

# GREAT NAVAL BATTLE FOUGHT IN NORTH SEA

## British Admit Loss of 14 Vessels and Claim German Loss Was 18.

London.—The German high-sea fleet in the North Sea, off the coast of Jutland, engaged a British fleet in what probably was the greatest naval battle in the world's history so far as tonnage engaged and tonnage destroyed was concerned.

When the battle ended Great Britain had lost the battle cruisers Queen Mary, Indefatigable and Invincible, the cruisers Defence, Black Prince and Warrior and eight torpedo-boat destroyers.

The British admiralty issued a statement saying there was the strongest ground for the belief that the British navy in the battle had accounted for a total of 18 German men-of-war, and that there was nothing to add to or subtract from the original announcement of the British losses.

The statement gave the German loss as two battleships, two dreadnought battle cruisers, four light cruisers, nine torpedo boat destroyers and a submarine.

More than 4000 British officers and men, including two admirals, were admitted to have been lost.

It is impossible to visualize any coherent story of the great battle, which lasted many hours, with the different units at times fighting scattered engagements. The British and German reports contradict each other flatly on the main fact. The British assert that the German fleet retired when the British battleships appeared, while the German official statement maintains that the German forces were in battle with the entire British fleet.

The British assert that they had only two divisions engaged and that all the units of these were not able to participate in the fighting, and furthermore Admiral Sir John Jellicoe, commander of the grand fleet, remained in the area of the battle after the Germans had retreated, and swept it thoroughly in search of enemy ships and survivors.

# GERMANS CLAIM DEFEAT OF BRITISH

Berlin.—Victory for a German squadron over the main British fleet in the greatest sea battle of the war, was claimed in an official statement issued from the German admiralty.

Eight British warships and one submarine were sent to the bottom and a number of other British warships were damaged, according to the official announcement.

The German losses were confined to the battleship Pommern, torpedoed by a British submarine, and the sinking of the small cruiser Wiesbaden. It was admitted, however, that the German cruiser Frauenlob and several torpedo boats are missing and their fate is not known.

Berlin is literally mad with joy over what is characterized as the "greatest victory of the war."

Vice Admiral Scheer, commander of the German battle fleet, was in personal command of the German forces.

# ENGLISH LOSS IS LARGE

Practically All of British Officers on Twelve Warships Were Killed.

London.—A total of 333 officers were killed in the Jutland battle, according to a list issued by the admiralty. This list shows that practically all the officers of the cruisers Queen Mary, Invincible, Indefatigable, Defence and Black Prince and of the destroyers Tipperary, Turbulent, Fortune, Arden, Nomad, Nestor and Shark perished. All the officers except one from the cruiser Warrior were saved and all the officers from the destroyer Sparrow Hawk. On the other ships 23 officers were killed and 22 were wounded.

German sailors, rescued by Scandinavian steamers, described the Teutonic losses in the Jutland battle as colossal, according to a Copenhagen dispatch. A large number of the crew of the cruiser Wiesbaden and men from several German torpedo boats have been rescued and brought to Copenhagen.

An Edinburgh dispatch says that survivors of British destroyers engaged in the Jutland fight declare they are convinced that in a massed attack of torpedo craft they sent the German dreadnought Hindenburg to the bottom.

Ambassador Chinda to England. Tokio.—Japan has asked Great Britain to approve the appointment of Viscount Suteimi Chinda, now ambassador to the United States, as Japanese ambassador to the court of St. James, as successor to the Marquis Katsunouke Inouye, who desires to return home.

# ADDITIONS TO NAVAL PROGRAM PLANNED

## Two Dreadnaughts, a Battle Cruiser and Flotilla of Dirigibles Proposed.

Washington.—Two dreadnaughts, one battle cruiser and a flotilla of dirigibles, the equivalent of Zeppelins, will be added by the senate to the naval program indorsed by the house, as the result of lessons from the Skagerrak naval battle, Chairman Tillman of the senate naval committee said.

Tillman's committee will study over the battle with navy department officials informally until June 19. At that time, definite work on the program, in view of all that has been learned and deduced, will begin.

Secretary Daniels indicated it may be necessary for the United States to go into government manufacture of airships, inasmuch as American manufacturers practically refuse navy orders, in view of the big profits to be obtained from the allies.

Navy Appropriation Bill Passes House. The second of the big preparedness measures, a naval appropriation bill larger by many millions than any ever before considered in congress, passed the house almost unanimously. It carries a building program for next year of five battle cruisers, four scout cruisers, ten destroyers, 50 submarines and 130 aeroplanes, provides for a government armor plate plant, authorizes an increase of nearly 17,000 enlisted men and appropriates a total of \$269,900,000.

Only four representatives voted against passage of the bill to 358 favoring it.

With the passage of the bill the house completed the major portion of its share in the preparedness program, the last of the three bills carrying the important provisions of the program—the army, naval and fortifications measures—only the last named remains to be considered. It probably will be taken up in the house after the national conventions, while the senate is debating the naval bill.

Oregon's Share in Land Grant is Cut. Conferees of the house and senate on the Oregon & California railroad land grant bill reached an agreement under which the timber on the land forfeited for violation of the grant would be sold for cash instead of on credit, as proposed, by the house.

Of the proceeds 40 per cent would go under the conference agreement, to the federal reclamation service, 10 per cent to the state of Oregon for schools and 25 per cent to the land grant counties in Oregon for school, road or district court purposes.

The only other deviation from the house bill was an agreement to divide equally between the state and the government whatever sums are recovered from the railroad company in the adjustment of taxes and the excess amounts charged for the lands. This amount is estimated at from \$1,000,000 to \$3,000,000.

The conferees' agreement gives Oregon 50 per cent of the proceeds instead of 90, as provided by the senate amendment. This 50 per cent is to be divided equally between the counties and the state, the county courts to apportion the funds.

Tone of Mexican Note is Offensive. General Carranza's note demanding withdrawal of American troops from Mexico has brought no change in the determination of President Wilson to maintain the troop disposition until the ability of the de facto government to police its side of the border has been demonstrated. It was stated authoritatively that General Pershing's force would remain where it is until that time arrived.

While official comment is withheld, it is understood that the tone of the document is regarded as decidedly offensive, and that certain portions of it, such as the thinly veiled accusation that the president is playing domestic politics in retaining the troops in Mexico, may draw a sharp rebuke. It is doubtful, according to authorities on the international correspondence of the United States, if the government ever has received a communication couched in as offensive terms and containing as many apparent violations of the ordinary uses of diplomatic courtesy as this 12,000-word arraignment of its good faith and honesty of purpose.

Gavira and Pershing Confer. Colonia Dublin, Mex.—Plans for cooperation between American and Mexican forces in northern Chihuahua were discussed at a meeting between General Gabriel Gavira, constitutionalist commander of northern Chihuahua, and General J. J. Pershing, American expedition commander.

Villistas Whipped by Apache Indians. Columbus, N. M.—Twenty Apache Indian scouts engaged a small band of Villistas, near Las Varas, wounding one and chasing the others into the hills, according to reports here.
