

## For a Tip-Top Breakfast

Serve

# New Post Toasties

Here's the why:

The New Toasties have a delicate, true corn flavour—unmatched by any other corn flakes. Trial proves.

They are the meat of choicest white Indian Corn—first cooked and seasoned, then rolled into thin wisps and toasted by quick, intense rotary heat. This new patented process of making raises distinguishing little bubbles on each flake, and brings out their wonderful new flavour.
