiling water, and salt to taste. Have the water boiling in a fireproof dish, stir into it the hominy, adding salt to taste, and cook slowly for three hours or longer stirring frequently. If the hominy is soaked overnight one and a half hours' boiling in the morning will suffice.

Sweet Milk Cookies—Flour, one cupful of sugar, one cupful of lard, pinch of salt, one-half cupful of sweet milk, flavoring (vanilla or one-half grated baking powder). One heaping teaspoonful of lard powder. Thoroughly blend the sugar and the lard; add the milk, salt and flavoring; sift the baking powder in with one cupful of flour and then add enough flour to make a dough soft enough to roll thin. Bake the cookies in a quick oven.

FADS AND FANCIES

Use warm water to sprinkle starched clothes and the effect will be twice as satisfactory.

A painter's brush may be used to dislodge dust from cracks and crevices about the house.

To remove rust, wet with lemon juice, rub with salt, and lay in the sun.

Try removing mildew by soaking in a weak solution of chloride of lime, then rinsing in cold water.

Elasticity is restored to rubber by cooking one part of ammonia and two parts of water.

To cut fresh bread, dip the knife in boiling water, and you can then cut the thinnest slice from a fresh loaf.

To keep the clothes from freezing in cold weather, throw a handful of salt into the blueing water. Warm the clothes pins in the oven before hanging out the clothes and the hands will not chill so quickly. It is a good plan to wear white woolen gloves if one does not find them awkward in handling the clothes.

Salt will remove stains from silver caused by eggs, when applied dry with a soft cloth.

To remove stains from tableware a little saleratus rubbed on with the fingers or a bit of cloth will remove the stains from cups and other articles of tableware and tinware and marbled oil cloth.

To press a plaited skirt, fasten the plaits in place by pinning to the ironing board, then hold the waist band firmly in one hand and stretch slightly toward the top.

A committee composed of business men from all parts of Oregon has proposed an amendment to the prohibition law of Oregon which, if adopted at the next general election in November, will allow Oregon breweries the right to manufacture and sell the beer that is now shipped into the state.

Instructive Pictures.

From an educational standpoint the "Lure of Alaska," shown at the Arcade Thursday evening, outlasted anything previously shown here. There were but few who did not have their eyes opened by the pictures showing the stupendous possibilities of this great wonderland and many were surprised at the development that has already taken place there. Those who had expected to see pictures of nothing but icebergs and moving glaciers were surprised to find the country much like the rest of the United States.

Error Corrected.

An unintentional error was made in the writup in the last issue of the recital by the pupils of Mrs. Leon DesLarzes. Miss Marian Hooper, one of the advanced pupils, whose pleasing voice has been heard with delight in previous programs, was listed with some of the younger pupils. The error is explained by the fact that the recital was held Tuesday evening and there were but a few minutes Wednesday morning to get the writup into type, the error not being observed by the proof reader in the rush.

Masonic Lodge Entertains.

Cottage Grove Lodge No. 51, Ancient Free and Accepted Masons, entertained Wednesday evening for visiting brethren from Lorane. There was a pleasing musical program and an interesting address on Masonry by Rev. D. A. MacLeod. Refreshments were served by the Constellation club.

The lodge is making arrangements for the celebration of St. John's day, June 27. This will be public and will be held at the Methodist church.

Calkins May Be Delegate.

Complete unofficial returns from 11 of the 17 counties in the first congressional district indicate that W. W. Calkins of Eugene has a good chance of election as district delegate to the republican national convention. There are four candidates in the race and according to the figures thus far in Mr. Calkins stands second, with two to be elected. C. P. Bishop of Salem has a long lead with Albert W. Abraham of Roseburg next after Mr. Calkins.

Foot Injured at Mill.

Oscar Woodard sustained a painful injury to his right foot Saturday while employed at the Woodard mill at London. A log rolled down on him catching his heel and doubling up his foot. His ankle was sprained but no bones were broken.

Jurymen Selected.

The following residents of the Cottage Grove country have been drawn as members of the grand jury which convenes June 5: E. E. Hoffman, Lorane; John W. Massey, London; Fred E. Beidler, Cottage Grove; M. C. Horn, Saginaw.

Potter Polls Big Vote.

Partial returns from the counties of the second judicial district indicate that E. O. Potter of Eugene has been nominated by a plurality greater than received by either of the other successful candidates.
